Wipro and Securonix Announce Partnership to Deliver Managed Security Services

Partnership to Boost Wipro's Global Prevention, Detection and Response Capabilities

New York, USA and Bangalore, India – September 07, 2021: Wipro Limited (NYSE: WIT, BSE: 507685, NSE: WIPRO), a leading global information technology, consulting and business process services company, announced a partnership with Securonix, a Gartner Magic Quadrant Leader SIEM (Security Information and Event Management) vendor, and provider of the Securonix Security Operations & Analytics Platform. The partnership brings together Securonix's cloud-first SIEM, analytics-driven detection and automated response tools with Wipro's global reach and cybersecurity intelligence capabilities to provide organizations with improved governance and security threat protection.

Cybersecurity today spans several niches including 24/7 security monitoring, incident response and digital forensics, security orchestration and automation, security data lakes, threat intelligence, vulnerability management, host and endpoint security, application security and network security, among others. Managed security services can enable CISO's (Chief Information Security Officers) and Cyber Operations teams navigate challenges faced in these areas and beyond.

As an MSSP (Managed Security Service Provider) in the [Securonix FUEL](#) Partner Program, Wipro joins other global service providers in partnering Securonix to bolster their managed security offerings. Augmented with [Securonix Jupiter](#), Securonix's end-to-end security operations platform delivers enhanced detection and response, improved user experience, and optimized cost and performance.

Tony Buffomante, Senior Vice President and Global Head, Cybersecurity and Risk Services, Wipro Limited said, "One of the largest risks to enterprises today is the lack of trained, experienced cybersecurity professionals. Wipro brings together best-in-class technology and people to solve cybersecurity issues and strengthen businesses' overall security posture. Our partnership with Securonix -- a SIEM platform that's trusted by half of the Fortune 500 -- is playing a key role in Wipro managed security services and underscores the larger industry need for real-time analytics combined with a world-class detection and incident response platform."

"Wipro is recognized as a global leader in cutting edge business solutions. Its decision to partner with Securonix to enhance enterprise threat prevention, detection and response further validates the strength of our platform following our inclusion as a Leader in Gartner's Magic Quadrant for SIEM and 5-Star rating from CRN in its 2021 Partner Program Guide. As we continue an aggressive investment strategy in India, Wipro will serve as a key partner enabling us to deliver the technologies and services organizations in the region need to succeed in combatting threats to their key infrastructure and cloud deployments," said **Sachin Nayyar, CEO, Securonix**.

“Securonix’s tremendous success and growth this past year has stemmed from investments with our partners. Our collaboration with Wipro and expanding partner network are enabling us to help more businesses solve today’s advanced security threats by providing a unique partnership between technology and people,” said **David Wagner, Vice President, Global MSSPs & Systems Integrators, Securonix.**

Through the partnership with Securonix, Wipro aims to improve businesses’ cyber organizational effectiveness, resiliency, and achieve a cost effective positive security posture. The services provided are backed by Security Operations Center (SOC) best practices, regulatory and compliance requirements, as well as cyber-risk advisory and assurance. These SOC services that empower organizational resilience can be delivered from Wipro’s global Cyber Defense Centers (CDCs), offshore or onsite operation and development centers (ODC), client SOC / CDC premises or through a hybrid model.

About Wipro Limited

Wipro Limited (NYSE: WIT, BSE: 507685, NSE: WIPRO) is a leading global information technology, consulting and business process services company. We harness the power of cognitive computing, hyper-automation, robotics, cloud, analytics and emerging technologies to help our clients adapt to the digital world and make them successful. A company recognized globally for its comprehensive portfolio of services, strong commitment to sustainability and good corporate citizenship, we have over 200,000 dedicated employees serving clients across six continents. Together, we discover ideas and connect the dots to build a better and a bold new future.

Forward-Looking Statements

The forward-looking statements contained herein represent Wipro’s beliefs regarding future events, many of which are by their nature, inherently uncertain and outside Wipro’s control. Such statements include, but are not limited to, statements regarding Wipro’s growth prospects, its future financial operating results, and its plans, expectations and intentions. Wipro cautions readers that the forward-looking statements contained herein are subject to risks and uncertainties that could cause actual results to differ materially from the results anticipated by such statements. Such risks and uncertainties include, but are not limited

to, risks and uncertainties regarding fluctuations in our earnings, revenue and profits, our ability to generate and manage growth, complete proposed corporate actions, intense competition in IT services, our ability to maintain our cost advantage, wage increases in India, our ability to attract and retain highly skilled professionals, time and cost overruns on fixed-price, fixed-time frame contracts, client concentration, restrictions on immigration, our ability to manage our international operations, reduced demand for technology in our key focus areas, disruptions in telecommunication networks, our ability to successfully complete and integrate potential acquisitions, liability for damages on our service contracts, the success of the companies in which we make strategic investments, withdrawal of fiscal governmental incentives, political instability, war, legal restrictions on raising capital or acquiring companies outside India, unauthorized use of our intellectual property and general economic conditions affecting our business and industry. The conditions caused by the COVID-19 pandemic could decrease technology spending, adversely affect demand for our products, affect the rate of customer spending and could adversely affect our customers' ability or willingness to purchase our offerings, delay prospective customers' purchasing decisions, adversely impact our ability to provide on-site consulting services and our inability to deliver our customers or delay the provisioning of our offerings, all of which could adversely affect our future sales, operating results and overall financial performance. Our operations may also be negatively affected by a range of external factors related to the COVID-19 pandemic that are not within our control. Additional risks that could affect our future operating results are more fully described in our filings with the United States Securities and Exchange Commission, including, but not limited to, Annual Reports on Form 20-F. These filings are available at www.sec.gov. We may, from time to time, make additional written and oral forward-looking statements, including statements contained in the company's filings with the Securities and Exchange Commission and our reports to shareholders. We do not undertake to update any forward-looking statement that may be made from time to time by us or on our behalf.
