MANAGEMENT COMMENTARY

"Q2FY26 remained challenging with continued tariff overhang in the US market, further dampening sentiment and retailer offtake. Consolidated revenue declined 16.4% YoY, as all business segments witnessed moderation on a high base, though sequentially improved by 7.3%. Margins came under pressure, with EBITDA slipping to single digits due to tariff impact, adverse mix and operating deleverage.

Our domestic business declined by 3.7% YoY. We continue to focus on brand strength and witnessed continued traction in flooring and institutional channel.

While the external environment remains uncertain, we continue to strengthen cost discipline, sharpen operational efficiencies, and drive agility across value chains. Our strategic focus on innovation, brand-led growth, diversification and emerging businesses positions us well to capture recovery when market conditions stabilize.

Our sustainability journey remains on track, with steady progress toward our 2030 goals of 100% renewable energy and 100% sustainable cotton.
