Higher interest income, lower expenses boost IOB profit

FE BUREAU
Chennai, October 16

INDIAN OVERSEAS BANK (IOB) reported a 58% year-on-year jump in its net profit for the September quarter to ₹1,226 crore, supported by higher interest income and lower operating expenses. The lender has maintained a ₹1,000-crore-plus quarterly profit for the third consecutive quarter.

Interest income rose 15% year-on-year to ₹7,849 crore while interest expenses grew 11% to ₹4,789 crore. Consequently, net interest income (NII) increased 21% to ₹3,059 crore. Domestic net interest margin (NIM) improved to 3.35% compared with 3.21% in the year-ago period and

REPORT CARD

Source: Company financials

3.17% in the June quarter. Total advances expanded 21% to ₹2.78 lakh crore while deposits rose 9% to ₹3.39 lakh

up 14%. Retail advances surged 45% to ₹78,765 crore while agricultural advances grew 27% to ₹83,023 crore. Advances to the MSME sector increased 17% to ₹48,494 crore. However, corporate advances fell 3% to ₹50,133 crore. Retail, agriculture, and MSME loans together now account for 81% of the total loan book, up from 76% in Q2FY25.

Managing Director and CEO Ajay Kumar Srivastava said the retail and agricultural loan portfolios are expected to surpass the ₹1-lakh-crore mark each during FY26. Lower-cost current and savings account (CASA) deposits rose 4% to ₹1.37 lakh crore while retail term deposits grew 15% to ₹1.71 lakh crore.

● AJAY KUMAR SRIVASTAVA, MD & CEO, INDIAN OVERSEAS BANK

‘MCLR-linked loans to account for 54% of our book by year-end’

Indian Overseas Bank has reported a ₹1,000-crore-plus profit for the third consecutive quarter. MD and CEO Ajay Kumar Srivastava tells Narayanan V about the key drivers behind this growth, the bank's shift towards high-margin loans, and its preparations to meet the expected credit loss (ECL) framework. Excerpts:

Deposit growth lagged at 9% even as advances rose 21% in Q2. Deposit growth should ideally be in line with credit growth, but that is not happening for the last six-seven quarters. Credit growth is essential – without it, there's no income or profitability. To bridge the gap between credit and deposit growth, we are borrowing from the market. We also get refinancing from Sidi and Nabard at affordable rates. Through these measures, we are meeting our credit requirements and maintaining our credit-to-deposit ratio in the 80–85% range.

What is your strategy to increase deposit? CASA deposit mobilisation is a challenge for the entire industry, and IOB is no exception. One of the strategies is onboarding more customers. In the last two-and-a-half years, we have added around

8.5 million customers, with balances of over ₹24,000 crore in their CASA accounts. In H1 FY26, we added 2.1 million CASA customers, who together hold balances of ₹7,100 crore as of now. The growth in CASA deposits is happening, though not at the desired level – but importantly, we are not de-growing.

What's the impact of repo rate cuts on your business? The repo rate has been reduced by 1% in the last six months. Earlier, about 60% of our total credit portfolio was linked to the repo rate, which meant 60% of the portfolio will be directly impacted by the 1% reduction in terms of interest income. We reworked our strategy, and as a result, the share of repo-linked loans has come down to 46% from nearly 60% five-six months ago. The share of MCLR-linked loans has increased from 40% to 49%. Interest rate reduction happens in MCLR as well, but with a lag, which gives us some time to recover. Having said that, we

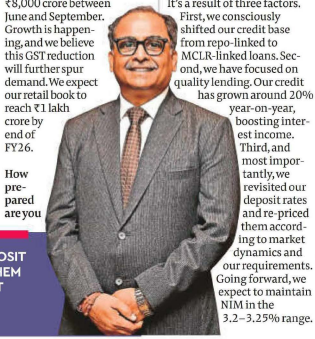

need to maintain a balance. Two years from now, if repo rates start rising again, we will have to shift back to repo-linked loans. At present, MCLR-linked loans are more beneficial for us, and by the end of the year, their share could rise to around 53–54%.

Has the GST rate cut helped spur retail loan demand? There's a lot of enthusiasm and increased inquiries from customers, and it's clearly visible in our retail lending. Our retail advances have grown by 45% year-on-year to ₹78,765 crore. It has grown by almost ₹8,000 crore between June and September. Growth is happening, and we believe this GST reduction will further spur demand. We expect our retail book to reach ₹1 lakh crore by end of FY26.

How prepared are you

for ECL norms? Our teams are working on to assess the full impact. Broadly, we have estimated that the additional provisions requirement may go up to around ₹2,800 crore, to be provided over four years. Since we are generating good profits, we plan to create a buffer so that when the D-DAC comes, we have a cushion of ₹3,000–4,000 crore, or whatever is required. However, giving a specific number at this stage may be a bit dicey.

Net interest margin has improved to 3.35%. It's a result of three factors. First, we consciously shifted our credit base from repo-linked to MCLR-linked loans. Second, we have focused on quality lending. Our credit portfolio has grown around 20% year-on-year, boosting interest income. Third, and most importantly, we revisited our deposit rates and re-priced them according to market dynamics and our requirements. Going forward, we expect to maintain NIM in the 3.2–3.25% range.

WE REVISITED OUR DEPOSIT RATES AND REPRICED THEM ACCORDING TO MARKET DYNAMICS AND OUR REQUIREMENTS

SBIL, Nabard to raise ₹14.5K cr via bonds today
STATE BANK OF INDIA and the National Bank for Agriculture and Rural Development (Nabard) will raise ₹14,500 crore through bonds on Friday.
