## **Tata Power Renewable Energy Limited Crosses 10 GW EPC Execution Milestone, Reinforcing its Leadership in India's Clean Energy Transition**

- Commissioned 1.88 GW of renewable energy capacity during the first 9 months of FY26 (April'25 to Dec'25), registering 33% year-on-year increase over 1.4 GW commissioned in the corresponding period of FY25 (April'24 to Dec'24).
- Projects of 941 MW were commissioned in Q3FY26, marking a strong 139% year-on-year growth compared to 393 MW in Q3FY25.

**National, January 27, 2026:** Tata Power Renewable Energy Limited (TPREL), one of India's leading renewable energy companies and a subsidiary of The Tata Power Company Limited (Tata Power), has commissioned 10 GW of Engineering, Procurement, and Construction (EPC) projects till date thereby underscoring its position as the leader player in the renewable energy sector.

TPREL has commissioned 10 GW of EPC projects till date, which comprise 9.7 GW of solar projects and 290 MW of wind projects. These comprise both 4.2 GW in-house projects and 5.8 GW third-party projects.

TPREL has commissioned 1.88 GW of EPC RE capacity in the first 9-months of FY26. This represents a 33% increase compared to the 1.4 GW of projects commissioned during the first 9 months of FY25. These EPC project installations reflect TPREL's seamless execution, rigorous project management, and an unwavering commitment to quality and safety.

Of the total 1.88 GW, 1329 MW of solar projects were completed for third party clients and 546 for in-house RE projects (187 MW Wind and 359 MW of Solar projects). These projects were executed at multiple sites across 5 states under challenging soil strata and climatic conditions.

In Q3FY26, TPREL completed 941 MW of RE projects, marking its highest-ever quarterly addition and representing a 139% increase over the 393 MW installed in Q3FY25.

This quarter of TPREL, notable projects commissioned include, NHPC, NLC and SJVNL (DCR-compliant solar projects in Bikaner, Rajasthan) and 187 MW wind project in Karur, Tamil Nadu.

Leveraging advanced engineering practices, TPREL has consistently delivered projects, even in challenging environments. A robust supply chain, an agile execution model, and strong vendor partnerships enable efficient project delivery while optimizing costs.

TPREL's total utility-scale operational capacity now stands at 6.0 GW, including 4.8 GW solar and 1.2 GW wind. It further plans to commission 0.75 GW of its utility owned capacity during FY26.

**About Tata Power:**

The Tata Power Company Limited, a leading integrated power company and a part of the Tata Group, India's largest multinational business conglomerate, owns a diversified portfolio of 16.3 GW. This portfolio spans the entire power value chain, from renewable and conventional energy generation to transmission, distribution, trading, storage solutions, and solar cell and module manufacturing. As a pioneer in India's clean energy transition, Tata Power has 7.5 GW of clean energy generation, constituting 46% of its total capacity. Committed to achieving Net Zero by 2045, Tata Power has successfully partnered with public and private entities across India's generation, transmission, and distribution sectors, serving ~13 million customers nationwide.

**Disclaimer:**

The following press release/announcement may contain forward-looking statements within the meaning of applicable securities laws and regulations. These statements are based on management's current views, expectations, assumptions, and projections regarding the Company's future performance, business plans, growth prospects, competitive and regulatory environment, and other related matters. Such forward-looking statements are subject to various risks and uncertainties, which may cause actual results to differ materially from those expressed or implied in the statements. Factors that could cause actual results to differ materially from those contemplated in the forward-looking statements are not limited to changes in economic conditions affecting demand/supply and price conditions in the domestic and overseas markets in which the Company operates, alterations in the business environment, fluctuations in Government regulations, laws, statutes, judicial pronouncements, and other incidental factors. The Company does not undertake any obligation to publicly update or revise any forward-looking statements based on subsequent events, information, or developments, except as required by applicable laws and regulations.
