'More Passenger Trains, Offline Booking Soon'

As of Thursday, 101 trains available on the website of Railways' ticketing unit IRCTC

Our Bureau

New Delhi: Railway minister Piyush Goyal on Thursday said that the national transporter is set to operate more passenger trains in a step towards normalcy, as the country battles Covid-19.

"I think it is time to take the country towards normalcy," Goyal said in an interaction with BJP's National spokesperson Samit Patra. "In this direction, we have started Rajdhani trains, and June 1 onwards, we will have 200 trains run across the country," Goyal said. In a few days, he will also allow more trains to operate, all shops at stations will also open, he added. Offline booking at ticketing counters at railway stations will also be facilitated in the next two to three days, Goyal said.

"We are trying to formulate a protocol to ensure that these stations are not crowded," he said. "Shramik" special trains to transport stranded migrants back home are available on operating from May 1, while 15 pairs of special Rajdhani trains also resumed operations on May 12. Going forward, 200 air-conditioned and non-air-conditioned trains are also to run daily from June onwards, the booking for which began Thursday morning. "Around four to five lakh people have already booked tickets on these trains," Goyal said. As of 4pm Thursday, 101 trains were available on Indian Railways' ticketing unit IRCTC's website, and 2,37,751 tickets had been booked for 5,51,724 passengers, as per a railway ministry spokesperson.

are also to run daily from June onwards, the booking for which began Thursday morning. "Around four to five lakh people have already booked tickets on these trains," Goyal said. NK SINGH-LED 15TH FINANCE COMMISSION

'Leave Deficit Monetisation to RBI'

Allowing states to borrow up to 5% of GSDP ends asymmetry with Centre on level of borrowing: Singh

Our Bureau

New Delhi: The chairman of the Fifteenth Finance Commission, NK Singh, said on Thursday the issue of monetisation of fiscal deficit should be left to the judgement of the Reserve Bank of India, the government's principal debt manager.

"The central bank can consult the government on this, Singh said. The Centre's decision allowing states to borrow up to 5% of gross state domestic product ends the asymmetry between the Centre and states on the level of borrowing, he said. "RBI is the principal debt manager to the government... It (option to monetise government's deficit) should be left to the RBI's judgement in consultation with the government," Singh told ET. There is no need to second-guess the RBI's decision, he said. "We should not foreclose any option. All options should be open to the sovereign in consultation with RBI," Singh had said earlier while interacting with reporters over a video conference after a meeting of the

Short Takes

Emaar MGF Told to Pass On GST Benefits to Buyers

New Delhi: The National Anti-Profit-seeking Authority has ordered Emaar MGF to reduce the price of apartments at one of its projects in Gurgaon, after the watchdog found that the real estate company had not passed on input tax credits to the buyers. The company has to reduce the price so as to pass on a ₹13.35 crore of input tax credit it received, along with interest, to 1,235 flat buyers at Emerald Floors Premier, as per the order. "The respondent has denied benefit of input tax credit (ITC) to buyers of the flats being constructed by him, in contravention of the provisions and has thus resorted to profiteering," the authority has said in its order dated March 15. The order was uploaded on its website on Thursday.

Fruit, Veggie Exports Fall 70% During Lockdown

New Delhi: Fruit and vegetable exports from India have seen a fall of approximately 70% since the lockdown began, said exporters and government officials. They attribute it to the high freight charges by airlines which has increased by as much as 16% to ₹250 a kg. March to May is the peak season for export of fruit and vegetable. The average export was 4 lakh tonnes a month in the previous year and now only 30% of that is happening said an official from Agricultural and Processed Food Products Export Development Authority.

No Restrictions on Using 'Add Borrowing by States'

New Delhi: The Centre has not imposed any restrictions on states for utilisation of additional borrowing of 2% and they are free to spend as per their requirements, a senior finance ministry official has said. It is to be noted that the basic limit of 3% remains unconditional, while only additional 1% out of the 2% is linked to citizen-centric reforms, the official said. PM Narendra Modi while announcing this on Sunday had said an increase in borrowing limits will be subject to states taking citizen-centric reforms, aimed at improving quality of service delivery to the public.

MNRE may Hold Auctions only for 'RTC' and Hybrid Projects

Decision likely to make it even more competitive against thermal plants

Kaavya.Chandrasekaran@timesgroup.com

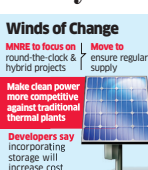

Bengaluru: The government may now hold renewable energy auctions only for round-the-clock and hybrid projects, a move seen reducing the problem of intermittent supply and making clean power more competitive against traditional thermal plants. "We may not do plain solar and plain wind tenders in the future. It is our plan to do only RTC and hybrid tenders. Like we have proved with the RTC tender, in the future it will be a business case for everyone (industry)," an official of the ministry of new and renewable energy (MNRE) told ET.

Earlier, the ministry had said that wind projects are inherently intermittent because the sources are not available all the time—while sunlight is available only for a few hours with varying intensity, wind velocity keeps changing. Green energy developers in India have been supplying whatever power they generate right away to the grid, and since most have not invested in storage facility, supply is intermittent. Continuous supply requires setting up of storage batteries, which may also increase the tariff. Last week, MNRE announced that it would hold auctions only for round-the-clock and hybrid projects, a move seen reducing the problem of intermittent supply and making clean power more competitive against traditional thermal plants.

PSBs Get 3 Months to Build PCGS 2.0 Portfolio

Our Bureau

New Delhi: Public sector banks have three months to build up their portfolios to be eligible for the extended Partial Credit Guarantee Scheme (PCGS 2.0), which will be based on actual amounts disbursed within this period, according to guidelines released by the finance ministry on Thursday. Finance minister Nirmala Sitharaman announced extension of the scheme as part of the government's ₹20 lakh crore Atmanirbhar package. It was cleared by the Cabinet on Wednesday. Under the scheme, public sector banks can purchase pooled assets rated BBB+ or above and bonds or commercial paper (CPs) rated AA and below based on ratings on the date of the transaction. However, pooled debt instruments and bonds and CPs issued in the secondary markets are not covered.

Winds of Change: MNRE to focus on round-the-clock & hybrid projects. Make clean power more competitive against traditional thermal plants. Developers say increasing storage will increase cost.

without because the sources are not available all the time—while sunlight is available only for a few hours with varying intensity, wind velocity keeps changing. Green energy developers in India have been supplying whatever power they generate right away to the grid, and since most have not invested in storage facility, supply is intermittent. Continuous supply requires setting up of storage batteries, which may also increase the tariff. Last week, MNRE announced that it would hold auctions only for round-the-clock and hybrid projects, a move seen reducing the problem of intermittent supply and making clean power more competitive against traditional thermal plants.

banks can purchase pooled assets rated BBB+ or above and bonds or commercial paper (CPs) rated AA and below based on ratings on the date of the transaction. However, pooled debt instruments and bonds and CPs issued in the secondary markets are not covered.

a first-of-its-kind 400 MW RTC tender, where the levelised winning tariff emerged at ₹3.60 per unit. Thermal power sector executives said this could be a serious threat to the dominance of coal-based power generation in the country. The ministry also conducted an auction in January for a 1200 MW solar-wind (hybrid) storage project with a 24-hour peak power. Developers were asked to provide six hours of stored power. For six hours a day, they would have to provide power even when their plants were not generating it. "The levelised tariff came to ₹4.4. We were excited. It was a good beginning," the person said, requesting not to be named. "Since we are coming out with such bids again and again, we are expecting that a good market will be created for storage. This will reduce the tariff further," the person cited earlier said. Developers feel that although storage is needed in order to balance generation, asking all developers to generate power round the clock might not be feasible because of fluctuating load patterns.

TENDER NOTICE
Caravan Bank invites RFP for
RFP NO.2020-21 dated 21/05/2020 for Supply, Installation, Implementation, Commissioning, Commissioning, maintenance and Support for Language Translation Services in Core Banking Solution.

Rates Under Safe Harbour Framework Unchanged

Our Bureau

New Delhi: India has kept the rates under the safe harbour framework unchanged for the assessment year 2020-21, bringing down the lead by a reduction by industry hit hard by the Covid-19 pandemic. As per the Central Board of Direct Taxes (CBDT) notification on May 20, safe harbour rules issued back in 2017 will continue for the ongoing assessment year as well. "These rules may be called the Income Tax (9th Amendment) Rules, 2020. They shall come into force and shall be deemed to have come into force from the 1st day of April, 2020," the board said. Accordingly, margins that were put into effect in 2017, will continue for the assessment year of 2020-21.

Migratory Attack
A small locust swarm eats as much as 10 elephants, 25 camels or 2500 people
Locusts are migratory, short-horned grasshoppers with voracious feeding behavior
Experts from South-West Asian countries are deliberating on a roadmap to tackle locust attack

In 2019-20 crop season, around 375,000 hectares across Rajasthan, Punjab, Gujarat, Haryana suffered severe locust attack

Locusts from Pak Threaten Standing Crops on 2L Hectare

SEEKING HELP Worst-affected Rajasthan seeks drones and helicopters for spraying pesticides

Rituraj.Tiwari@timesgroup.com

New Delhi: Locust swarms from Pakistan have entered Rajasthan, Punjab, Haryana and Madhya Pradesh threatening major damage to standing cotton crops and vegetables over more than 200,000 hectare. These states have sought immediate help from the Centre.

Rajasthan, which is the most affected with 16 out of 33 districts being hit by locust attack, has asked the Centre to provide more spray vehicles, drones and helicopters for spraying pesticides. In Madhya Pradesh, 15 districts are likely to be affected while districts bordering Rajasthan have been put on high alert in Haryana and Punjab. Rajasthan chief minister Ashok Gehlot has written to PM Narendra Modi seeking immediate help. "Food and Agriculture Organization of the United Nations has warned of a large-scale locust outbreak this year and the impact will be 2-3 times higher than that of the previous year. We have floated tender for drones, which can spray pesticides to areas which are inaccessible by vehicles," said Rajasthan agriculture minister Lal Chand Kataria.

The central government is coordinating with states to control locust attack before the kharif sowing begins in June.

"Currently cotton is planted in major areas. Once the kharif sowing begins, the risk will intensify. We have so far controlled attack of locust across 14,299 hectare at 150 places in districts of Punjab and Rajasthan. Now the latest attack has given us more to worry," said a senior agriculture department official.

He said the locust army has swarmed Indian territory earlier than scheduled. The Locust Control Organisation has deployed 50 spray vehicles to get rid of locust army and resistance of the locust army enters the desert of India from Pakistan during June and July. But this time, they were first to hit in Rajasthan, he said. The government regularly coordinates with South-West Asian countries like Afghanistan, Iran and Pakistan where locust attacks are a common phenomenon.

Food and Agriculture Organization of the UN has warned of a large-scale locust outbreak this year

Food and Agriculture Organization of the UN has warned of a large-scale locust outbreak this year and the impact will be 2-3 times higher than that of the previous year. We have floated tender for drones, which can spray pesticides to areas which are inaccessible by vehicles," said Rajasthan agriculture minister Lal Chand Kataria.

Tomato in Dehi Plunges to ₹1-2 a kg, Onion to ₹8

Traders cite weak demand, strong supply in harvest season

Madhvi.Saily@timesgroup.com

New Delhi: Tomato prices have crashed to ₹1.2 per kg while onions have fallen to about ₹8 per kg in Delhi's wholesale market because of weak demand and strong supply in the harvest season, which will keep prices low, traders said. Direct purchases from farmers have also hit wholesalers. Tomato traded at ₹9 to ₹10 two weeks ago, said Subhash Chugh, president, Tomato and Vegetable Traders Association, Azadpur market. "Increased supply from

neighbouring states and poor demand from hotels, restaurants, hostels, canteens and banquet halls which have also hit wholesalers.

neighbouring states and poor demand from hotels, restaurants, hostels, canteens and banquet halls which have also hit wholesalers. Tomato traded at ₹9 to ₹10 two weeks ago, said Subhash Chugh, president, Tomato and Vegetable Traders Association, Azadpur market. "Increased supply from

more than 15-20 lakh student have gone back home, traders said. Onion prices have halved in the past two to three weeks, said Ram Baran of Shri Ram Trading Company in Azadpur market. He said traders could only sell the surplus in the mandi. "Hotels, restaurants and institutions are not fully operational. Consumer buying is also less," he said. Traders were also losing out as wholesale buyers in Uttar Pradesh who have started directly buying 50-60 kg a day had bought 50-60 kg, Tomato and onion consumption at hotels has also crashed as
