1. We have reviewed the results of Welspun India Limited (the "Company") for the quarter ended December 31, 2014 which are included in the accompanying 'Unaudited Standalone financial results for the quarter and nine months ended 31st December 2014' (the "Statement"), except for the disclosures regarding 'Public Shareholding' and 'Promoter and Promoter Group Shareholding' which have been traced from disclosures made by the Management but have neither been reviewed nor been audited by us. The Statement has been prepared by the Company pursuant to Clause 41 of the Listing Agreement with the Stock Exchanges in India, which has been initialled by us for identification purposes. This Statement is the responsibility of the Company's management and has been approved by the Board of Directors. Our responsibility is to issue a report on the Statement based on our review.
2. We conducted our review in accordance with the Standard on Review Engagement (SRE) 2410, "Review of Interim Financial Information Performed by the Independent Auditor of the Entity" issued by the Institute of Chartered Accountants of India. This Standard requires that we plan and perform the review to obtain moderate assurance as to whether the financial statements are free of material misstatement.
3. A review is limited primarily to inquiries of Company personnel and analytical procedures applied to financial data and thus provides less assurance than an audit. We have not performed an audit and, accordingly, we do not express an audit opinion.
4. We have only traced the disclosures regarding 'Public Shareholding' and 'Promoter and Promoter Group Shareholding' in the Statement from the disclosures made by the Management and are, therefore, not expressing a review opinion thereon.
5. We draw your attention to a matter relating to utilisation of deferred tax assets recognised in earlier period aggregating Rs. 3,107 lacs on the incremental unabsorbed Income-tax depreciation arising out of the Company's treatment of certain excise and value added tax incentives as 'capital receipts' for income tax purposes. The income tax authorities have passed orders treating these incentives as revenue in nature which are liable to income-tax. The Company has preferred appeals with the Commissioner of Income Tax (Appeals) against these orders. If the final decision in the matter is eventually decided against the Company, the tax expense for the quarter ended December 31, 2014 would be higher by Rs. 3,107 lacs. Our conclusion is not qualified in respect of this matter.

6. Based on our review conducted as above, nothing has come to our attention that causes us to believe that the Statement has not been prepared in all material respects in accordance with the applicable Accounting Standards notified pursuant to the Companies (Accounting Standards) Rules, 2006 as per Section 211(3C) of the Companies Act, 1956 read with the General Circular 15/2013 dated September 13, 2013 of the Ministry of Corporate Affairs in respect of Section 133 of the Companies Act, 2013 and other recognised accounting practices and policies, and has not disclosed the information required to be disclosed in terms of Clause 41 of the Listing Agreement including the manner in which it is to be disclosed, or that it contains any material misstatement.

UNAUDITED STANDALONE FINANCIAL RESULTS FOR THE QUARTER AND NINE MONTHS ENDED 31ST DECEMBER 2014

Notes :

- 1 The above financial results were reviewed by the Audit Committee and were thereafter approved by the Board of Directors at its meeting held on January 29, 2015.
- 2 In the previous year, on July 1, 2013, the Management re-assessed the method of providing depreciation on its plant and machinery (other than electrical installations) and after considering type, nature and use of asset, changed it from straight-line method to reducing balance method as it was considered to result in more appropriate preparation and presentation of the Financial Statements of the Company. Accordingly, the incremental depreciation of Rs. 46,309.58 lacs for the period from the date on which the assets came into use upto June 30, 2013 arising from the change was provided in the quarter ended September 30, 2013. In addition to the aforementioned incremental depreciation, depreciation for the period July 1, 2013 to March 31, 2014 was higher by Rs. 1,071.31 lacs due to the change in the method out of which, Rs. 414.92 lacs was provided in the quarter ended September 30, 2013 and Rs. 282.85 lacs was provided in the quarter ended December 31, 2013.

Accordingly, depreciation and amortization expenses for the quarter ended December 31, 2013 was higher by Rs. 282.85 lacs and profit before tax for the quarter ended December 31, 2013 was lower by Rs. 282.85 lacs with a consequential impact on the profit after tax for that period. Similarly depreciation and amortization expenses for the nine months ended December 31, 2013 was higher by Rs. 47,007.35 lacs and loss before tax for the nine months ended December 31, 2013 was higher by Rs. 47,007.35 lacs with a consequential impact on the loss after tax for that period. Had the method of depreciation not been changed, profit before tax for the quarter ended December 31, 2013 would have been Rs. 15,497.31 lacs as against the profit before tax of Rs. 15,214.46 lacs and profit before tax for the nine months ended December 31, 2013 would have been Rs. 36,502.58 lacs as against the loss before tax of Rs. 10,504.77 lacs.

Also the depreciation and amortization expenses for the previous year ended March 31, 2014 was higher by Rs. 47,380.89 lacs and profit before tax for the previous year ended March 31, 2014 was lower by Rs. 47,380.89 lacs with a consequential impact on profit after tax for that year.
- 3 Consequent to the enactment of the Companies Act, 2013 (the Act) and its applicability for accounting periods commencing from April 1, 2014, the Company has, wherever required, realigned the remaining useful lives of its fixed assets in accordance with the provisions prescribed under Schedule II to the Act. Consequently, in case of assets which have completed their useful lives (prescribed under Schedule II to the Act), the carrying value (net of residual value) as at April 1, 2014 amounting to Rs. 718.77 lacs (net of deferred tax) has been adjusted to Retained Earnings and in case of other assets the carrying value (net of residual value) is being depreciated over the revised remaining useful lives. Accordingly, the depreciation and amortization expenses charge for the quarter ended December 31, 2014 is higher by Rs. 977.53 lacs and for the nine months ended December 31, 2014 is higher by Rs. 3,008.58 lacs.
- 4 Pursuant to the WELSOP 2005, 2,265,000 options were granted to certain eligible employees upto December 31, 2014, of which 960,500 options were cancelled and 1,287,400 options have been exercised. During the quarter ended December 31, 2014, on exercise of the stock options, the Company has allotted 14,700 equity shares of Rs. 10 each to employees resulting in increase in paid-up share capital by Rs. 1.47 lacs and Securities Premium Account by Rs. 3.76 lacs. As on December 31, 2014, 17,100 options were outstanding.
- 5 The Company operates in only one primary business segment i.e. Home Textiles Segment. Hence, information relating to primary segments is not required to be separately furnished.
- 6 Prior period comparatives have been reclassified to conform with the current period's presentation, wherever applicable.

- Cost of material consumed in above results include Purchases of Stock-in-trade and changes in inventories of Finished Goods, Work-in-progress and Stock-in-trade.
- In the previous year, on July 1, 2013, the Management re-assessed the method of providing depreciation on its plant and machinery (other than electrical installations) and after considering type, nature and use of asset, changed it from straight-line method to reducing balance method as it was considered to result in more appropriate preparation and presentation of the Financial Statements of the Company. Accordingly, the incremental depreciation of Rs. 46,309.58 lacs for the period from the date on which the assets came into use upto June 30, 2013 arising from the change was provided in the quarter ended September 30, 2013. In addition to the aforementioned incremental depreciation, depreciation for the period July 1, 2013 to March 31, 2014 was higher by Rs. 1,071.31 lacs due to the change in the method out of which, Rs. 414.92 lacs was provided in the quarter ended September 30, 2013 and Rs. 282.85 lacs was provided in the quarter ended December 31, 2013.

Accordingly, depreciation and amortization expenses for the quarter ended December 31, 2013 was higher by Rs. 282.85 lacs and profit before tax for the quarter ended December 31, 2013 was lower by Rs. 282.85 lacs with a consequential impact on the profit after tax for that period. Had the method of depreciation not been changed, profit before tax for the quarter ended December 31, 2013 would have been Rs. 17,049.72 lacs as against the profit before tax of Rs. 16,766.87 lacs and profit before tax for the nine months ended December 31, 2013 would have been Rs. 47,166.53 lacs as against the profit before tax of Rs. 159.18 lacs.

WCPGL had commenced commercial operations during the previous year and as such there was no change in the method of depreciation. In case WCPGL had provided depreciation on straight-line method on its plant and machinery, depreciation for the previous year ended March 31, 2014 would have been lower by Rs.3,291.83 lacs.
- Consequent to the enactment of the Companies Act, 2013 (the Act) and its applicability for accounting periods commencing from April 1, 2014, the Company has, wherever required, realigned the remaining useful lives of its fixed assets in accordance with the provisions prescribed under Schedule II to the Act. Outlook

The US economy is expected to continue on its growth trajectory in the coming year. New home-sales data is indicating a strengthening housing market while consumer confidence has been hitting multi-year highs. While consumer confidence in Europe is edging higher, it is expected to get a further boost from falling oil prices and the ECB stimulus, which would improve real household spending power. The Indian economy is expected to grow faster in the coming years as economic reforms gather pace.

The outlook for Indian cotton textiles, especially home textiles, continues to be positive. The Indian home textile industry continues to gain market share from competing countries, particularly in the key markets of US and Europe.

Management comments

Speaking about the performance, Mr. B.K. Goenka, Chairman, Welspun India Ltd., said, “We continue on our growth journey achieving new milestones and scaling new heights. We have successfully commissioned our spinning plant during the quarter which would help us consolidate our leadership position in the industry.
