Dear Sir/ Madam,

Subject: Clarification on Consolidated Financial Results for the quarter and nine months ended December 31, 2025

This is in reference to your email dated February 3, 2026, regarding the Consolidated Financial Results for the quarter and nine months ended December 31, 2025, submitted on January 27, 2026, wherein a discrepancy was observed in the Profit Before Tax (“PBT”) figures in the Consolidated Financial Results filed in XBRL format.

We have re-verified the data with reference to the financial results filed with the Stock Exchange(s) for the quarter and nine months ended December 31, 2025.

It is observed that in the financial results (PDF submission), the line item “Share of Profit / (Loss) of Associates” has been disclosed before exceptional items and tax, whereas in the XBRL filing, the same is required to be mapped after exceptional items and tax owing to the structure prescribed under the XBRL format. As a result, the comparison reflects a variance in the Profit Before Tax figures.

The underlying financial numbers reported by the Company in XBRL filing are correct and fully aligned with the financial results (PDF submission). The variance is solely on account of presentation arising from the prescribed XBRL classification and does not impact the reported financial performance of the Company.

In view of the above, we respectfully submit that no revision to the XBRL filing is required.

We trust the above clarifies the matter. Kindly let us know if any further clarification is required from our end.

Yours faithfully,

For **WeWork India Management Limited**
