VST Tillers Tractors Limited Unveils New-Generation EV Power Tillers and Power Weeders at EIMA AGRIMACH 2025

New Delhi, 27th November 2025:

VST Tillers Tractors Ltd., India's pioneer in compact farming solutions, unveiled its first-ever EV Power Tiller and EV Power Weeder at the 9th EIMA AGRIMACH, at PUSA, New Delhi. The products were formally unveiled by **Smt. S. Rukmani, Joint Secretary, Department of Agriculture and Farmers Welfare(M&T), Government of India**. This launch marks VST's entry into the fully electric farm machinery space and reinforces its commitment to future-ready, sustainable agricultural solutions.

Designed to support the evolving needs of Indian farmers, the new electric range offers eco-friendly performance, reduced operating costs, and ease of use, ushering in a new era of green farming solutions.

Speaking about the milestone, **Mr. Antony Cherukara, CEO, VST Tillers Tractors**, shared that the new electric models are fully engineered and manufactured in-house at VST's advanced facilities. "The introduction of our Electric Tiller and Electric Weeder underscores VST's ongoing mission to empower farmers with advanced, efficient, and sustainable technologies. Our EV solutions are designed to deliver high performance with minimal environmental impact, aligning with India's clean energy goals".

VST's electric mobility journey is rooted in years of collaboration with leading global electric tractor OEMs, where it has supplied advanced drivetrain components for autonomous and next-generation electric tractors. Building on this deep expertise and guided by a strong commitment to self-reliant innovation the company is now ready to channel global EV learnings into India's small-farm mechanization landscape. Through indigenous, future-ready solutions, VST aims to redefine productivity, sustainability, and affordability for the next era of smallholder farming.

Comprehensive Product Showcase at EIMA AGRIMACH 2025

In addition to the EV tiller and weeder range, VST Tillers Tractors Ltd displayed an extensive lineup of its advanced products, demonstrating the company's strong portfolio across power tillers, tractors, and attachments:

- **Electric Start Power Tillers (13 HP and 16 HP)**
- **Weeders- Ranger 50, Ranger 80 FR & Ranger 80 RR Models (with crop specific attachments)**
- **Maize Reaper**
- **Engine for Portable Power Solutions**
- **VST Zetor - 50 HP Tractor Model**

Expanding Global Footprint

To strengthen its global growth strategy, VST is aiming to introduce its electric range in European and other international markets.

Strong Market Momentum

VST continues to lead the Indian tiller segment, with strong performance in FY25:

- Power Tillers: 37,297 units (vs. 36,480 in FY24)

The introduction of electric power tillers and weeders is expected to further accelerate VST's momentum and support India's transition toward sustainable and efficient farming.

About the Company:

VST Tillers Tractors Limited (VST) is India's leading farm equipment manufacturer. VST was established in the year 1967 by the VST Group of companies. With a legacy of more than 55 years, VST continues to drive farm mechanization and empowerment of farmers across the Globe. The organization is the largest Indian manufacturer of Tillers, and 4WD Compact Tractors, and amongst the leading producers of the other category of Tractors, Engines, Transmission, Power Reaper, and Precision Components. VST also exports products to European, Asian, and African markets. For more details, please visit <https://www.vsttractors.com/>.
