India begins export of major farm items amid lockdown

Exports of rice, groundnut, processed food, meat, poultry, dairy and organic products have started

PRESS TRUST OF INDIA
New Delhi, April 15

INDIA HAS STARTED export of major farm products such as rice, meat, dairy and processed food items after the government stepped in to resolve the issues related to transportation and packaging in the wake of Covid-19 lockdown.

The Union agriculture ministry, in a statement, said exporters' problems are being re-

solved by the farm export promotion body Agricultural and Processed Food Products Export Development Authority (APEDA).

"Exports of all major products i.e. rice, groundnut, processed food, meat, poultry, dairy and organic products has started," the ministry said.

APEDA has put in a lot of efforts and issues related to transportation, curfew passes, and packaging units, which are

being resolved, it said.

The ministry further said that the government has adopted a "flexible approach" and is issuing digital copies of phytosanitary certificates for exports.

So far, the government has issued 9,759 phytosanitary certificates for exports, it added.

On specific demand from countries, agri-cooperative NAFED has exported 50,000

tonne of wheat to Afghanistan, while 40,000 tonne of the grain to Lebanon under G2G arrangement.

As far as imports are concerned, the government said digital copies of phytosanitary certificates are being accepted with undertaking from the importer for submission of original when received. About 2,728 consignments were released for imports so far, the ministry said.

Further, 33 'Import Permits' for import of pesticides, 309 certificates for export of pesticides and 1,324 certificates to facilitate indigenous manufacturers of pesticides were issued, it added.

These are among several measures the ministry has taken to ensure the country's agriculture and its allied sector do not suffer from the ongoing Covid-19 lockdown.

₹4,250 cr I-T refunds released in a week

FE BUREAU
New Delhi, April 15

THE CENTRAL BOARD of Direct Taxes (CBDT) on Wednesday said it has issued ₹4,250 crore in pending direct tax refunds for assessment year (AY) 2019-20, during the week ended Tuesday. These refunds were issued to 10.2 lakh taxpayers whose claims were less than ₹5 lakh, in each case.

Last week, the CBDT had announced that it would release the refunds to help taxpayers, especially those with relatively smaller refund claims, to tide over the potential cash flow issues, due to national lockdown in the aftermath of Covid-19 pandemic.

Further, the Board said that it was processing an additional 1.75 lakh refund claims, which would be credited directly to the taxpayer bank account in 5-7 business days from issuance. But in majority of these cases, the taxpayers have yet to respond to income tax department's communication regarding reconciliation with their outstanding tax demand. "It may be noted that these

reminder emails from I-T department are in fact for the benefit of taxpayers as it seeks them to confirm their outstanding demand, their bank accounts and reconciliation of defect/mismatch prior to issue of refund," it said in a statement. It added that these assessee have been sent reminder emails to respond within a week so that refund can be processed accordingly.

Additionally, the Board said that the refunds issued during last week were in addition to ₹1.84 lakh crore already issued during FY20 (ended March 31, 2020) to 2.50 crore assessee. In FY19, the I-T department had given refunds worth ₹1.61 lakh crore.

Govt to soon clear ₹10,000 cr 'Fund of Funds' for MSMEs

PRESS TRUST OF INDIA
New Delhi, April 15

A ₹10,000-CRORE "Fund of Funds" will soon be approved by the government to buy up to 15% equity in MSMEs with high credit rating that want to list on stock exchanges and raise money from the capital markets, Union minister Nitin Gadkari said on Wednesday.

He also said a separate scheme was being formulated for according credit rating to MSMEs based on their annual turnover, exports and GST payments, and that the National Small Industries Corporation or another government body will control the Fund of Funds.

He said the government wants the Fund's corpus to be utilised by micro, small and medium enterprises (MSMEs) having AAA rating. The AAA rating implies high credit worthiness. "We have submitted a proposal for a Fund of Funds of ₹10,000 crore which has been approved by the finance ministry. It is going to be placed before the Cabinet and will soon be cleared," said the minister for MSMEs. Gadkari said up to 15% of the amount an AAA-rated MSME raises from the capital market will be contributed by the government through the Fund as equity.

The minister said he was expecting Cabinet clearance for the Fund soon and will implement it immediately upon approval. Interacting with members from the PHD Chamber of Commerce and Industry via video conference, Gadkari exhorted India Inc to also consider the financial condition of the government and banks while placing forth their demands, amid the coronavirus-induced economic crisis. "The government is also facing a financial crisis. Some state governments do not have enough money to pay salaries to staff next month. The situation of banks is also challenging in terms of their survival," said the minister, emphasising the need to strike an equilibrium to ensure everyone's survival.

Power demand growth in FY20 at six-year low

ANUPAM CHATTERJEE
New Delhi, April 15

POWER CONSUMED BY highly industrialised states like Gujarat, Maharashtra and Tamil Nadu in FY20 was lower than their respective volumes in FY19.

The three states are among the top five electricity users (other two being Uttar Pradesh and Rajasthan) and fall in power consumption in these places dragged down the country's annual demand growth to a six-year low of 1.3%.

Since most of the revenue of the state-run power distribution companies (discoms) come from industrial and commercial customers, lower usage by these categories mean additional pressure on these already distressed entities.

While Maharashtra's power usage dropped 1.9% year-on-year to 155.2 billion units (BU) of electricity in FY20, the same in Gujarat fell 2.2% to 113.9 BU and in Tamil Nadu slipped 0.7% to 108.7 BU. According to information available in the latest tariff orders of these states, industrial and commercial consumers contribute about 55% of the discoms' revenue in Gujarat, 73% in Tamil Nadu and 54% in Maharashtra. Though the household and agricultural sectors consume about half of electricity supplies, they are cross-subsidised by industrial and commercial users. Tariffs on domestic consumers is on an

average around 40% lower than that for industrial users of power.

"Industries in these (aforementioned) states are scaling down output in response to global and local economic pressures," Deepak Sriram Krishnan, associate director for World Resources Institute's India energy program, told FE. Manufacturing of motor vehicles, textiles and petroleum products—a lot of these hubs are present in these three states—have been on the decline in FY20 due to lower demand and rising competition from other countries.

Lower FY20 income clashes with discoms facing revenue shortage with rising difficulties in meter reading exercises and payment collection amid the country-wide lockdown to contain the outbreak of the coronavirus.

Amid revenue shortfall, the current crisis has also raised uncertainties regarding subsidy releases by states and payments of other government dues. In the wake of such developments, the Union power ministry is deliberating on a plan to infuse liquidity in stressed through Centre-run PFC-REC, though the monetary value of the relief has not been ascertained yet. However, PFC and REC are likely to seek state government guarantees against the additional loans that would be given to discoms.

No cap on daily wheat procurement: Punjab

FE BUREAU
New Delhi, April 15

THE PUNJAB GOVERNMENT has said that farmers won't face any problems due to the coupon system introduced for rabi wheat grain sales. While each coupon allows a farmer to sell only 50 quintal of rabi wheat per day to the procurement agencies, each farmer can get multiple coupons, so there is no capping of the daily sale quantity, the government clarified.

Procurement agencies have been asked to issue multiple coupons. "There was some confusion and it has been clarified to all purchase centres which have issued multiple coupons," said K A P

Sinha, Punjab's food secretary.

Already 2.7 million coupons have been distributed and against each coupon a farmer is entitled to sell 50 quintal on a scheduled date and the entire grains will be purchased, he said. Punjab, the highest contributor of wheat to the central Pool, targets to procure 13.5 million tonne out of an expected marketable surplus of 13.7 million tonne. The state's wheat production is seen at 18.2 million tonne this year. However, the actual procurement may drop considering an expected fall in arrivals since farmers may like to keep with them more than normal quantity, experts said.

Extract of audited financial results of Wipro Limited and its subsidiaries for the quarter ended March 31, 2020

Consolidated Audited Financial Results of Wipro Limited under IFRS
