BSE Ltd. Department of Corporate Services P. J. Towers, Dalal Street, Mumbai – 400 001. (Scrip Code: Equity - 544488)	National Stock Exchange of India Ltd. Listing Department Exchange Plaza, Bandra-Kurla Complex, Bandra (E), Mumbai – 400 051 (Symbol: VIKRAMSOLR, Series EQ)
---	--

Dear Sir/ Madam,

Sub: Disclosure under Regulation 30 of the Securities and Exchange Board of India (Listing Obligations and Disclosure Requirements) Regulations, 2015 ("Listing Regulations") - Press Release on Supply Order Win of 289.87 MWp of high-efficiency solar modules

Pursuant to Regulation 30 of the SEBI (Listing Obligations and Disclosure Requirements) Regulations, 2015, we are enclosing herewith the Press Release on major order win of 289.87 MWp of high-efficiency N-Type TOPCon G12R modules from M/s. NLC India Limited, a Navratna Company – Government of India Enterprise, on behalf of NLC India Renewables Limited a wholly owned subsidiary of M/s. NLC India Limited.

We enclose herewith the details required under Para B of Part A of Schedule III of the Listing Regulations read with SEBI Master Circular No. HO/49/14/14(7)2025-CFD-POD2/I/3762/2026 dated January 30, 2026, as **Annexure A** to this letter.

We request you to kindly take the aforesaid information on record.

Thanking You,

For and on behalf of
VIKRAM SOLAR LIMITED

Vikram Solar Secures Major 289.87 MWp Order for Grid-Scale Solar in Rajasthan from NLC India Limited

Kolkata, India, 27th October 2026: Vikram Solar, a leading Indian solar PV module manufacturer, has bagged an order to supply 289.87 MWp of N-TOPCon modules to NLC India Limited (NLCIL), on behalf of NLC India Renewables Limited (NIRL) for an 810 MW solar power project at the RUVN Solar Park in Pugal, Bikaner, Rajasthan, one of the largest solar parks in the country. NLC India Renewables Limited (NIRL) is a wholly owned subsidiary of NLC India Limited.

Built on N-type TOPCon cell technology, the modules are designed to deliver higher energy yield and stable output in high-irradiance, high-temperature conditions such as those of western Rajasthan.

Spread across the Thar region, the RUVN Solar Park is central to Rajasthan's effort to harness its vast solar resource, as the state continues to lead India's utility-scale solar build-out. A role in a project of this magnitude reinforces Vikram Solar's standing as a trusted domestic supplier for grid-scale installations, where consistent quality, bankability and timely delivery are critical. The order further adds to the company's order book as demand for high-efficiency, domestically manufactured modules continues to rise under India's drive for self-reliance in solar manufacturing.

Mr. Sameer Nagpal, Chief Executive Officer, Vikram Solar, said, *"As India builds clean energy capacity at gigawatt scale, the industry is placing greater value on technology and supply partners it can rely on over the long term. Being entrusted with nearly 290 MWp of modules for this landmark project is a strong endorsement of our N-TOPCon technology and our ability to deliver at utility scale. As we deepen our integrated manufacturing capabilities, our priority is to give customers the performance certainty and supply reliability that projects of this size demand."*

About Vikram Solar Limited:

Vikram Solar Limited is one of the leading Indian solar module manufacturers, specializing in efficient photovoltaic (PV) module manufacturing, with an international presence across 39 countries. Headquartered in Kolkata, West Bengal, it is one of the largest PV module manufacturers in India. Vikram Solar is a 9th time 'Top Performer' in PVEL's PV Module Reliability scorecard and has been included in the Tier 1 solar PV modules manufacturer list of Bloomberg NEF for 10 consecutive quarters. Vikram Solar Limited has established a pan-India presence through an extensive distributor network of 119 authorized distributors and more than 750+ dealers.
