**excluding Other Income*

Management Commentary

Commenting on the performance, Mr. Sanal Kumar, Director and CEO said:

"While the underlying business continues to offer opportunities for growth, the operating environment during Q2 FY27 remained challenging. A slowdown in tendering activity, increased competitive intensity and temporary disruptions at our Hosur facility, coupled with higher raw material costs, impacted our performance. Consolidated revenue stood at ₹69 crore, while EBITDA was ₹8 crore.

On the EPC front, the pace of new tendering activity remained relatively slow and at the same time, increased competition led to aggressive bidding across certain projects. In this environment, we have remained selective in pursuing opportunities, prioritising projects that offer sustainable margins and execution visibility rather than focusing solely on order inflows.

Our unexecuted order book stood at ₹327.70 crore as of September 30, 2026, providing visibility for future execution. We remain focused on progressing our existing projects, improving operational efficiencies and strengthening our order pipeline.

Looking ahead, we anticipate a gradual improvement in tendering activity and the potential resumption of operations at Hosur, subject to regulatory and legal developments, would also support our operational recovery. Our priority remains disciplined execution, margin protection and converting opportunities into profitable growth over the coming quarters."

About Vishnusurya Projects and Infra Limited:
