WABAG JV wins INR 580 Crores project in Bahrain

Chennai, India, July 6, 2015: VA TECH WABAG LIMITED, a leading Indian MNC along with their JV partner, Belhasa Projects, won an EPC order in the water and waste water treatment space in the Kingdom of Bahrain. The Sewage Treatment Plant (STP) order for Al Madina Al Shamaliya, the new town being developed in Bahrain, is for a value of over INR 580 Crores.

The project is funded by Abu Dhabi Fund for Economic Development (ADFD). WABAG will Design & Build the 40MLD Al Madina Al Shamaliya Sewage Treatment Plant for Ministry of Housing, Bahrain.

Al Madina Al Shamaliya (AMAS) is a new town on reclaimed land off the north coast of the Kingdom of Bahrain. With a total land area of approximately 750ha over 13 islands, AMAS shall be developed for Housing, Recreational, and Business activity purposes which will provide approximately 15,000 dwelling units. The STP plant with tertiary filtration and sludge treatment using aerobic digestion and thermal drying will cater to the entire irrigation water requirements for all the 13 islands.

This is the first EPC order for WABAG in Bahrain. It is pertinent to note that WABAG is currently active in Bahrain through its subsidiary incorporated last year for doing the O&M business.

Commenting on the developments, Mr. Erik Gothlin, Managing Director - Middle East and Africa, WABAG, said "Securing this high value order gives me immense pleasure since the JV has won this order competing against some of the renowned international players in the water space. This also reiterates WABAG's technical proficiency which is well accepted in the Middle East market."
