SpiceJet shares up 2% on fundraising talks

SPICEJET PLANS to raise funds through issuance of equity shares or debt instruments and the proposal will be discussed at its board meeting on Wednesday. Shares of the company gained over 2% to close at ₹79.65 on the BSE on Monday. The proposal comes at a time

when the airline industry is grappling with strong headwinds due to the pandemic that has also resulted in less occupancy in many flights. Earlier this month, InterGlobe Aviation, parent of IndiGo, received shareholders' nod for raising up to ₹3,000 crore.

In a regulatory filing late on Sunday, SpiceJet said its board of directors will consider "options for raising fresh capital through issue of equity shares/debt instrument on preferential/qualified institutions placement basis," at the scheduled meeting on June 30. —PTI

The above statement of audited financial result was taken on record by the Board of Directors in their meeting held on 28th June 2021. The statutory auditors have expressed an unmodified audit opinion on these results.

The name of the Company has been changed from Jindal Photo Imaging Limited to Universus Photo Imagings Limited w.e.f. 12th December 2019.

These standalone financial results have been prepared in accordance with the Indian Accounting Standards (Ind-AS) as prescribed under Section 133 of the Companies Act, 2013 read with Rule 3 of the Companies (Indian Accounting Standards) Rules, 2015 and relevant amendment rules thereunder.

Pursuant to outbreak of coronavirus disease (COVID-19) worldwide and its declaration as global pandemic, which led the temporary suspension of the operations of the company and has impacted the overall business of the company. COVID-19 has impacted the normal business operations of the company by way of interruption in production, supply chain disruption, unavailability of personnel, closure/ lockdown of production facilities etc. during the lockdown period. After resumption of operations, the management has made detailed assessment of its liquidity position and has prepared future cash flow projections and also assessed the recoverability of its assets and factored assumptions used in the annual impairment assessment of its cash generation units, using various internal and external information. The situation is changing rapidly giving rise to inherent uncertainty around the extent and timing of the potential future impact of COVID-19 which may be different from that estimated as at the date of approval of these financial statements. The company will continue to closely monitor any material changes arising of future economic conditions and impact on its business.

The figures for the quarter ended March 31, 2021 are balancing figures between the audited figures of the full financial year and the published year-to-date figures up to the third Quarter of the financial year.

Figures from the previous quarter/ period have been regrouped/ rearranged wherever required, to make them comparable.

During the year under review company's one of investee company namely JPF Netherland BV, an associate company, offered two Rights issues of different rights shares to its shareholders in which the company decided not to subscribe in line with its India centric investment strategy and no dividend yield from this investment so far. Consequently the shareholding of the company in JPF Netherland "BV" now stands at 39.87% (previous year - 47.51%).

● INTERVIEW: PRASHANT JAIN, joint MD, JSW Energy 'With debt pared, on track to achieve ₹70k-cr renewables target by 2030'

Reliance Industries' gigafactories will be a game changer for power generation companies like JSW Energy, and will change the dynamics of the sector, given the cost and price competitiveness of solar panels produced, according to Prashant Jain, joint MD of JSW Energy. Jain tells Vikas Srivastava the company will source solar panels from RIL as and when they are available, though it is too early to talk about about partnerships for JSW Energy's planned ₹70,000-crore green energy push by 2030. Edited excerpts:

What was the reason for the strong operating margins in Q4FY21 even though the revenues were impacted? You have to look at the overall long-term power purchase agreements (PPAs), which in our case was 86% of the total power portfolio. The PPAs provide us long-term visibility and keeps our Ebitda stable. We have the security of fixed cost and compensation in case the buyer refuses offtake of power. In January-March quarter of 2021, total generation dipped 8% year on year (y-o-y), but the operating profit stayed flat, because we got a compensation of ₹100 crore from a buyer who did not purchase power last year. Also, our profit before tax was up by 6% y-o-y in Q4FY21 because our interest cost was lower. So, all these factors helped us to have a positive operating margin.

What is your debt position at present and how will it

impact your ₹70,000-crore expansion plans for renewable push? We reduced our debt by ₹2,700 crore in FY21 to ₹8,907 crore and improved our leverage substantially. Our net debt to equity is the lowest in the industry at 0.43 times compared to five times of the other industry players. We also reduced our receivable by 38% y-o-y in FY21 to ₹1,300 crore, which is the best in the industry. Our cash and cash equivalent is ₹2,000 crore as of March 31, 2021.

The low leverage position will help us achieve a 20 GW renewable capacity expansion target by 2030 at a cost of ₹70,000 crore. Given our strong balance sheet, we plan to fund our entire equity requirement from internal accruals without any dilution. The board has approved an addition of 2,500 MW capacity by June 2024, where 200 MW will be added between January-March of 2022 followed by 150 MW every month. This will help us reach 7GW renewable capacity, which will be 65% of the port-

folio compared to 4.6 GW at present. In addition, we will participate in several bids and undertake projects to increase capacity to 10 GW by 2025. Further, we will add 2 GW every year to reach 20 GW by 2030. This will entail an investment of ₹27,000 crore by 2025 with an equity contribution of 30% and a debt component of 70%.

RIL is setting up four gigafactories in the green energy space. Would JSW Energy like to partner with RIL for its green energy push? These manufacturing units will be a game-changer for a company like us. It will change the dynamics of the sector as the price of modules will become very competitive. We will source the panels for our projects from RIL as and when they are available. However, to talk any further on partnerships will be a matter of conjecture.

How do you see the demand and generation outlook in FY22, given the first three months were affected by the Covid-19 second wave?

In April, the demand was very robust and it saw a 35% y-o-y growth. However, in May and June it grew only 7% as the second wave had already hit the country. However, I believe FY22 will see a 4-5% y-o-y growth in power demand compared with a degrowth of 1.2% a year ago. The growth will be led by industrial and commercial demand which were badly impacted due to lockdowns.

Mastercard buys stake in Instamojo

PRESS TRUST OF INDIA
 New Delhi, June 28

GLOBAL PAYMENTS TECHNOLOGY major Mastercard has picked up an equity stake in Instamojo, a digital platform catering to small businesses and self-employed workers, for an undisclosed amount.

The investment is aimed at empowering millions of MSMEs and gig workers by providing easy to use solutions that will help them to rapidly digitise such as setting up online stores, equipping them with digital payment acceptance capabilities and reaching out to customers, during the pandemic, Mastercard said on Monday.

Instamojo provides small and micro merchants a ready-made virtual platform through which they can set up an e-commerce business and accept digital payments. Using Instamojo's platform, merchants would have ready access to a fully functional online store with in-built payments and shipping capabilities, marketing tools and other value-added services, Mastercard said.
