Subject: Press Release for Launch of Technology-Enabled Quick Delivery Platform with Real-Time Order Tracking

Dear Sir/Madam,

Pursuant to Regulation 30 of the SEBI (Listing Obligations and Disclosure Requirements) Regulations, 2015, we are pleased to inform the Stock Exchange that Womancart Limited has introduced a technology-driven Quick Delivery Model aimed at enhancing customer experience through faster deliveries and complete order visibility.

As part of this initiative, the Company has integrated a **real-time delivery tracking system**, enabling customers to monitor the movement of their orders from dispatch until successful delivery.

The above information is submitted for the information of the Exchange and stakeholders.

Thanking You,

For Womancart Limited

Keshutosh Roy
Company Secretary

Quick Delivery with Real-Time Order Visibility

The Quick Delivery Platform is equipped with **real-time GPS tracking**, enabling customers to monitor the live movement of their orders on map. The platform provides live order status updates, including Order Confirmed, On the Way and Delivered, along with a dynamic Estimated Time of Arrival (ETA) based on the delivery partner's live location. This technology-driven solution enhances delivery efficiency while providing greater transparency, convenience and an improved customer experience.

Commenting on the development, Mr. Madhu Sudan Pahwa, Promoter of Womancart Limited, said: The introduction of the technology has enabled Quick Delivery Platform in **Delhi & Jaipur** and based on customer response, operational performance and infrastructure readiness, the Company intends to progressively expand the service. Womancart Limited aims to offer customers a seamless shopping experience with greater transparency, convenience and reliability.
