City Union Bank mulls co-lending in gold

SAJAN C KUMAR
Chennai, August 18

PRIVATE SECTOR LENDER City Union Bank (CUB) is contemplating entering into co-lending activities in gold, vehicle and housing loan products, in collaboration with gold loan firms and other NBFCs.

The bank has initiated preliminary discussions with gold loan companies whose main areas of operation is predominantly non-Tamil Nadu and a

few of the NBFCs based in Tamil Nadu where the bulk of the lending is happening on the vehicle front.

N Kamakodi, MD & CEO of CUB, speaking at an earnings call, said that the bank has kick-started the first-level interactions on the new initiatives.

“What we are basically looking forward is the co-lending opportunities in the secured advances. Predominantly we are expecting them

to be in either the gold loan front or vehicle front or the housing loan front,” he said. He said those gold loan companies with whom the bank is discussing opportunities, the majority of their business is coming from outside of Tamil Nadu.

“But the the names and other things, which I don't want to disclose now. Basically, their main areas of operation is predominantly non-Tamil Nadu,” he said.

Sebi gives board representation to REITs' unitholders

PRESS TRUST OF INDIA
New Delhi, August 18

TO BOOST CORPORATE governance norms, markets regulator Sebi has notified rules introducing special rights to unitholders of REITs who can now nominate representatives on the boards. Also, the regulator has introduced the concept of a self-sponsored REIT.

Further, Sebi said that principles of stewardship code would apply to members, nominated by the unitholders, on the board of directors of investment managers of REIT. Amending rules for REITs, Sebi said, “Unitholders holding not less than 10% of the total outstanding units of the REIT, either individually or collectively, shall be entitled to nominate one director on the board of directors of the manager.” This would ensure pro-rata rights to all unitholders. Further, the director so nominated would recuse from voting on any transaction in which such nominee director or the unitholder who nominated such nominee director is a party, Sebi said.

Retail investors' interest in InvITs and REITs has been increasing and the current regulatory framework does not explicitly provide for unitholders to have a say in the decisions made by the investment managers of these funds.

ABOUT CONCORD

Concord is among leading manufacturers of fermentation-based biopharmaceutical active pharmaceutical ingredients (API).

It also focuses on niche segments such as immunosuppressant, oncology, anti-fungal and anti-bacterial. The firm has 23 API products

Offer (IPO) of Concord Biotech was subscribed 2.86 times last week.

The ₹1,550.59 crore initial share-sale had a price range of ₹705-741 a share. Rare Enterprises-backed Concord Biotech's Initial Public Offer was entirely an offer for sale (OFS).

Concord is among leading manufacturers of fermentation-based biopharmaceutical active pharmaceutical ingredients (API), focused on niche segments such as immunosuppressant, oncology, anti-fungal and anti-bacterial. The company, which has 23 API products, has three manufacturing facilities at Valthera, Dholka, and Limbasi, in Gujarat.

India's oil demand may peak as import growth slows

HOWEVER, THE INCREASE in export-oriented import of crude oil hasn't sustained in the latter period. Export of products fell to 61 MT in FY23, with a significant decline in net exports to 16.5 MT. Going by the consumption pattern of diesel, which is two-and-a-half times that of petrol in India, energy transition is clearly happening in transportation.

This is the largest oil-consuming segment that includes cars, buses, trucks, aircraft and large ships. The domestic consumption of diesel, which grew 72.4% from 39.7 MT to 68.4 MT during FY05-FY14, increased at a slower rate of 25.6% thereafter to 85.9 MT in FY23. Petrol consumption grew at a similar rate of 107.6% and 104.2%, respectively.

“There has been progressive improvement in the efficiency of car engines and there are other fuels that are now competing, such as CNG and ethanol blending in petrol. Overall our crude import would reduce to some extent due to lower consumption in the transport sector,” said Prashant Vasishth, vice president and co-head, corporate ratings, Ica.

In Delhi and other big cities where city gas distribution has been implemented, public transport like buses and autorickshaws were converted to CNG. Besides, the differential between petrol and diesel prices reduced, leading many to shift to the less polluting fuel petrol or CNG, Vasishth said for the deceleration in diesel consumption.

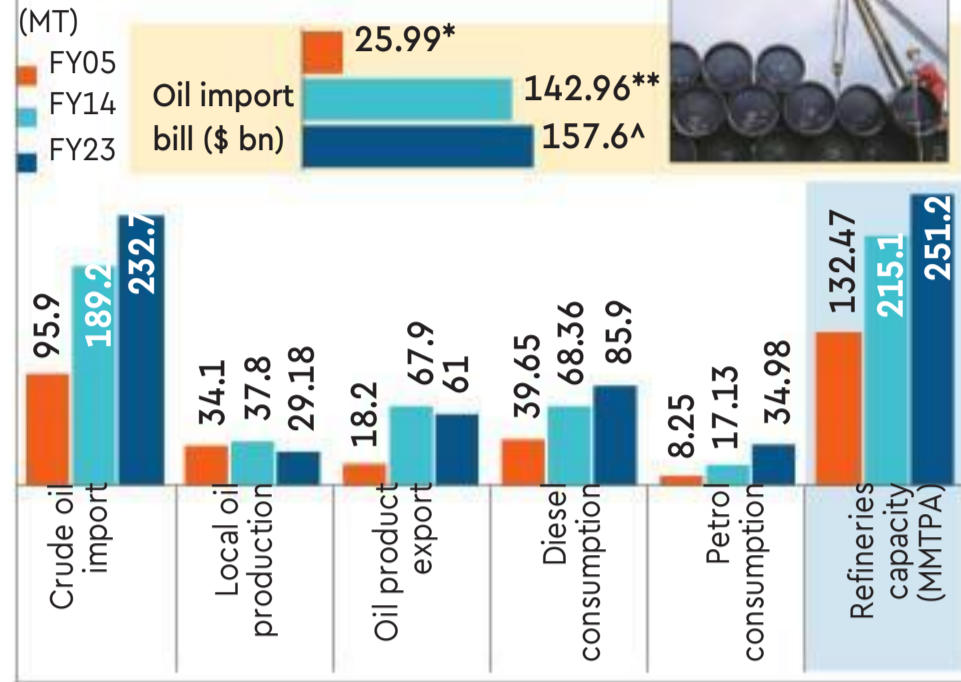

“While LCVs are being converted to CNG, a large proportion of two-wheeler population has been electrified. With power situation improving, use of diesel gensets across urban and rural areas, including the farm sector, came down,” he added.

With energy transition set to further reduce demand for oil products, the next big oil-consuming segment is the petrochemicals industry, which the government is keen on encouraging as about 80% of India's petrochemical capacity is integrated with petroleum refineries.

“REs (regulated entities) shall share to the borrowers through appropriate channels a

to CNG. Besides, the differential between petrol and diesel prices reduced, leading many to shift to the less polluting fuel petrol or CNG, Vasishth said for the deceleration in diesel consumption.

Loan reset: RBI gives borrowers more say

Borrowers shall also be given the choice to either opt for enhancement in EMI or elongation of tenor or for a combination of both options or to prepay, either in part or in full, at any point during the tenor of the loan.

Further, all applicable charges for switching of loans from floating to fixed rate and any other service charges, administrative costs shall also be transparently disclosed in the sanction letter and also at the time of revision of such charges, costs by lenders from time to time.

“REs (regulated entities) shall share to the borrowers through appropriate channels a

statement at the end of each quarter which shall at the minimum, enumerate the principal and interest recovered till date, EMI amount, number of EMIs left and annualised rate of interest / Annual Percentage Rate (APR) for the entire tenor of the loan. The REs shall ensure that the statements are simple and easily understood by the borrower,” the RBI said.

In case of loans linked to an external benchmark under the External Benchmark Lending Rate (EBLR) regime, the banks should follow extant instructions and also put in place adequate information systems to monitor transmission of changes in the benchmark rate to the lending rate. Lastly, lenders shall ensure that the new norms are followed on existing as well as new loans suitably by December 31.

According to AM Karthik, vice president of financial sector ratings at Ica, given the increasing retailisation of credit, proposals to transparently disclose the implication of interest rate resets in floating rate loans is a sound move to educate and inform the borrowers, as they can better understand the impact of the changes in these terms while availing loans.

The central bank said banks should ensure that the elongation of tenor in case of a floating rate loan does not result in negative amortisation. Regulated entities will have to share or make accessible to the borrowers, through appropriate channels, a statement at the end of each quarter which will enumerate the principal and interest recovered till date, EMI amount, the number of EMIs left and annualised rate of interest.
