**Sub: Business Updates**

Dear Sir,

Enclosed is an Update dated 26<sup>th</sup> February, 2026 which is self-explanatory.

This is for your information and record.

**For WEBSOL ENERGY SYSTEM LIMITED**

**Sohan Lal Agarwal**  
**Managing Director**  
**DIN: 00189898**

## **Business Updates**

**Kolkata, 26<sup>th</sup> February 2026** – Websol Energy System Limited (Websol or the Company) (BSE: 517498, NSE: WEBELSOLAR), has successfully secured three purchase orders, totalling 85.5 MW for solar modules. These orders, valued at Rs. 172 crores, are currently in production and are scheduled for delivery by May'26. The orders are from the following clients: Bekem Infra Projects, Sri Avantika Contractors and Kosol Energie.

In addition, we would like to clarify that the recently imposed U.S. tariffs on solar imports will have no impact on Websol's operations, as the Company does not currently have exports to the United States.

**Commenting on the business updates, Mr. Sohan Lal Agarwal, Managing Director, Websol Energy System said:**

*"These new orders reflect the confidence our partners place in Websol's capabilities and reinforce our position in the Indian solar market. We are committed to timely execution of our client orders and to supporting India's renewable energy goals."*

**About Websol Energy System Limited:**

One of the first manufacturers of solar photovoltaic cells and modules in India, Websol Energy System Limited specializes in producing high-efficiency solar cells and modules incorporating advanced Mono PERC technology. The Company supplies solar cells primarily within India, supporting module manufacturers to comply with Domestic Content Requirement norms, while its modules are marketed both in India and internationally. Its fully modernized manufacturing facility, located across approximately seven acres within the Falta Special Economic Zone in West Bengal, operates with a current solar cell capacity of 1,200 MW and module capacity of 550 MW. Websol's integrated production model, manufacturing both cells and modules in-house, enhances supply chain control and flexibility to address market dynamics. The Company maintains established partnerships with reputed clients and benefits from supportive policy frameworks that encourage local production and technology advancement, underpinning its long-term strategic positioning in the solar industry.
