Re: Update on L-1 Chikalthana, Aurangabad Inspection by US FDA

The recent inspection at the Aurangabad L1-Chikalthana site was a follow-up inspection by the US FDA as an outcome of completion of GMP remediation submitted by Wockhardt in Oct 2014.

The audit focus was to assess our GMP remediation and our efforts made to bring about culture change and to build a robust quality management.

The efforts for data security control has been thoroughly verified during the inspection and have been appreciated as it is qualified and executed since September 2013.

There were no findings with respect to data security and control measures in Laboratory and Manufacturing.

The observations on Form FDA 483 are on products manufactured prior to execution and implementation of GMP remediation program.

The agency has indicated a common Goal as Voluntary Compliance which shall be a continual process facilitating the concept of "*right the first time and every time*" leading to desired Quality Culture.

Thanking you,

Yours cordially,

For **WOCKHARDT LIMITED**

AMRUTA AVASARE
