Economic, strategic goals in region got a fillip: Rubio

SHUBHANGI MATHUR
New Delhi, 22 October

United States (US) Secretary of State Marco Rubio on Thursday said that building economic partnership and cooperation on energy security made India and the US stronger.

During his three-day visit to India, which ended on Thursday, he had been to Mumbai and the refinery site of Reliance Industries Ltd (RIL) in Jamnagar, Gujarat.

“Just departed India having advanced our economic and strategic priorities in the region,” Rubio posted on X.

Rubio’s visit to Jamnagar underscores the potential of India’s refinery configuration, which can process extra-heavy crude oil from Venezuela.

After the US took over Venezuelan oil assets, the administration, under President Donald Trump, has been looking for opportunities to sell high-sulphur crude oil, which can be processed only by select refineries.

The development comes at a time when India is buying more crude oil from Venezuela. The value of the country’s oil imports from the South American country surged from \$255 million in 2025-26 to \$3.6 billion in just five months (April-August) of 2026-27.

Since the beginning of the West Asia conflict, India has increased dependence on purchases of Venezuelan oil to offset supply losses from the Gulf.

Rubio on October 20 described India as a “refining superpower”, citing RIL as a

key player in global energy refining. India has the world’s fourth-largest refining capacity at 267 million tonnes per annum (mtpa), which is expected to go up to 320 mtpa by 2030.

Mukesh Ambani-run RIL, which operates the world’s largest integrated, single-site refinery complex in Jamnagar, has the highest crude oil-processing capacity globally, of 1.4 million barrels per day (mmbpd). The refinery also has the world’s highest complexity index of 21:1, which means it can turn heavy but cheaper crude oil into high-quality petroleum products. The grade of crude oil is in accordance with its lightness or

heaviness, defined by its sulphur content. The heavier the oil, the more complex its processing becomes. The Jamnagar refinery has processed over 216 grades of crude oil produced in the world, according to the company.

Jamnagar’s ability to process heavy crude oil has drawn interest from the US because Washington seeks to expand sales of Venezuelan oil to India.

“RIL’s dominance in India’s Venezuelan crude oil purchases explains Washington’s focus on the company. RIL accounts for 74.3 per cent of the import of Venezuelan oil in April-August. Imports through RIL’s special economic zone (SEZ) refinery stood at 47.3 per

cent of the total, while the Domestic Tariff Area (DTA) or the Sikka refinery accounted for 27 per cent,” said Ajay Srivastava, founder of the Global Trade Research Initiative (GTRI).

Other import points included Indian Oil’s Paradip facility at 11.7 per cent, Mundra’s storage terminals operated by Hindustan Petroleum and others at 11.3 per cent, and Nayara Energy’s Vadinar facility at 2.7 per cent.

Experts, however, caution that the US’s policy unpredictability poses risks for India, pointing to instances in the past when Indian assets abroad were frozen.

India and Poland aim to boost defence ties, double trade by ’30

India and Poland signed four agreements on Thursday after talks between Prime Minister (PM) Narendra Modi and his Polish counterpart Donald Tusk, aiming to leverage the India-European Union (EU) free trade agreement to double their bilateral trade from the current \$6.3 billion by 2030.

The two countries also established a defence industry dialogue for co-development and co-production in the sector.

With Poland sharing a 530-km border with Ukraine, Modi told a joint media briefing that India will contribute to any meaningful effort to bring peace to Ukraine.

Tusk is on a three-day visit to India amid a renewed global push to end the conflict in Ukraine. Modi and Tusk noted the negative impacts of the war with regard to global food and energy security, especially for the Global South.

Poland is set to receive €43.7 billion under the EU’s Security Action for Europe (SAFE) fund

to augment its defence capabilities to meet what Warsaw views as an increased Russian threat. Poland is the biggest beneficiary of the scheme, and can spend 35 per cent of the amount on investments in defence production abroad, including in India.

Official sources pointed out that the defence dialogue will

become important. Among the North Atlantic Treaty Organization (Nato) countries, Poland is the biggest spender on armed forces relative to the size of its economy. It plans to spend 4.8 per cent of its gross domestic product on defence in 2026.

Modi and Tusk welcomed the growing interaction be-

tween Indian and Polish defence industries and encouraged them to identify commercially viable areas of cooperation.

The defence industry dialogue will prepare a forward-looking framework for defence industrial cooperation, including greater business-to-business engagement.

Both sides underlined the importance of having an Agreement on Mutual Protection and Exchange of Classified Information, which is expected to be signed soon.

“Today we have agreed to deepen ties in defence, space, and nuclear energy. We invite Polish companies to engage in co-development and co-production with India in all these strategic areas,” Modi said.

“In critical minerals and coal gasification too, we will develop new partnerships with Polish expertise,” he added. At a business forum held later in the day, half-a-dozen agreements were inked between the private sectors of the two countries spanning space, railways, mining and coal gasification.

1 Indian killed, 3 injured in Houthi attacks on Saudi

An Indian national was killed and three others were injured in two separate attacks targeting a major airport and an oil field in Saudi Arabia, officials said on Thursday, amid a spate of missile and drone strikes by Yemen’s Houthis on key infrastructure.

The Indian Embassy in Riyadh said that Saudi authorities have informed it about the casualty in the attack on King Fahd

International Airport in Dammam in eastern Saudi Arabia on the Persian Gulf near Bahrain and Qatar on Wednesday night.

It said that one Indian national was earlier injured in an attack at Saudi Aramco’s Shaybah oilfield on Wednesday and added that the mission was in touch with Saudi authorities for further details.

“One Indian national was

among two people who unfortunately lost their lives in the attack on Dammam airport yesterday night and two Indian nationals were injured,” the embassy said in a social media post on Thursday. “We are ascertaining further details and contacting the affected families. Our thoughts and prayers are with the family and loved ones of the deceased and we wish speedy recovery of the injured,” it added. PTI

Low coal stocks may hit ability to meet power demand surge: Icr

Any further decline in coal stock levels at power plants, particularly if accompanied by weaker coal production or supply constraints, may limit the sector’s ability to meet any sharp surge in peak demand, Icr said on Thursday, adding that a sustained recovery in coal production and supply is important to maintain adequate buffer stock levels. India’s domestic coal production declined by 3.2 per cent (Y-o-Y) in the first five months of the current financial year, but coal supply to the power sector increased by 4 per cent Y-o-Y during the period.

Adani Ports sets up subsidiary in Oman

Adani Ports and Special Economic Zone (APSEZ) on Thursday said it incorporated a wholly owned subsidiary, Indian Ocean Gateway Terminal, in Oman. In a regulatory filing, APSEZ said Adani International Ports Holdings, a wholly-owned subsidiary of the Company, incorporated Indian Ocean Gateway Terminal in Oman. The new entity has been established to conduct its offshore operations locally in line with the company’s strategy to expand its presence as a global integrated transport operator, it added. APSEZ said this development further reinforces APSEZ’s strategy of building a globally diversified business platform. PTI

Tiger Shroff firing; 4 held, gangster Anil Pandit wanted

Gangster Anil Pandit who had claimed responsibility for the firing on Bollywood actor Tiger Shroff has been named as a wanted accused in the case, police told a court on Thursday as it remanded four arrested persons in police custody till October 26.

Pandit, a member of the Lawrence Bishnoi gang who is said to be operating from the United States (US), had allegedly claimed responsibility for the October 18 attack on Shroff in a social media post.

The Crime Branch of Mumbai Police on Thursday produced Kunal (21) and Sumit (19), both hailing from Haryana’s Sonapat district, and Radha (23) and Babita (23), both from Uttar Pradesh, before the Esplanade Magistrate’s court here. These four accused had supplied a weapon to the shooters, the police said. PTI
