Discounts galore as online sales begin

REYA MEHROTRA
New Delhi, October 17

THE VIRTUAL MARKETPLACE is bustling with offers and discounts. With the start of The Amazon Great Indian Festival, Myntra's Big Fashion Festival, Flipkart's Big Billion Days Sale, this year, small and medium businesses are looking to pick-up through online mediums like Amazon Karigar & Flipkart Samarth that enables craftsmen to have a wider approach.

To encourage festive shopping, in a first, Amazon has announced a sale season lasting up to a month starting from October 17 contrary to the usual 5-6 days of sale while Flipkart would stick to its 5-day sale festival ending October 21. It has also incorporated SME sellers from 20,000 local shops to help them generate business. A big reason for this was the surge in online orders. The Festive Shop-

While e-commerce websites are expecting windfall gains, shopping malls are gearing up to attract shoppers with offers like personal shopper experience, concierge services

ping Index 2020 by the Retailers Association of India (RAI) and LitmusWorld released in October highlights that 80% of Indian consumers are looking forward to festive shopping with 75% shopping online, 66% considering shopping in stand-alone stores and only 37% considering malls reflecting the rise of omnichannel shopping. While online is the primary mode of discovery, consumers are looking forward to purchasing at physical stores. The shift is also likely to create seasonal

small-scale jobs across online mediums.

Healthcare and hygiene products flooded the markets ever since the lockdown was imposed. Hand sanitisers, cleaners, immunity boosters flew off the shelves. According to a report published in The Week in April this year, hygiene products, followed by work from home essentials and home appliances were the top purchases this year.

With continuing trends, big offers have been introduced by e-commerce websites on such products. Growing demands for home appliances and devices has also led electronics and smartphone companies come up with lucrative deals. For Amazon and Flipkart festivals, Samsung has launched new deals and products on its range of storage devices and more. "With work from home being a large part of the new normal, there has been a spike in demand of

storage devices.

We are confident that our festive offers will make our consumers' life easier and add more joy to the festivities," Akash Saxena, senior director, enterprise sales, Samsung India says.

Following the trend, Amazon India has predicted that mid-range smart phones priced between ₹15,000 to ₹25,000 could sell like hot cakes during sales and Samsung, One Plus and Xiaomi could emerge as the top winners. No doubt, phone brands are expediting the launches of their newest versions. Oppo announced the launch of its bestselling A series - A15 in the market enabled with an AI triple camera and a large screen.

Apart from these, gifting options, festive wear and skincare products will be added to the shopping list during the festive months. Ayyappan Rajagopal, head of business,

Myntra believes that ethnic wear is expected to be among the best-selling products during the festive and wedding period but there will be a large focus on 'above the waist' looks, which is reflective of the virtual nature of social events and celebrations this festive season.

Expecting good sales, the brand has also prepared for handling increase in traffic, scaled to process 20,000 orders per minute at peak, during the seven-day event.

The most business generation is expected from Tier I & II cities. Organic skin and hair care brand Juicy Chemistry is positive for the rise in demand for its products from cities like Chennai, Mumbai, Delhi, Kolkata, Bangalore, Hyderabad while mattress brand Fresh Up Mattresses expects good business from Tier 1 & 2 cities for the high end products.

India's active Covid-19 caseload drops below 8 lakh

PRESS TRUST OF INDIA
New Delhi, October 17

INDIA'S ACTIVE COVID-19 caseload fell below eight lakh for the first time in one-and-a-half months and account for merely 10.70% of the total cases, the Union Health Ministry said on Saturday.

There are 7,95,087 active cases of coronavirus infection as on date. The active caseload was below the 8 lakh mark (7,85,996) last on September 1, the ministry said.

"With a high number of Covid-19 patients recovering every day, India's steady trend of registering dipping active cases continues," it underlined.

The total recoveries have surged to 65,24,595 and exceed active infections by 57,29,508. A total of 70,816 patients have recovered and discharged in a span of 24 hours whereas 62,212 new Covid-19 cases were reported during the same period, according to data updated by the ministry at 8 am. The national recovery rate has further risen to 87.78%.

Enhanced countrywide medical infrastructure, imple-

mentation of the Centre's standard treatment protocol by states and union territories, and total dedication and commitment of doctors, paramedics and frontline workers have led to a persistent increase in the number of total recoveries with commensurate dip in the fatality rate, the ministry underscored.

"India is the only country with the highest recoveries and continues to have one of the lowest fatality rates globally. The case fatality rate as on date stands at 1.52%. These have in tandem resulted in consistent slide in the active cases," the ministry highlighted.

It said that 78% of the new recovered cases are observed to be concentrated in 10 states and UTs - Maharashtra, Karnataka, Kerala, Tamil Nadu, Andhra Pradesh, Uttar Pradesh, Delhi, West Bengal, Chhattisgarh and Odisha. 79% of the 62,212 new cases of Covid-19 recorded in a span of 24 hours are from 10 States and UTs - Maharashtra, Karnataka, Kerala, Tamil Nadu, Andhra Pradesh, West Bengal, Delhi, Uttar Pradesh, Chhattis-

garh and Odisha, the ministry said.

Maharashtra is still reporting a very high number of new cases with more than 11,000 infections, followed by Karnataka and Kerala with more than 7,000 cases each, it said.

A total of 837 case fatalities have been reported in a span of 24 hours. Of these, nearly 82 percent are concentrated in 10 states and UTs - Maharashtra, Karnataka, West Bengal, Tamil Nadu, Uttar Pradesh, Chhattisgarh, Punjab, Andhra Pradesh, Madhya Pradesh and Kerala. Maharashtra has reported the maximum single day deaths (306 deaths). Maharashtra contributes more than 13,000 to the single day recoveries, followed by Karnataka with more than 8,000 recoveries.

The Centre continues to support the state and UT governments in the collective fight against the global pandemic. The Ministry of Health has deputed high-level central teams to Kerala, Karnataka, Rajasthan, Chhattisgarh and West Bengal as these states have been reporting a surge in the number of new Covid-19 cases in the recent days.
