Dear Sir/Madam,

Sub.: Press Release

Please find enclosed the press release titled “Tata Power Renewables Marks a Major milestone with Groundbreaking of 800 MW RE Project in Andhra Pradesh”.

This is for your reference and records and is not a disclosure in terms of the requirements of Regulation 30 of SEBI (Listing Obligations and Disclosure Requirements) Regulations, 2015.

Yours Sincerely,
For The Tata Power Company Limited

Vispi S. Patel
Company Secretary
FCS 7021

Tata Power Renewables Marks a Major milestone with Groundbreaking of 800 MW RE Project in Andhra Pradesh

- Project secured 800 MW Inter-State Transmission System connectivity enabling efficient evacuation of renewable power through the National transmission network
- Project comprises 400 MW of solar power capacity and 400 MW of wind power capacity (to be developed by Suzlon)
- To generate employment for - 4,000 local people
- The project is being developed with an investment of ₹5,750 crore

Kurnool, Andhra Pradesh | July 30, 2026: Tata Power Renewable Energy Limited (TPREL), one of India's leading renewable energy companies and a subsidiary of The Tata Power Company Limited (Tata Power), today conducted the groundbreaking ceremony of its 800 MW renewable energy project. The project marks a significant milestone in the Company's commitment to accelerating India's clean energy transition through innovative and reliable renewable energy solutions.

The Chief Guest for the ceremony was Shri Lokesh Nara, Hon'ble Minister of HRD, ITE&C and RTG, Government of Andhra Pradesh. Dr. Praveer Sinha, CEO & Managing Director, Tata Power, marked his gracious presence at the event.

Among other distinguished attendees were Shri T.G. Bharath - Hon'ble Minister for Industries & Commerce, Government of Andhra Pradesh & District In-charge Minister, Anantapur; Shri K.E. Shyam Kumar - Hon'ble Member of Legislative Assembly, Pattikonda ; Shri. Kalava Srinivasulu - Hon'ble Member of Legislative Assembly, Rayadurg AC; and Dr. A. Siri, IAS, District Collector & Magistrate, Kurnool District.

The project comprises 400 MW of wind power capacity (based out at Kanekallu, Ananthapuram) and 400 MW of solar power capacity (based out at Pattikonda, Kurnool) .

TPREL will serve as the project developer for the wind asset, while Suzlon, will undertake the Engineering, Procurement, and Construction (EPC) scope for the wind component at Ananthapuram. Suzlon is a leading wind turbine manufacturer and end-to-end wind energy solutions provider.

The remaining 400 MW Project will be developed by TPREL for NTPC and will comprise 200 MW Firm and Dispatchable Renewable Energy (FDRE) project for NTPC. The FDRE project will incorporate a Battery Energy Storage System (BESS) with a storage capacity of 25 MW / 50 MWh. The balance 200 MW solar project capacity remains available for future allocation.

The project has secured 800 MW Inter-State Transmission System (ISTS) connectivity at the Ananthapuram II & Kurnool-4 CTUIL Substations, enabling efficient evacuation of renewable power through the national transmission network. The availability of ISTS connectivity provides a robust transmission network for efficient evacuation of power from the project.

The project is being implemented in accordance with the Andhra Pradesh Integrated Clean Energy (ICE) Policy, which seeks to encourage large-scale investments in clean energy, accelerate renewable capacity addition, and promote sustainable industrial growth within the State.

The project will require a total land area of 3,462 acres, including 2,700 acres for the solar installation and 760 acres for the wind development.

In addition to strengthening renewable energy infrastructure, the project will provide annual lease rental income. Furthermore, it will create approximately 4000 direct and indirect employment opportunities during the project development, construction, and operational phases, delivering sustained socio-economic benefits to the region.

Shri Nara Lokesh, Hon'ble Minister for IT, Electronics & Communications, HRD & RTG, Andhra Pradesh, said: *"Andhra Pradesh is committed to creating a world-class ecosystem that accelerates clean energy adoption, attracts responsible investments and drives sustainable industrial development. The groundbreaking of ceremony of 800 MW renewable energy project marks another important milestone in that journey and reflects the growing confidence of leading enterprises in the State's progressive policy framework. As we continue to strengthen our infrastructure and investment ecosystem, partnerships such as these will play a pivotal role in advancing Andhra Pradesh's long-term growth while contributing to India's clean energy transition."*

Dr. Praveer Sinha, CEO & Managing Director, Tata Power, said, *"The groundbreaking of 800 MW renewable energy project in Andhra Pradesh marks a significant step in Tata Power's mission to accelerate India's clean energy transition. By integrating 400 MW of solar and 400 MW of wind capacity, the project will contribute to the development of reliable and round-the-clock renewable power, supporting the nation's growing energy needs while advancing sustainability goals. We are grateful to the Government of Andhra Pradesh for its progressive vision and support in fostering a conducive ecosystem for clean energy investments."*

Mr. Girish Tanti, Co-founder, Suzlon Group, said, *"Andhra Pradesh has set an inspiring benchmark for India's energy transition with its vision to achieve over 72 GW of renewable energy by 2030 and Net Zero by 2047. Suzlon is proud to have partnered with the state for over two decades, today contributing nearly 38% of its installed wind energy capacity through ~1,600 MW across eight wind sites. We are equally proud to strengthen our long-standing partnership with Tata Power Renewables through this 400 MW project. Together, we have now crossed the 1 GW milestone, reflecting our shared commitment to accelerating India's clean energy transition and supporting Andhra Pradesh's vision of an energy-secure future."*

This project further reinforces TPREL's position as a leader in India's renewable energy transition and reflects its continued commitment to delivering innovative, high-quality renewable energy solutions that support the country's target of achieving 500 GW of non-fossil fuel capacity by 2030.

It also underscores the company's focus on developing large-scale solar projects that are efficient, reliable and technologically driven.

This initiative supports Tata Power's long-term goal of achieving 100% clean energy by 2045 and complements its expanding renewable energy portfolio, which currently totals 17.7 GW including 9.8 GW under construction.

About Tata Power:

The Tata Power Company Limited, a vertically integrated power company and part of the Tata Group, India's largest multinational business conglomerate, has built a diversified portfolio across the entire power value chain, with its total operational and under-construction capacity surpassing 26 GW. This includes approximately 17.7 GW of clean and green energy capacity (including projects under construction) and around 8.8 GW of thermal generation capacity, ensuring a balanced and resilient energy mix. The Company also has a strong transmission and distribution footprint, with over 7,800 circuit kilometres of transmission lines, including pipeline projects, and serves over 13 million customers across its distribution businesses, making it one of India's largest private power distribution companies.

Further strengthening its leadership in future-ready energy solutions, Tata Power has established 4.9 GW of integrated solar cell and module manufacturing capacity, signed 2.8 GW of pumped hydro storage projects, and expanded its EV charging network to over 7,000 public charging points across 717 cities and towns in India.

As a pioneer in India's clean energy transition, Tata Power remains committed to achieving Net Zero by 2045 and continues to partner with public and private stakeholders to deliver reliable, sustainable, and technology-led energy solutions across the country.
