VL E-GOVERNANCE & IT SOLUTIONS LIMITED (VLE)

PRESS RELEASE

VLE SIGNS MOU WITH EKANSH CONCEPTS LIMITED TO ACT AS AN EPC PARTNER TO EXECUTE THE SANKALP INDUSTRIAL SMART CITY PROJECT

MUMBAI, May 20, 2025: VL E-Governance & IT Solutions Limited (VL E-Governance) is pleased to announce the signing of a Memorandum of Understanding (MoU) with Ekansh Concepts Limited, under which VLE will act as the Engineering, Procurement & Construction (EPC) Partner to execute the Sankalp Industrial Smart City Project.

The Sankalp Industrial Smart City Project is strategically located at the junction of the Mumbai–Nagpur Samruddhi Mahamarg and the Delhi–Mumbai Expressway, covering 494 acres in its Phase I. With an estimated EPC contract value of approximately ₹800 crores, the project is poised to become a landmark development that integrates cutting-edge industrial, residential, and logistical infrastructure.

The Sankalp Industrial Smart City is a multi-sector, integrated development initiative with VL E-Governance as its EPC partner:

- Roof Top Solar Installations
- Open Access and Captive Power Infrastructure
- Power Distribution Franchisee
- Data Centers
- Large-Scale Warehousing Hubs
- Residential Township with Smart Infrastructure

Upon the successful completion of Phase I, the project is designed to expand into Phase II (565 acres) and Phase III (901 acres), further extending its integrated industrial, residential, and logistics offerings within the extending smart city framework.

Commenting on this partnership, Mr. Sanjay Nandwana, Managing Director of VL E-Governance & IT Solutions Limited said that: *“We are extremely proud to join hands with Ekansh Concepts Limited on the Sankalp Industrial Smart City Project. This collaboration underscores VL E-Governance unwavering commitment to pioneering sustainable, state-of-the-art infrastructure solutions that not only meet today’s needs but anticipate tomorrow’s challenges. By integrating green energy technologies—such as rooftop solar arrays and open-access power models—with advanced digital platforms for traffic management, surveillance, and utilities monitoring, we are setting a new benchmark for smart urban ecosystems in India.*

“Our vision for Sankalp is to create a truly holistic development that seamlessly blends industrial capacity with residential living and logistical efficiency. Beyond the immediate economic impact—generating thousands of jobs in engineering, procurement, construction and operations—this project will serve as a replicable model for future smart-city initiatives across the country. We believe that by prioritizing energy efficiency, data-driven planning and community-centric design, the Sankalp Smart City will emerge as a beacon of integrated urban planning, demonstrating how technology can elevate quality of life while preserving our environment.”
