Sri Lanka seeks \$1.5 bn more from India

UDITHA JAYASINGHE
Colombo, 28 March

Sri Lanka has sought an additional credit line of \$1.5 billion from India to import essentials, the island nation's central bank governor said on Monday, amid its worst economic crisis in decades.

The country of 22 million people is struggling to pay for essential imports after a 70 per cent drop in foreign exchange reserves in two years led to a currency devaluation and efforts to seek help from global lenders. Fuel is in short supply, food prices are rocketing and protests have broken out as Sri Lanka's government prepares

for talks with the International Monetary Fund amid concerns over the country's ability to pay back foreign debt.

The new line is on top of the \$1 billion support extended by India to help pay for critical imports when Sri Lankan Finance Minister Basil Rajapaksa travelled to New Delhi earlier this month. "There is a very close discussion continuing for an additional support of \$1.5 billion (with India) by way of oil support as well as other essential goods support of credit terms," Ajith Nivard Cabraal told an online event.

New Delhi has indicated it would meet the request for the

new line, to be used for importing essential items such as rice, wheat flour, pulses, sugar and medicines, one source briefed on the matter said. India's foreign ministry did not respond to a request for comment.

India's support for the roiled Sri Lankan economy comes after previous administrations led by the powerful Rajapaksa family drew the island nation closer to China during the past decade, leading

to unease in New Delhi.

In Colombo for talks, Indian Foreign Minister Subrahmanyan Jaishankar met the finance minister and his brother, President Gotabaya Rajapaksa, on Monday. "Reviewed various dimensions of our close neighbourly relationship," Jaishankar said in a tweet after meeting the president. "Assured him of India's continued cooperation and understanding." Also, India extended a \$400-million currency swap and a \$500-million credit line for fuel purchases to Sri Lanka. "India will be an ally for Sri Lanka's future progress," Cabraal said.

Bank ops hit; SAIL, NMDC staff join Bharat Bandh

Govt officials can't participate in strike: Kerala HC

ABHIJIT LELE & AGENCIES
Mumbai, 28 March

Banking services, especially branch operations and clearing work at public sector banks, were impacted in many parts of the country as employees joined the two-day nationwide strike to oppose the central government's policies, including privatisation of banks. Treasury operations, however, were running smoothly, bankers said.

A joint forum of central trade unions has given a call for a nationwide strike on March 28 and 29 to protest against the government policies affecting workers, farmers, and people. Thousands of workers of state-

savings of the common man. Meanwhile, the Reserve Bank of India in a statement said It will conduct special clearing operations exclusively for government cheques across three Cheque Truncation System grids on March 31.

Apart from the ten central trade unions, the joint forum also includes independent sectoral federations and workers' associations. Electricity and fuel supplies remained unaffected but unions claimed the agitation has had an impact in coal mining belts in Jharkhand, Chhattisgarh, and MP.

The Kerala High Court on Monday directed the LDF administration to forthwith issue orders preventing its STAFF from abstaining from duty as part of the two-day strike. It said government servants should not engage in any concerted or organised slowdown of work.

For FY23, SBI eyes ₹10K-cr loan book via co-lending

ABHIJIT LELE
Mumbai, 28 March

State Bank of India (SBI) is looking to build a retail loan book of ₹10,000 crore for personal, micro, small and medium enterprise and agriculture sectors in FY23. It would be done through a co-lending partnership with finance and housing finance companies (HFCs).

At present, SBI has 14 such tie-ups, which is set to expand to 25 in FY23. CS Setty, managing director of retail and digital banking at SBI, said in the current financial year, the bank firmed up a policy and internal set up for a co-lending model. And, FY23 will be the first full financial year to grow activity.

The bank is roping in an IT vendor for building a digital interface platform for co-lending. This is to manage risks, accounting, reconciliation, minimise physical interface and reduce defaults. The platform is expected to be functional in Q1 of FY23. The co-lending arrangement will be used to scale up priority sector lending portfolios comprising agri and micro loans, and affordable housing.

Last week, it signed a co-lending agreement with five housing finance firms, including PNB Housing Finance and Shriram Housing Finance to give loans for affordable homes. The bank's total housing loan portfolio is about \$5.5 trillion, and out of it, the affordable housing book in February was ₹2.82 trillion. The two entities will jointly service housing loan customers, according to the 20:80 co-lending model of the RBI.

High inflation to compel RBI to signal neutral policy stance: S&P

NIKUNJ OHRI
New Delhi, 28 March

The Reserve Bank of India (RBI) would be compelled to signal a neutral policy stance in the Monetary Policy Committee's review meeting in April as average consumer inflation is likely to stay firm at 5.4 per cent in FY23, S&P Global Ratings said in a note.

The RBI will likely raise the repo rate by at least 50-75 basis points through fiscal year 2023, and by another 50 basis points

in fiscal 2024, S&P said.

Separately, Moody's Analytics said if the US Federal Reserve accelerates its path to policy normalisation, the RBI may have little choice but to commence policy tightening as inflation remains elevated.

The rise in inflation will make RBI signal a neutral stance in its April review meeting, followed by a normalisation of the policy-rate corridor (the gap between the repo and reverse repo rate). This will involve an increase of the

reverse-repo rate, S&P said.

High inflation will dampen private consumption — the largest component of demand — and the last to recover from the pandemic, it agency said. "The government may end up using fiscal policy more aggressively than it laid out in its budget for fiscal 2023. This will help those most affected by the pandemic until investment-led growth lifts the labor market, and private consumption demand becomes self-sustaining," S&P said.

India's retail inflation rate or CPI came in at an eight-month high in February — remaining above the RBI's upper targeted limit of 6 per cent for the second straight month — at 6.07 per cent.

After exports from Asia-Pacific region have continued to rise on the back of accelerating global trade, exports from the region may see some disruption due to obstruction at some manufacturing units following rising Covid cases in China, the Moody's report said.

Stellar jury picks the best of India Inc

Jindal, who won the award in 2017 and joined the meeting from London, was of the opinion that a company's consistent performance during the pandemic year should be kept in mind in selecting the winners.

Outstanding achievements like those of Parekh and Cipla can hardly go unnoticed, when a distinguished jury comprising the heads of India's two leading conglomerates, two leading private equity funds, two global marquee management consultancy organisations, and two top legal eagles meet to decide the winners of the awards for corporate excellence for the financial year ended March 2021 — one of the worst periods for companies across the world due to the pandemic and several lockdowns induced by it.

As the nation was hit by the pandemic, like the rest of Corporate India, Infosys changed its business model overnight and asked its employees to work from home, keeping in mind the safety of the workforce.

India's second-largest IT services provider reported revenues of \$13.56 billion in 2020-21. In rupee terms, they came to more than ₹1 trillion in 2020-21, a year-on-year growth rate of 10.7 per cent, while net profit grew faster — by 16.6 per cent — year-on-year to ₹19,351 crore. As Infosys has seen a sharp turnaround in performance and beaten peers like Tata Consultancy Services in growth, its market valuation, now over ₹7.88 trillion, has clocked a compound annual growth rate (CAGR) of about 40 per cent over the past three years. Over a year's period, the same is up about 48 per cent.

Under Parekh, who became CEO and MD in FY18 amid turbulent times, Infosys has pivoted its growth strategy on three pillars — the agile digital business, energising the core, and reskilling

and localisation. In all these areas, it has progressed well. Since his appointment, Parekh has not looked back as Infosys bagged new orders of billions of dollars and gained the confidence of its investors, clients, employees, its board, and other stakeholders.

"The deliberations on CEO of the Year were quite evolved and there were quite a few candidates. Sail came out as the consensual choice due to very, very strong performance since he took the reins. And as we all know, he took over as Infosys CEO at a very tricky time," Nayar said.

Mumbai-headquartered Cipla is the third-largest pharmaceutical company in India, the third-largest over-the-counter (OTC) player in South Africa, the eighth largest by prescription in the US, and the second-largest Indian exporter to the emerging markets.

Established in 1935, Cipla's revenues for 2020-21 grew 11.8 per cent to ₹19,160 crore, while profit after tax (PAT) jumped 55.5 per cent to ₹2,405 crore. Between FY18 and FY21, Cipla's revenues clocked a CAGR of 8.1 per cent, and PAT grew by 19.5 per cent annually.

The company, which has seen a generational change in its leadership, draws 40 per cent of its revenues from India and 21 per cent from the US market. The South Africa region, emerging markets, and Europe contribute 18 per cent, 10 per cent, and 5 per cent, respectively.

On selecting Cipla as the Company of the Year, Shroff said the performance had been outstanding and there were several other interesting aspects as well in view of the contribution to the health

care sector, particularly during the pandemic. "The fact that the generational transition was so smooth, so it was quite an iconic performance and it was a pleasure for the jury to select Cipla," Shroff said.

All jury members agreed that while financial ratios were important for making the first cut, equal importance had to be given to individuals who focused on innovation and built institutions

when challenges in the external environment were severe due to restrictions imposed by the governments to control the pandemic.

The jury discussed several outstanding individuals who have left a deep and lasting impact on India's corporate history, but was unanimous in their choice of Prathap C Reddy, founder of Apollo Hospitals, as winner of the Lifetime Achievement award.

"We chose Prathap Reddy, considering the creditable work done by him in the space of health care, especially during the time of the pandemic. He seemed to have a very good succession in place and the company showed good numbers," Birla said.

The jury recognised that Reddy, 89, was a trailblazer not only in the world of health care but also as a philanthropist. He set up Apollo Hospitals in 1983, India's first corporate chain of hospitals, and introduced world-class health care across the country. Today, the company has a market valuation of almost ₹67,000 crore. Reddy was conferred the Padma Vibhushan in 2010 — the second-highest civilian award in India.

The jury debated several candidates for the Start-up of the Year award. After

a long discussion, Zerodha, with its profit-making business model, was selected. "There were many exciting choices and eventually we all settled on Zerodha, which is a pioneer in innovation on multiple fronts like introducing flat fees and has gone from strength to strength," Kaka said.

On Star PSU of the Year, the jury felt the candidate should show outstanding financial metrics, apart from facing competition from the private sector besides its peers. After a discussion on several companies, it zeroed in on Bharat Electronics. "The company was a unanimous choice of the jury due to consistent performance on various financial metrics — be it sales growth, or profit growth. All this leading to a significant increase in the market valuation over the last three years and the market recognising the fact that they (Bharat Electronics) have tremendous potential," Chandra said.

For the Star MNC award, the jury selected Procter & Gamble Hygiene & Health Care, based on its sales and profits, and notably the innovations it has brought about, helping the company sustain its lead in the feminine hygiene industry. "The jury selected P&G Hygiene for its consistent performance and very strong financial metrics. They have guarded their market share very tightly despite many people (companies) trying to get into that segment," Memani said.

On selecting Dr Lal PathLabs as the Star SME of the Year, Mody said the company stood out for its consistency and brand recognition during the Covid times. The company's sales grew by almost 19 per cent and net profit surged over 29 per cent in 2020-21, over the previous year. The three-year CAGR in the two metrics is 14.4 per cent and 19.5 per cent, respectively.
