1) Q1FY: 2026-27 PERFORMANCE:

- During Q1 FY:2026-27: the Company achieved net sales and service revenue of ₹543.78 crores, registering a growth of 28% against the Q1 FY:2025-26.
- The operating profit increased to ₹76.91 crores, registering a growth of 11% against the Q1 FY:2025-26.
- The Company look forward to sustaining growth momentum, as order inflow is expected to continue at market prices.
- The Company has begun FY:2026-27 with order backlog of Rs.1200 crores (10270 MVA) and fresh orders worth Rs.1142 crores (7775 MVA) have been booked till date from April this year giving revenue visibility of Rs.2342 crores (18045 MVA) as on date. Supported by a robust enquiry pipeline, the Company remains confident of delivering healthy volume growth during FY 2026–27.

(P.T.O)

2) UPDATE ON CAPEX:

- The construction of our new EHV Transformer factory was completed within the budgeted timeline. The major plant and machinery got installed as planned but delays in the delivery of few equipment imported by vendors impacted the project commissioning schedule, resulting in a deferment of factory operations by approximately two months. The new facility will be fully ready by end of second quarter and full-fledged manufacturing operations will commence from October 2026.

- With increase demand for electricity and transformers projected over the next 5 to 6 years, it has become imperative to enhance manufacturing capacity. Given the constraints on expansion at our current facility located at Savli, capacity addition in Dry Type Transformer manufacturing is planned at a new location. The Company has executed land purchase agreement for a new plot of land near Vadodara. The necessary approvals from the government authorities are expected by September 2026. On getting requisite approvals, new factory construction work to commence with completion time of about 12/14 months thereafter.

  Present plan is to to build a new state-of-the-art facility for manufacturing Dry Type Transformer, entailing a capital expenditure up to ₹ 90 crores for an additional capacity of 2300 MVA p.a. The proposed project will be funded through internal cash accruals.
