Sub.: Innovative Solution for alleviating cancer

This is to inform that company has established pre-clinical proof of concept for its Drug -Protein-Polymer- Conjugate (DPPC). DPPC concept by Venus is a novel, patent protected technology, which will help in alleviating cancer specific and selective targeting of tumor cells.

The escalating prevalence of cancers of all kinds and the ever rising unmet need in the field of cancer treatment has made Venus anticipates to tap a huge market potential in the first year of the DPPC's launch itself. This technology of the Company would bring revolution to the existing target anticancer therapies. The company is all geared up to commercially launch this novel triple conjugate therapy hopefully by next 2-3 years.

Besides this product, the company is also contributing successfully in the oncology segment across the globe through its wide array of key products, which includes Docetaxel, Paclitaxel, Gemcitabine, Oxaliplatin, Irinotecan and Topotecan. The company is also focusing on the anti-infective segment which is posing a threat to the mankind worldwide. Venus Remedies Limited is one such exception whose research center, Venus Medicine Research Centre (VMRC) is putting in its great efforts to come out with revolutionary drugs to eradicate these deadly infections.

Yours faithfully,
for VENUS REMEDIES LIMITED
