100CC BIKES SET TO BE AT LEAST ₹1,200 COSTLIER 2W dealers anxious as new norms from Apr 1; no clarity on old stock

SWARAJ BAGGONKAR
Mumbai, March 10

THE NEXT STAGE of regulatory compliance for two- and three-wheelers is set to kick-start on April 1, 2025. Vehicles will have to sport a diagnostic tool that can detect abnormalities in engines and emissions from the beginning of the new financial year.

While vehicle making companies started filling replacement stocks with supplies featuring the new compliance tool since February, dealers appear to be apprehensive about the unsold inventory that will be left at the end of the current financial year.

"The manufacturers have told us that we can sell the existing stock even after March 31, 2025. But yes, there is a sense of ambiguity on that," said a dealer who is a member of the Federation of Automobile Dealers Association (FADA).

The dealer community's apprehension is drawn from the situation they and their vehicle making partners found themselves in, five years ago, when the older technology vehicles were not allowed to be sold during a similar switchover.

The Supreme Court had banned sale and registration of Bharat Stage 4 (BS-4) vehicles from April 1, 2020 (while allowing sale and registration of only BS-6 vehicles), leading to a pile of unsold stock with the dealers.

From April 1, 2025, all two and three-wheelers will have to

UNCERTAINTY LOOMS

■ The new norms require all two and three-wheelers to make use of OBD tool which reads vital inputs on emission

■ The norms will push up prices of two-wheelers by 1-2%

■ Retail sales were also down by 6% during the same month, according to FADA data

■ This is expected to put further pressure on affordability for entry-level products

■ Two-wheeler firms dispatched 9% lesser units to dealers during February, highlighting efforts to reduce stock and push retail sales

make use of onboard diagnostic (OBD) tool which reads vital inputs related to emission, engine misfire and other. These inputs are stored and relayed during diagnosis.

The new norms will push up prices of two-wheelers by 1-2%. This is expected to put further pressure on affordability for entry-level products such as the 100cc motorcycle, where price is expected to go up by a minimum of ₹1,200.

Two-wheeler companies, comprising Hero MotoCorp, Honda, Bajaj Auto, TVS Motor and Royal Enfield, dispatched 9% lesser units to their dealers during February, which highlighted the effort to reduce

stock and push retail sales. However, retail sales were also down by 6% during the same month, according to FADA data.

Honda Motorcycle and Scooter India, the country's largest two-wheeler maker, as of February end, has moved most of its model lineup to the new norms, including its best seller Activa and the Shine 125.

In a recent interaction with Vikram Kasbekar, executive director, Hero MotoCorp said, "The OBD 2B norm is slightly different from the earlier one in the sense that we can manufacture up to March 31 and thereafter, those vehicles can be sold in the market."

Godrej Consumer opens ₹515-cr Chennai unit

NARAYANAN V
Chennai, March 10

GODREJ CONSUMER PRODUCTS (GCPCL) on Monday inaugurated its first integrated greenfield manufacturing plant in Chengalpattu district on the outskirts of Chennai, with an investment of ₹515 crore. The facility has the potential to generate 1,000 direct and indirect jobs.

Speaking on the sidelines, the company's MD & CEO, Sudhir Sitapati, said the slowdown in urban consumption in the fast-moving consumer goods (FMCG) sector is "transitory" in nature and that higher government spending along with income tax relief will drive demand, particularly in urban areas.

"I think some specific factors in Q3 (FY25) impacted urban consumption, but they don't seem to be there. One of them was food inflation, which

appears to have eased sharply in Q4 (FY25)," Sitapati said.

He noted that while urban demand was an exception, rural demand, which had struggled for a longer period, appears to have recovered.

"Rural markets have actually picked up, but they were compensated by a very poor urban

performance in Q3 FY25. Our own anticipation is that the rural recovery will be faster than the urban recovery," Sitapati said.

He said the rural recovery is driven by welfare spending by the central and state governments, along with some state-level consumption-focused initiatives.

Noida Airport opening delayed to June qtr: Zurich Airport CFO

SWARAJ BAGGONKAR
Mumbai, March 10

THE OPENING of the Noida International Airport, which is running six months behind schedule, is slated for inauguration in the June quarter, a top official of Zurich Airport said. A 100% subsidiary of Zurich Airport International has the mandate to construct and operate the greenfield airport.

While construction of the runway and air traffic control tower is underway, the terminal building of the new airport is far from being ready.

"The construction is progressing, with the runway and tower ready, but the terminal still requires interior work. We expect to inaugurate the airport in Q2 2025, with a ramp-

up over the next two to five months," Kevin Fleck, chief financial officer, Zurich Airport, told analysts on March 7.

When asked if penalties will be levied for the delay in the opening of the airport, Fleck added, "Yes, there are penalties of approximately CHF 300,000 (₹3 crore) per

month, but these can be contractually passed on to TATA (Tata Projects), the airport's constructor."

On March 7, Noida International Airport said it had submitted the application for the aerodrome licence and was working closely with the aviation regulators to complete all necessary steps, including the publication of the Aerodrome Information Publication.

"We expect the aerodrome licence in the next few weeks. The fee application process is ongoing, and we aim to have temporary tariffs before operations start," Fleck added.

Cars24 forays into new car sales with super app

RAGHAV AGGARWAL
New Delhi, March 10

USED CAR MARKETPLACE Cars24 on Monday entered the new car sales space by launching a platform that aggregates automobile dealerships and manufacturers.

The platform would offer customers with information of the new cars, including their price in a city, features, influencer reviews, and the used options for the model, among other things.

This is a part of the company's broader strategy to consolidate the car buying process under a single super app.

Gajendra Jangid, co-founder of Cars24, said that their main aim is to improve the customer journey for buying a new car.

The platform's differentiating factor, according to him, would be its focus on videos and customer experience on the website. It will also collaborate with influencers for car reviews and walkthroughs.

"If you're spending lakhs on a new car, the experience of buying it should match the excitement of driving it. That's what we're changing—bringing speed, transparency, and control to new car buying, the way it should be," he said.

In August last year, the Gurugram-based company launched a super app offering other services like servicing, insurance payments, vehicle financing, and FASTag payments. The company has also recently forayed into the personal loan space with Loans24.

The sales of second-hand cars have surpassed that of the new ones, but the pace of growth has been slow.

According to analysts, the high cost of holding large inventory and maintenance keeps the market difficult.

appears to have eased sharply in Q4 (FY25)," Sitapati said.

He noted that while urban demand was an exception, rural demand, which had struggled for a longer period, appears to have recovered.

"Rural markets have actually picked up, but they were compensated by a very poor urban

performance in Q3 FY25. Our own anticipation is that the rural recovery will be faster than the urban recovery," Sitapati said.

He said the rural recovery is driven by welfare spending by the central and state governments, along with some state-level consumption-focused initiatives.

Noida Airport opening delayed to June qtr: Zurich Airport CFO

SWARAJ BAGGONKAR
Mumbai, March 10

THE OPENING of the Noida International Airport, which is running six months behind schedule, is slated for inauguration in the June quarter, a top official of Zurich Airport said. A 100% subsidiary of Zurich Airport International has the mandate to construct and operate the greenfield airport.

While construction of the runway and air traffic control tower is underway, the terminal building of the new airport is far from being ready.

"The construction is progressing, with the runway and tower ready, but the terminal still requires interior work. We expect to inaugurate the airport in Q2 2025, with a ramp-

up over the next two to five months," Kevin Fleck, chief financial officer, Zurich Airport, told analysts on March 7.

When asked if penalties will be levied for the delay in the opening of the airport, Fleck added, "Yes, there are penalties of approximately CHF 300,000 (₹3 crore) per

month, but these can be contractually passed on to TATA (Tata Projects), the airport's constructor."

On March 7, Noida International Airport said it had submitted the application for the aerodrome licence and was working closely with the aviation regulators to complete all necessary steps, including the publication of the Aerodrome Information Publication.

"We expect the aerodrome licence in the next few weeks. The fee application process is ongoing, and we aim to have temporary tariffs before operations start," Fleck added.

Cars24 forays into new car sales with super app

RAGHAV AGGARWAL
New Delhi, March 10

USED CAR MARKETPLACE Cars24 on Monday entered the new car sales space by launching a platform that aggregates automobile dealerships and manufacturers.

The platform would offer customers with information of the new cars, including their price in a city, features, influencer reviews, and the used options for the model, among other things.

This is a part of the company's broader strategy to consolidate the car buying process under a single super app.

Gajendra Jangid, co-founder of Cars24, said that their main aim is to improve the customer journey for buying a new car.

The platform's differentiating factor, according to him, would be its focus on videos and customer experience on the website. It will also collaborate with influencers for car reviews and walkthroughs.

"If you're spending lakhs on a new car, the experience of buying it should match the excitement of driving it. That's what we're changing—bringing speed, transparency, and control to new car buying, the way it should be," he said.

In August last year, the Gurugram-based company launched a super app offering other services like servicing, insurance payments, vehicle financing, and FASTag payments. The company has also recently forayed into the personal loan space with Loans24.

The sales of second-hand cars have surpassed that of the new ones, but the pace of growth has been slow.

According to analysts, the high cost of holding large inventory and maintenance keeps the market difficult.

100CC BIKES SET TO BE AT LEAST ₹1,200 COSTLIER 2W dealers anxious as new norms from Apr 1; no clarity on old stock

SWARAJ BAGGONKAR
Mumbai, March 10

THE NEXT STAGE of regulatory compliance for two- and three-wheelers is set to kick-start on April 1, 2025. Vehicles will have to sport a diagnostic tool that can detect abnormalities in engines and emissions from the beginning of the new financial year.

While vehicle making companies started filling replacement stocks with supplies featuring the new compliance tool since February, dealers appear to be apprehensive about the unsold inventory that will be left at the end of the current financial year.

"The manufacturers have told us that we can sell the existing stock even after March 31, 2025. But yes, there is a sense of ambiguity on that," said a dealer who is a member of the Federation of Automobile Dealers Association (FADA).

The dealer community's apprehension is drawn from the situation they and their vehicle making partners found themselves in, five years ago, when the older technology vehicles were not allowed to be sold during a similar switchover.

The Supreme Court had banned sale and registration of Bharat Stage 4 (BS-4) vehicles from April 1, 2020 (while allowing sale and registration of only BS-6 vehicles), leading to a pile of unsold stock with the dealers.

From April 1, 2025, all two and three-wheelers will have to

UNCERTAINTY LOOMS

■ The new norms require all two and three-wheelers to make use of OBD tool which reads vital inputs on emission

■ The norms will push up prices of two-wheelers by 1-2%

■ Retail sales were also down by 6% during the same month, according to FADA data

■ This is expected to put further pressure on affordability for entry-level products

■ Two-wheeler firms dispatched 9% lesser units to dealers during February, highlighting efforts to reduce stock and push retail sales

make use of onboard diagnostic (OBD) tool which reads vital inputs related to emission, engine misfire and other. These inputs are stored and relayed during diagnosis.

The new norms will push up prices of two-wheelers by 1-2%. This is expected to put further pressure on affordability for entry-level products such as the 100cc motorcycle, where price is expected to go up by a minimum of ₹1,200.

Two-wheeler companies, comprising Hero MotoCorp, Honda, Bajaj Auto, TVS Motor and Royal Enfield, dispatched 9% lesser units to their dealers during February, which highlighted the effort to reduce

stock and push retail sales. However, retail sales were also down by 6% during the same month, according to FADA data.

Honda Motorcycle and Scooter India, the country's largest two-wheeler maker, as of February end, has moved most of its model lineup to the new norms, including its best seller Activa and the Shine 125.

In a recent interaction with Vikram Kasbekar, executive director, Hero MotoCorp said, "The OBD 2B norm is slightly different from the earlier one in the sense that we can manufacture up to March 31 and thereafter, those vehicles can be sold in the market."

GODREJ CONSUMER PRODUCTS (GCPL) on Monday inaugurated its first integrated greenfield manufacturing plant in Chengalpattu district on the outskirts of Chennai, with an investment of ₹515 crore. The facility has the potential to generate 1,000 direct and indirect jobs.

Speaking on the sidelines, the company's MD & CEO, Sudhir Sitapati, said the slow-down in urban consumption in the fast-moving consumer goods (FMCG) sector is "transitory" in nature and that higher government spending along with income tax relief will drive demand, particularly in urban areas.

"I think some specific factors in Q3 (FY25) impacted urban consumption, but they don't seem to be there. One of them was food inflation, which

Cars24 forays into new car sales with super app

RAGHAV AGGARWAL
New Delhi, March 10

USED CAR MARKETPLACE Cars24 on Monday entered the new car sales space by launching a platform that aggregates automobile dealerships and manufacturers.

The platform would offer customers with information of the new cars, including their price in a city, features, influencer reviews, and the used options for the model, among other things.

This is a part of the company's broader strategy to consolidate the car buying process under a single super app.

Gajendra Jangid, co-founder of Cars24, said that their main aim is to improve the customer journey for buying a new car.

The platform's differentiating factor, according to him, would be its focus on videos and customer experience on the website. It will also collaborate with influencers for car reviews and walkthroughs.

"If you're spending lakhs on a new car, the experience of buying it should match the excitement of driving it. That's what we're changing—bringing speed, transparency, and control to new car buying, the way it should be," he said.

In August last year, the Gurugram-based company launched a super app offering other services like servicing, insurance payments, vehicle financing, and FASTag payments. The company has also recently forayed into the personal loan space with Loans24.

The sales of second-hand cars have surpassed that of the new ones, but the pace of growth has been slow.

According to analysts, the high cost of holding large inventory and maintenance keeps the market difficult.

100CC BIKES SET TO BE AT LEAST ₹1,200 COSTLIER 2W dealers anxious as new norms from Apr 1; no clarity on old stock

SWARAJ BAGGONKAR
Mumbai, March 10

THE NEXT STAGE of regulatory compliance for two- and three-wheelers is set to kick-start on April 1, 2025. Vehicles will have to sport a diagnostic tool that can detect abnormalities in engines and emissions from the beginning of the new financial year.

While vehicle making companies started filling replacement stocks with supplies featuring the new compliance tool since February, dealers appear to be apprehensive about the unsold inventory that will be left at the end of the current financial year.

"The manufacturers have told us that we can sell the existing stock even after March 31, 2025. But yes, there is a sense of ambiguity on that," said a dealer who is a member of the Federation of Automobile Dealers Association (FADA).

The dealer community's apprehension is drawn from the situation they and their vehicle making partners found themselves in, five years ago, when the older technology vehicles were not allowed to be sold during a similar switchover.

The Supreme Court had banned sale and registration of Bharat Stage 4 (BS-4) vehicles from April 1, 2020 (while allowing sale and registration of only BS-6 vehicles), leading to a pile of unsold stock with the dealers.

From April 1, 2025, all two and three-wheelers will have to

UNCERTAINTY LOOMS

- The new norms require all two and three-wheelers to make use of OBD tool which reads vital inputs on emission
- This is expected to put further pressure on affordability for entry-level products
- The norms will push up prices of two-wheelers by 1-2%
- Two-wheeler firms dispatched 9% lesser units to dealers during February, highlighting efforts to reduce stock and push retail sales
- Retail sales were also down by 6% during the same month, according to FADA data

make use of onboard diagnostic (OBD) tool which reads vital inputs related to emission, engine misfire and other. These inputs are stored and relayed during diagnosis.

The new norms will push up prices of two-wheelers by 1-2%. This is expected to put further pressure on affordability for entry-level products such as the 100cc motorcycle, where price is expected to go up by a minimum of ₹1,200.

Two-wheeler companies, comprising Hero MotoCorp, Honda, Bajaj Auto, TVS Motor and Royal Enfield, dispatched 9% lesser units to their dealers during February, which highlighted the effort to reduce

Godrej Consumer opens ₹515-cr Chennai unit

NARAYANAN V
Chennai, March 10

GODREJ CONSUMER PRODUCTS (GCPL) on Monday inaugurated its first integrated greenfield manufacturing plant in Chengalpattu district on the outskirts of Chennai, with an investment of ₹515 crore. The facility has the potential to generate 1,000 direct and indirect jobs.

Speaking on the sidelines, the company's MD & CEO, Sudhir Sitapati, said the slowdown in urban consumption in the fast-moving consumer goods (FMCG) sector is "transitory" in nature and that higher government spending along with income tax relief will drive demand, particularly in urban areas.

"I think some specific factors in Q3 (FY25) impacted urban consumption, but they don't seem to be there. One of them was food inflation, which

₹2K-CR POTENTIAL

- Spread across 27 acres, the plant is GCPL's largest single investment in manufacturing expansion
- It will make products for brands such as Cinthol, Godrej No.1, GoodKnight, Godrej Aer, and Godrej Expert Hair Colour
- The factory has a revenue-generating potential of ₹2,000 crore once all production lines are fully operational

SUDHIR SITAPATI, MD & CEO, GODREJ CONSUMER PRODUCTS

appears to have eased sharply in Q4 (FY25)," Sitapati said.

He noted that while urban demand was an exception, rural demand, which had struggled for a longer period, appears to have recovered.

"Rural markets have actually picked up, but they were compensated by a very poor urban

performance in Q3 FY25. Our own anticipation is that the rural recovery will be faster than the urban recovery," Sitapati said.

He said the rural recovery is driven by welfare spending by the central and state governments, along with some state-level consumption-focused initiatives.

Godrej subsidiary mulls more gradual price hikes for soaps

GODREJ CONSUMER PRODUCTS will keep raising prices of its soaps gradually to protect margins amid rising palm oil prices, the consumer goods maker's top official said on Monday.

Palm oil prices have surged in recent months due to floods in top producers Indonesia and Malaysia, forcing consumer goods makers,

including Dove soapmaker Hindustan Unilever and Cinthol owner Godrej Consumer, to raise prices. "We have not recovered the full extent of the costs yet," Godrej Consumer CEO Sudhir Sitapati said. It would take 2-to-3 quarters to widen margins, but the company will not push up prices suddenly, he said. —REUTERS

Noida Airport opening delayed to June qtr: Zurich Airport CFO

SWARAJ BAGGONKAR
Mumbai, March 10

THE OPENING of the Noida International Airport, which is running six months behind schedule, is slated for inauguration in the June quarter, a top official of Zurich Airport said. A 100% subsidiary of Zurich Airport International has the mandate to construct and operate the greenfield airport.

While construction of the runway and air traffic control tower is underway, the terminal building of the new airport is far from being ready.

"The construction is progressing, with the runway and tower ready, but the terminal still requires interior work. We expect to inaugurate the airport in Q2 2025, with a ramp-

up over the next two to five months," Kevin Fleck, chief financial officer, Zurich Airport, told analysts on March 7.

When asked if penalties will be levied for the delay in the opening of the airport, Fleck added, "Yes, there are penalties of approximately CHF 300,000 (₹3 crore) per

month, but these can be contractually passed on to TATA (Tata Projects), the airport's constructor."

On March 7, Noida International Airport said it had submitted the application for the aerodrome licence and was working closely with the aviation regulators to complete all necessary steps, including the publication of the Aerodrome Information Publication.

"We expect the aerodrome licence in the next few weeks. The fee application process is ongoing, and we aim to have temporary tariffs before operations start," Fleck added.

Cars24 forays into new car sales with super app

RAGHAV AGGARWAL
New Delhi, March 10

USED CAR MARKETPLACE Cars24 on Monday entered the new car sales space by launching a platform that aggregates automobile dealerships and manufacturers. The platform would offer customers with information of the new cars, including their price in a city, features, influencer reviews, and the used options for the model, among other things. This is a part of the company's broader strategy to consolidate the car buying process under a single super app. Gajendra Jangid, co-founder of Cars24, said that their main aim is to improve the customer journey for buying a new car. The platform's differentiating factor, according to him, would be its focus on videos and customer experience on the website. It will also collaborate with influencers for car reviews and walkthroughs. "If you're spending lakhs on a new car, the experience of buying it should match the excitement of driving it. That's what we're changing—bringing speed, transparency, and control to new car buying, the way it should be," he said. In August last year, the Gurugram-based company launched a super app offering other services like servicing, insurance payments, vehicle financing, and FASTag payments. The company has also recently forayed into the personal loan space with Loans24. The sales of second-hand cars have surpassed that of the new ones, but the pace of growth has been slow. According to analysts, the high cost of holding large inventory and maintenance keeps the market difficult.

"CORRIGENDUM" TO THE NOTICE OF THE MEETING OF THE EQUITY SHAREHOLDERS OF APPLICANT COMPANY 1, APPLICANT COMPANY 2 AND APPLICANT COMPANY 20 (APPLICANT COMPANIES)

This corrigendum/addendum/erratum ("Corrigendum") is being issued, in connection with Notices dated February 12, 2025, to convene the meetings of Equity Shareholders of Applicant Company 1, Applicant Company 2 and Applicant Company 20 ("Applicant Companies") on Saturday, March 29, 2025, through video conferencing (VC) / other audio-visual means (OAVM) ("Meeting Notice"), as directed by Hon'ble National Company Law Tribunal, Chandigarh Bench ("NCLT") vide Order dated January 29, 2025, for the purpose of considering the aforesaid Scheme of Arrangement ("Scheme"), pursuant to Sections 230 to 232 and any other applicable provisions of the Companies Act, 2013 ("Act") and applicable rules made thereunder.

Purpose of this Corrigendum is to update and provide certain additional information/clarification to the shareholders of the Applicant Companies. Capitalized terms used but not defined herein have the meanings ascribed to such terms under the Meeting Notice.

It is brought to notice of the Equity Shareholders of the Applicant Companies that on an application by the Applicant Companies seeking modifications in the quorum requirements prescribed by Hon'ble NCLT in the First Motion Order dated January 29, 2025, the Hon'ble National Company Law Appellate Tribunal ("NCLAT") vide its Order dated February 28, 2025, has modified the quorum requirements for the aforesaid meetings of the Equity Shareholders of the applicant companies and directed that the quorum of the aforesaid meetings of Equity Shareholders of the Applicant Companies to be convened on March 29, 2025 shall be as prescribed under Section 103 of the Companies Act, 2013 and will include the shareholders present through video conferencing and other audio video means. In case the required quorum as stated above is not present, the meetings shall be adjourned per Section 103 of the Companies Act, 2013.

In view of the above, quorum requirement mentioned in Note 5 at page no. 10 and in the Explanatory Statement at page no. 18 of the Meeting Notice dated February 12, 2025 be read as and substituted as under:

"The quorum of the Meeting shall be as prescribed under Section 103 of the Companies Act, 2013 and will include the shareholders present through video conferencing and other audio video means. In case the required quorum as stated above is not present, the meetings shall be adjourned per Section 103 of the Companies Act, 2013."

This Corrigendum forms an integral part of the Meeting Notice which was circulated to the shareholders of the Applicant Companies on February 14, 2025, February 18, 2025 and February 21, 2025 and the Meeting Notice shall always be read in conjunction with this Corrigendum. This Corrigendum is also being published in PAN India editions of Financial Express (English) and Jansatta(Hindi) and will also be made available on the website of the stock exchanges (BSE and NSE) and on the website of the Applicant Companies <https://dhani.com>, www.indiabullsentreprises.com and www.yaari.com.

All other contents of the aforesaid Meeting Notice, save and except as set out in this Corrigendum, will remain effective and unmodified.

100CC BIKES SET TO BE AT LEAST ₹1,200 COSTLIER 2W dealers anxious as new norms from Apr 1; no clarity on old stock

SWARAJ BAGGONKAR
Mumbai, March 10

THE NEXT STAGE of regulatory compliance for two- and three-wheelers is set to kick-start on April 1, 2025. Vehicles will have to sport a diagnostic tool that can detect abnormalities in engines and emissions from the beginning of the new financial year.

While vehicle making companies started filling replacement stocks with supplies featuring the new compliance tool since February, dealers appear to be apprehensive about the unsold inventory that will be left at the end of the current financial year.

"The manufacturers have told us that we can sell the existing stock even after March 31, 2025. But yes, there is a sense of ambiguity on that," said a dealer who is a member of the Federation of Automobile Dealers Association (FADA).

The dealer community's apprehension is drawn from the situation they and their vehicle making partners found themselves in, five years ago, when the older technology vehicles were not allowed to be sold during a similar switchover.

The Supreme Court had banned sale and registration of Bharat Stage 4 (BS-4) vehicles from April 1, 2020 (while allowing sale and registration of only BS-6 vehicles), leading to a pile of unsold stock with the dealers.

From April 1, 2025, all two and three-wheelers will have to

UNCERTAINTY LOOMS

- The new norms require all two and three-wheelers to make use of OBD tool which reads vital inputs on emission
- This is expected to put further pressure on affordability for entry-level products
- Two-wheeler firms dispatched 9% lesser units to dealers during February, highlighting efforts to reduce stock and push retail sales
- The norms will push up prices of two-wheelers by 1-2%
- Retail sales were also down by 6% during the same month, according to FADA data

make use of onboard diagnostic (OBD) tool which reads vital inputs related to emission, engine misfire and other. These inputs are stored and relayed during diagnosis.

The new norms will push up prices of two-wheelers by 1-2%. This is expected to put further pressure on affordability for entry-level products such as the 100cc motorcycle, where price is expected to go up by a minimum of ₹1,200.

Two-wheeler companies, comprising Hero MotoCorp, Honda, Bajaj Auto, TVS Motor and Royal Enfield, dispatched 9% lesser units to their dealers during February, which highlighted the effort to reduce

stock and push retail sales. However, retail sales were also down by 6% during the same month, according to FADA data.

Honda Motorcycle and Scooter India, the country's largest two-wheeler maker, as of February end, has moved most of its model lineup to the new norms, including its best seller Activa and the Shine 125.

In a recent interaction with Vikram Kasbekar, executive director, Hero MotoCorp said, "The OBD 2B norm is slightly different from the earlier one in the sense that we can manufacture up to March 31 and thereafter, those vehicles can be sold in the market."

Godrej Consumer opens ₹515-cr Chennai unit

NARAYANAN V
Chennai, March 10

GODREJ CONSUMER PRODUCTS (GCPCL) on Monday inaugurated its first integrated greenfield manufacturing plant in Chengalpattu district on the outskirts of Chennai, with an investment of ₹515 crore. The facility has the potential to generate 1,000 direct and indirect jobs.

Speaking on the sidelines, the company's MD & CEO, Sudhir Sitapati, said the slow-down in urban consumption in the fast-moving consumer goods (FMCG) sector is "transitory" in nature and that higher government spending along with income tax relief will drive demand, particularly in urban areas.

"I think some specific factors in Q3 (FY25) impacted urban consumption, but they don't seem to be there. One of them was food inflation, which

appears to have eased sharply in Q4 (FY25)," Sitapati said.

He noted that while urban demand was an exception, rural demand, which had struggled for a longer period, appears to have recovered.

"Rural markets have actually picked up, but they were compensated by a very poor urban

performance in Q3 FY25. Our own anticipation is that the rural recovery will be faster than the urban recovery," Sitapati said.

He said the rural recovery is driven by welfare spending by the central and state governments, along with some state-level consumption-focused initiatives.

Noida Airport opening delayed to June qtr: Zurich Airport CFO

SWARAJ BAGGONKAR
Mumbai, March 10

THE OPENING OF the Noida International Airport, which is running six months behind schedule, is slated for inauguration in the June quarter, a top official of Zurich Airport said. A 100% subsidiary of Zurich Airport International has the mandate to construct and operate the greenfield airport.

While construction of the runway and air traffic control tower is underway, the terminal building of the new airport is far from being ready.

"The construction is progressing, with the runway and tower ready, but the terminal still requires interior work. We expect to inaugurate the airport in Q2 2025, with a ramp-

up over the next two to five months," Kevin Fleck, chief financial officer, Zurich Airport, told analysts on March 7.

When asked if penalties will be levied for the delay in the opening of the airport, Fleck added, "Yes, there are penalties of approximately CHF 300,000 (₹3 crore) per

month, but these can be contractually passed on to TATA (Tata Projects), the airport's constructor."

On March 7, Noida International Airport said it had submitted the application for the aerodrome licence and was working closely with the aviation regulators to complete all necessary steps, including the publication of the Aerodrome Information Publication.

"We expect the aerodrome licence in the next few weeks. The fee application process is ongoing, and we aim to have temporary tariffs before operations start," Fleck added.

Cars24 forays into new car sales with super app

RAGHAV AGGARWAL
New Delhi, March 10

USED CAR MARKETPLACE Cars24 on Monday entered the new car sales space by launching a platform that aggregates automobile dealerships and manufacturers.

The platform would offer customers with information of the new cars, including their price in a city, features, influencer reviews, and the used options for the model, among other things.

This is a part of the company's broader strategy to consolidate the car buying process under a single super app.

Gajendra Jangid, co-founder of Cars24, said that their main aim is to improve the customer journey for buying a new car.

The platform's differentiating factor, according to him, would be its focus on videos and customer experience on the website. It will also collaborate with influencers for car reviews and walkthroughs.

"If you're spending lakhs on a new car, the experience of buying it should match the excitement of driving it. That's what we're changing—bringing speed, transparency, and control to new car buying, the way it should be," he said.

In August last year, the Gurgaon-based company launched a super app offering other services like servicing, insurance payments, vehicle financing, and FASTag payments. The company has also recently forayed into the personal loan space with Loans24.

The sales of second-hand cars have surpassed that of the new ones, but the pace of growth has been slow.

According to analysts, the high cost of holding large inventory and maintenance keeps the market difficult.

GODREJ CONSUMER PRODUCTS (GCPL) on Monday inaugurated its first integrated greenfield manufacturing plant in Chengalpattu district on the outskirts of Chennai, with an investment of ₹515 crore. The facility has the potential to generate 1,000 direct and indirect jobs.

Speaking on the sidelines, the company's MD & CEO, Sudhir Sitapati, said the slowdown in urban consumption in the fast-moving consumer goods (FMCG) sector is "transitory" in nature and that higher government spending along with income tax relief will drive demand, particularly in urban areas.

"I think some specific factors in Q3 (FY25) impacted urban consumption, but they don't seem to be there. One of them was food inflation, which

He noted that while urban demand was an exception, rural demand, which had struggled for a longer period, appears to have recovered.

"Rural markets have actually picked up, but they were compensated by a very poor urban

performance in Q3 FY25. Our own anticipation is that the rural recovery will be faster than the urban recovery," Sitapati said.

He said the rural recovery is driven by welfare spending by the central and state governments, along with some state-level consumption-focused initiatives.

Godrej subsidiary mulls more gradual price hikes for soaps

GODREJ CONSUMER PRODUCTS will keep raising prices of its soaps gradually to protect margins amid rising palm oil prices, the consumer goods maker's top official said on Monday.

Palm oil prices have surged in recent months due to floods in top producers Indonesia and Malaysia, forcing consumer goods makers,

including Dove soapmaker Hindustan Unilever and Cinthol owner Godrej Consumer, to raise prices. "We have not recovered the full extent of the costs yet," Godrej Consumer CEO Sudhir Sitapati said. It would take 2-to-3 quarters to widen margins, but the company will not push up prices suddenly, he said. —REUTERS

Noida Airport opening delayed to June qtr: Zurich Airport CFO

up over the next two to five months," Kevin Fleck, chief financial officer, Zurich Airport, told analysts on March 7.

When asked if penalties will be levied for the delay in the opening of the airport, Fleck added, "Yes, there are penalties of approximately CHF 300,000 (₹3 crore) per

month, but these can be contractually passed on to TATA (Tata Projects), the airport's constructor."

On March 7, Noida International Airport said it had submitted the application for the aerodrome licence and was working closely with the aviation regulators to complete all necessary steps, including the publication of the Aerodrome Information Publication.

"We expect the aerodrome licence in the next few weeks. The fee application process is ongoing, and we aim to have temporary tariffs before operations start," Fleck added.

Cars24 forays into new car sales with super app

RAGHAV AGGARWAL
New Delhi, March 10

USED CAR MARKETPLACE Cars24 on Monday entered the new car sales space by launching a platform that aggregates automobile dealerships and manufacturers. The platform would offer customers with information of the new cars, including their price in a city, features, influencer reviews, and the used options for the model, among other things. This is a part of the company's broader strategy to consolidate the car buying process under a single super app. Gajendra Jangid, co-founder of Cars24, said that their main aim is to improve the customer journey for buying a new car. The platform's differentiating factor, according to him, would be its focus on videos and customer experience on the website. It will also collaborate with influencers for car reviews and walkthroughs. "If you're spending lakhs on a new car, the experience of buying it should match the excitement of driving it. That's what we're changing—bringing speed, transparency, and control to new car buying, the way it should be," he said. In August last year, the Gurugram-based company launched a super app offering other services like servicing, insurance payments, vehicle financing, and FASTag payments. The company has also recently forayed into the personal loan space with Loans24. The sales of second-hand cars have surpassed that of the new ones, but the pace of growth has been slow. According to analysts, the high cost of holding large inventory and maintenance keeps the market difficult.

100CC BIKES SET TO BE AT LEAST ₹1,200 COSTLIER 2W dealers anxious as new norms from Apr 1; no clarity on old stock

SWARAJ BAGGONKAR
Mumbai, March 10

THE NEXT STAGE of regulatory compliance for two- and three-wheelers is set to kick-start on April 1, 2025. Vehicles will have to sport a diagnostic tool that can detect abnormalities in engines and emissions from the beginning of the new financial year.

While vehicle making companies started filling replacement stocks with supplies featuring the new compliance tool since February, dealers appear to be apprehensive about the unsold inventory that will be left at the end of the current financial year.

"The manufacturers have told us that we can sell the existing stock even after March 31, 2025. But yes, there is a sense of ambiguity on that," said a dealer who is a member of the Federation of Automobile Dealers Association (FADA).

The dealer community's apprehension is drawn from the situation they and their vehicle making partners found themselves in, five years ago, when the older technology vehicles were not allowed to be sold during a similar switchover.

The Supreme Court had banned sale and registration of Bharat Stage 4 (BS-4) vehicles from April 1, 2020 (while allowing sale and registration of only BS-6 vehicles), leading to a pile of unsold stock with the dealers.

From April 1, 2025, all two and three-wheelers will have to

UNCERTAINTY LOOMS

- The new norms require all two and three-wheelers to make use of OBD tool which reads vital inputs on emission
- This is expected to put further pressure on affordability for entry-level products
- Two-wheeler firms dispatched 9% lesser units to dealers during February, highlighting efforts to reduce stock and push retail sales
- The norms will push up prices of two-wheelers by 1-2%
- Retail sales were also down by 6% during the same month, according to FADA data

make use of onboard diagnostic (OBD) tool which reads vital inputs related to emission, engine misfire and other. These inputs are stored and relayed during diagnosis.

The new norms will push up prices of two-wheelers by 1-2%. This is expected to put further pressure on affordability for entry-level products such as the 100cc motorcycle, where price is expected to go up by a minimum of ₹1,200.

Two-wheeler companies, comprising Hero MotoCorp, Honda, Bajaj Auto, TVS Motor and Royal Enfield, dispatched 9% lesser units to their dealers during February, which highlighted the effort to reduce

stock and push retail sales. However, retail sales were also down by 6% during the same month, according to FADA data.

Honda Motorcycle and Scooter India, the country's largest two-wheeler maker, as of February end, has moved most of its model lineup to the new norms, including its best seller Activa and the Shine 125.

In a recent interaction with Vikram Kasbekar, executive director, Hero MotoCorp said, "The OBD 2B norm is slightly different from the earlier one in the sense that we can manufacture up to March 31 and thereafter, those vehicles can be sold in the market."

100CC BIKES SET TO BE AT LEAST ₹1,200 COSTLIER 2W dealers anxious as new norms from Apr 1; no clarity on old stock

SWARAJ BAGGONKAR
Mumbai, March 10

THE NEXT STAGE of regulatory compliance for two- and three-wheelers is set to kick-start on April 1, 2025. Vehicles will have to sport a diagnostic tool that can detect abnormalities in engines and emissions from the beginning of the new financial year.

While vehicle making companies started filling replacement stocks with supplies featuring the new compliance tool since February, dealers appear to be apprehensive about the unsold inventory that will be left at the end of the current financial year.

"The manufacturers have told us that we can sell the existing stock even after March 31, 2025. But yes, there is a sense of ambiguity on that," said a dealer who is a member of the Federation of Automobile Dealers Association (FADA).

The dealer community's apprehension is drawn from the situation they and their vehicle making partners found themselves in, five years ago, when the older technology vehicles were not allowed to be sold during a similar switchover.

The Supreme Court had banned sale and registration of Bharat Stage 4 (BS-4) vehicles from April 1, 2020 (while allowing sale and registration of only BS-6 vehicles), leading to a pile of unsold stock with the dealers.

From April 1, 2025, all two and three-wheelers will have to

UNCERTAINTY LOOMS

- The new norms require all two and three-wheelers to make use of OBD tool which reads vital inputs on emission
- This is expected to put further pressure on affordability for entry-level products
- Two-wheeler firms dispatched 9% lesser units to dealers during February, highlighting efforts to reduce stock and push retail sales
- The norms will push up prices of two-wheelers by 1-2%
- Retail sales were also down by 6% during the same month, according to FADA data

make use of onboard diagnostic (OBD) tool which reads vital inputs related to emission, engine misfire and other. These inputs are stored and relayed during diagnosis.

The new norms will push up prices of two-wheelers by 1-2%. This is expected to put further pressure on affordability for entry-level products such as the 100cc motorcycle, where price is expected to go up by a minimum of ₹1,200.

Two-wheeler companies, comprising Hero MotoCorp, Honda, Bajaj Auto, TVS Motor and Royal Enfield, dispatched 9% lesser units to their dealers during February, which highlighted the effort to reduce

stock and push retail sales. However, retail sales were also down by 6% during the same month, according to FADA data.

Honda Motorcycle and Scooter India, the country's largest two-wheeler maker, as of February end, has moved most of its model lineup to the new norms, including its best seller Activa and the Shine 125.

In a recent interaction with Vikram Kasbekar, executive director, Hero MotoCorp said, "The OBD 2B norm is slightly different from the earlier one in the sense that we can manufacture up to March 31 and thereafter, those vehicles can be sold in the market."

Godrej Consumer opens ₹515-cr Chennai unit

NARAYANAN V
Chennai, March 10

GODREJ CONSUMER PRODUCTS (GCPCL) on Monday inaugurated its first integrated greenfield manufacturing plant in Chengalpattu district on the outskirts of Chennai, with an investment of ₹515 crore. The facility has the potential to generate 1,000 direct and indirect jobs.

Speaking on the sidelines, the company's MD & CEO, Sudhir Sitapati, said the slow-down in urban consumption in the fast-moving consumer goods (FMCG) sector is "transitory" in nature and that higher government spending along with income tax relief will drive demand, particularly in urban areas.

"I think some specific factors in Q3 (FY25) impacted urban consumption, but they don't seem to be there. One of them was food inflation, which

appears to have eased sharply in Q4 (FY25)," Sitapati said.

He noted that while urban demand was an exception, rural demand, which had struggled for a longer period, appears to have recovered.

"Rural markets have actually picked up, but they were compensated by a very poor urban

performance in Q3 FY25. Our own anticipation is that the rural recovery will be faster than the urban recovery," Sitapati said.

He said the rural recovery is driven by welfare spending by the central and state governments, along with some state-level consumption-focused initiatives.

Noida Airport opening delayed to June qtr: Zurich Airport CFO

SWARAJ BAGGONKAR
Mumbai, March 10

THE OPENING OF the Noida International Airport, which is running six months behind schedule, is slated for inauguration in the June quarter, a top official of Zurich Airport said. A 100% subsidiary of Zurich Airport International has the mandate to construct and operate the greenfield airport.

While construction of the runway and air traffic control tower is underway, the terminal building of the new airport is far from being ready.

"The construction is progressing, with the runway and tower ready, but the terminal still requires interior work. We expect to inaugurate the airport in Q2 2025, with a ramp-

up over the next two to five months," Kevin Fleck, chief financial officer, Zurich Airport, told analysts on March 7.

When asked if penalties will be levied for the delay in the opening of the airport, Fleck added, "Yes, there are penalties of approximately CHF 300,000 (₹3 crore) per

month, but these can be contractually passed on to TATA (Tata Projects), the airport's constructor."

On March 7, Noida International Airport said it had submitted the application for the aerodrome licence and was working closely with the aviation regulators to complete all necessary steps, including the publication of the Aerodrome Information Publication.

"We expect the aerodrome licence in the next few weeks. The fee application process is ongoing, and we aim to have temporary tariffs before operations start," Fleck added.

Cars24 forays into new car sales with super app

RAGHAV AGGARWAL
New Delhi, March 10

USED CAR MARKETPLACE Cars24 on Monday entered the new car sales space by launching a platform that aggregates automobile dealerships and manufacturers.

The platform would offer customers with information of the new cars, including their price in a city, features, influencer reviews, and the used options for the model, among other things.

This is a part of the company's broader strategy to consolidate the car buying process under a single super app.

Gajendra Jangid, co-founder of Cars24, said that their main aim is to improve the customer journey for buying a new car.

The platform's differentiating factor, according to him, would be its focus on videos and customer experience on the website. It will also collaborate with influencers for car reviews and walkthroughs.

"If you're spending lakhs on a new car, the experience of buying it should match the excitement of driving it. That's what we're changing—bringing speed, transparency, and control to new car buying, the way it should be," he said.

In August last year, the Gurgaon-based company launched a super app offering other services like servicing, insurance payments, vehicle financing, and FASTag payments. The company has also recently forayed into the personal loan space with Loans24.

The sales of second-hand cars have surpassed that of the new ones, but the pace of growth has been slow.

According to analysts, the high cost of holding large inventory and maintenance keeps the market difficult.

100CC BIKES SET TO BE AT LEAST ₹1,200 COSTLIER 2W dealers anxious as new norms from Apr 1; no clarity on old stock

SWARAJ BAGGONKAR
Mumbai, March 10

THE NEXT STAGE of regulatory compliance for two- and three-wheelers is set to kick-start on April 1, 2025. Vehicles will have to sport a diagnostic tool that can detect abnormalities in engines and emissions from the beginning of the new financial year.

While vehicle making companies started filling replacement stocks with supplies featuring the new compliance tool since February, dealers appear to be apprehensive about the unsold inventory that will be left at the end of the current financial year.

"The manufacturers have told us that we can sell the existing stock even after March 31, 2025. But yes, there is a sense of ambiguity on that," said a dealer who is a member of the Federation of Automobile Dealers Association (FADA).

The dealer community's apprehension is drawn from the situation they and their vehicle making partners found themselves in, five years ago, when the older technology vehicles were not allowed to be sold during a similar switchover.

The Supreme Court had banned sale and registration of Bharat Stage 4 (BS-4) vehicles from April 1, 2020 (while allowing sale and registration of only BS-6 vehicles), leading to a pile of unsold stock with the dealers.

From April 1, 2025, all two and three-wheelers will have to

UNCERTAINTY LOOMS

■ The new norms require all two and three-wheelers to make use of OBD tool which reads vital inputs on emission

■ The norms will push up prices of two-wheelers by 1-2%

■ Retail sales were also down by 6% during the same month, according to FADA data

■ This is expected to put further pressure on affordability for entry-level products

■ Two-wheeler firms dispatched 9% lesser units to dealers during February, highlighting efforts to reduce stock and push retail sales

make use of onboard diagnostic (OBD) tool which reads vital inputs related to emission, engine misfire and other. These inputs are stored and relayed during diagnosis.

The new norms will push up prices of two-wheelers by 1-2%. This is expected to put further pressure on affordability for entry-level products such as the 100cc motorcycle, where price is expected to go up by a minimum of ₹1,200.

Two-wheeler companies, comprising Hero MotoCorp, Honda, Bajaj Auto, TVS Motor and Royal Enfield, dispatched 9% lesser units to their dealers during February, which highlighted the effort to reduce

stock and push retail sales. However, retail sales were also down by 6% during the same month, according to FADA data.

Honda Motorcycle and Scooter India, the country's largest two-wheeler maker, as of February end, has moved most of its model lineup to the new norms, including its best seller Activa and the Shine 125.

In a recent interaction with Vikram Kasbekar, executive director, Hero MotoCorp said, "The OBD 2B norm is slightly different from the earlier one in the sense that we can manufacture up to March 31 and thereafter, those vehicles can be sold in the market."

Godrej Consumer opens ₹515-cr Chennai unit

NARAYANAN V
Chennai, March 10

GODREJ CONSUMER PRODUCTS (GCPL) on Monday inaugurated its first integrated greenfield manufacturing plant in Chengalpattu district on the outskirts of Chennai, with an investment of ₹515 crore. The facility has the potential to generate 1,000 direct and indirect jobs.

Speaking on the sidelines, the company's MD & CEO, Sudhir Sitapati, said the slow-down in urban consumption in the fast-moving consumer goods (FMCG) sector is "transitory" in nature and that higher government spending along with income tax relief will drive demand, particularly in urban areas.

"I think some specific factors in Q3 (FY25) impacted urban consumption, but they don't seem to be there. One of them was food inflation, which

■ Spread across 27 acres, the plant is GCPL's largest single investment in manufacturing expansion

■ It will make products for brands such as Cinthol, Godrej No.1, GoodKnight, Godrej Aer, and Godrej Expert Hair Colour

■ The factory has a revenue-generating potential of ₹2,000 crore once all production lines are fully operational

Rural markets have actually picked up, but they were compensated by a very poor urban performance in Q3FY25

appears to have eased sharply in Q4 (FY25)," Sitapati said.

He noted that while urban demand was an exception, rural demand, which had struggled for a longer period, appears to have recovered.

"Rural markets have actually picked up, but they were compensated by a very poor urban

performance in Q3 FY25. Our own anticipation is that the rural recovery will be faster than the urban recovery," Sitapati said.

He said the rural recovery is driven by welfare spending by the central and state governments, along with some state-level consumption-focused initiatives.

Noida Airport opening delayed to June qtr: Zurich Airport CFO

SWARAJ BAGGONKAR
Mumbai, March 10

THE OPENING of the Noida International Airport, which is running six months behind schedule, is slated for inauguration in the June quarter, a top official of Zurich Airport said. A 100% subsidiary of Zurich Airport International has the mandate to construct and operate the greenfield airport.

While construction of the runway and air traffic control tower is underway, the terminal building of the new airport is far from being ready.

"The construction is progressing, with the runway and tower ready, but the terminal still requires interior work. We expect to inaugurate the airport in Q2 2025, with a ramp

up over the next two to five months," Kevin Fleck, chief financial officer, Zurich Airport, told analysts on March 7.

When asked if penalties will be levied for the delay in the opening of the airport, Fleck added, "Yes, there are penalties of approximately CHF 300,000 (₹3 crore) per

month, but these can be contractually passed on to TATA (Tata Projects), the airport's constructor."

On March 7, Noida International Airport said it had submitted the application for the aerodrome licence and was working closely with the aviation regulators to complete all necessary steps, including the publication of the Aerodrome Information Publication.

"We expect the aerodrome licence in the next few weeks. The fee application process is ongoing, and we aim to have temporary tariffs before operations start," Fleck added.

Cars24 forays into new car sales with super app

RAGHAV AGGARWAL
New Delhi, March 10

USED CAR MARKETPLACE Cars24 on Monday entered the new car sales space by launching a platform that aggregates automobile dealerships and manufacturers.

The platform would offer customers with information of the new cars, including their price in a city, features, influencer reviews, and the used options for the model, among other things.

This is a part of the company's broader strategy to consolidate the car buying process under a single super app.

Gajendra Jangid, co-founder of Cars24, said that their main aim is to improve the customer journey for buying a new car.

The platform's differentiating factor, according to him, would be its focus on videos and customer experience on the website. It will also collaborate with influencers for car reviews and walkthroughs.

"If you're spending lakhs on a new car, the experience of buying it should match the excitement of driving it. That's what we're re-imagining—bringing speed, transparency, and control to new car buying, the way it should be," he said.

In August last year, the Gurugram-based company launched a super app offering other services like servicing, insurance payments, vehicle financing, and FASTag payments. The company has also recently forayed into the personal loan space with Loans24.

The sales of second-hand cars have surpassed that of the new ones, but the pace of growth has been slow.

According to analysts, the high cost of holding large inventory and maintenance keeps the market difficult.

"CORRIGENDUM" TO THE NOTICE OF THE MEETING OF THE EQUITY SHAREHOLDERS OF APPLICANT COMPANY 1, APPLICANT COMPANY 2 AND APPLICANT COMPANY 20 (APPLICANT COMPANIES)

This corrigendum/addendum/erratum ("Corrigendum") is being issued, in connection with Notices dated February 12, 2025, to convene the meetings of Equity Shareholders of Applicant Company 1, Applicant Company 2 and Applicant Company 20 ("Applicant Companies") on Saturday, March 29, 2025, through video conferencing (VC) / other audio-visual means (OAVM) ("Meeting Notice"), as directed by Hon'ble National Company Law Tribunal, Chandigarh Bench ("NCLT") vide Order dated January 29, 2025, for the purpose of considering the aforesaid Scheme of Arrangement ("Scheme"), pursuant to Sections 230 to 232 and any other applicable provisions of the Companies Act, 2013 ("Act") and applicable rules made thereunder.

Purpose of this Corrigendum is to update and provide certain additional information/clarification to the shareholders of the Applicant Companies. Capitalized terms used but not defined herein have the meanings ascribed to such terms under the Meeting Notice.

It is brought to notice of the Equity Shareholders of the Applicant Companies that on an application by the Applicant Companies seeking modifications in the quorum requirements prescribed by Hon'ble NCLT in the First Motion Order dated January 29, 2025, the Hon'ble National Company Law Appellate Tribunal ("NCLAT") vide its Order dated February 28, 2025, has modified the quorum requirements for the aforesaid meetings of the Equity Shareholders of the applicant companies and directed that the quorum of the aforesaid meetings of Equity Shareholders of the Applicant Companies to be convened on March 29, 2025 shall be as prescribed under Section 103 of the Companies Act, 2013 and will include the shareholders present through video conferencing and other audio video means. In case the required quorum as stated above is not present, the meetings shall be adjourned per Section 103 of the Companies Act, 2013.

In view of the above, quorum requirement mentioned in Note 5 at page no. 10 and in the Explanatory Statement at page no. 18 of the Meeting Notice dated February 12, 2025 be read as and substituted as under:

"The quorum of the Meeting shall be as prescribed under Section 103 of the Companies Act, 2013 and will include the shareholders present through video conferencing and other audio video means. In case the required quorum as stated above is not present, the meetings shall be adjourned per Section 103 of the Companies Act, 2013."

This Corrigendum forms an integral part of the Meeting Notice which was circulated to the shareholders of the Applicant Companies on February 14, 2025, February 18, 2025 and February 21, 2025 and the Meeting Notice shall always be read in conjunction with this Corrigendum. This Corrigendum is also being published in PAN India editions of Financial Express (English) and Jansatta(Hindi) and will also be made available on the website of the stock exchanges (BSE and NSE) and on the website of the Applicant Companies <https://dhani.com>, www.indiabullsentreprises.com and www.yaari.com.

All other contents of the aforesaid Meeting Notice, save and except as set out in this Corrigendum, will remain effective and unmodified.

100CC BIKES SET TO BE AT LEAST ₹1,200 COSTLIER 2W dealers anxious as new norms from Apr 1; no clarity on old stock

SWARAJ BAGGONKAR
Mumbai, March 10

THE NEXT STAGE of regulatory compliance for two- and three-wheelers is set to kick-start on April 1, 2025. Vehicles will have to sport a diagnostic tool that can detect abnormalities in engines and emissions from the beginning of the new financial year.

While vehicle making companies started filling replacement stocks with supplies featuring the new compliance tool since February, dealers appear to be apprehensive about the unsold inventory that will be left at the end of the current financial year.

"The manufacturers have told us that we can sell the existing stock even after March 31, 2025. But yes, there is a sense of ambiguity on that," said a dealer who is a member of the Federation of Automobile Dealers Association (FADA).

The dealer community's apprehension is drawn from the situation they and their vehicle making partners found themselves in, five years ago, when the older technology vehicles were not allowed to be sold during a similar switchover.

The Supreme Court had banned sale and registration of Bharat Stage 4 (BS-4) vehicles from April 1, 2020 (while allowing sale and registration of only BS-6 vehicles), leading to a pile of unsold stock with the dealers.

From April 1, 2025, all two and three-wheelers will have to

UNCERTAINTY LOOMS

■ The new norms require all two and three-wheelers to make use of OBD tool which reads vital inputs on emission

■ The norms will push up prices of two-wheelers by 1-2%

■ Retail sales were also down by 6% during the same month, according to FADA data

■ This is expected to put further pressure on affordability for entry-level products

■ Two-wheeler firms dispatched 9% lesser units to dealers during February, highlighting efforts to reduce stock and push retail sales

make use of onboard diagnostic (OBD) tool which reads vital inputs related to emission, engine misfire and other. These inputs are stored and relayed during diagnosis.

The new norms will push up prices of two-wheelers by 1-2%. This is expected to put further pressure on affordability for entry-level products such as the 100cc motorcycle, where price is expected to go up by a minimum of ₹1,200.

Two-wheeler companies, comprising Hero MotoCorp, Honda, Bajaj Auto, TVS Motor and Royal Enfield, dispatched 9% lesser units to their dealers during February, which highlighted the effort to reduce

stock and push retail sales. However, retail sales were also down by 6% during the same month, according to FADA data.

Honda Motorcycle and Scooter India, the country's largest two-wheeler maker, as of February end, has moved most of its model lineup to the new norms, including its best seller Activa and the Shine 125.

In a recent interaction with Vikram Kasbekar, executive director, Hero MotoCorp said, "The OBD 2B norm is slightly different from the earlier one in the sense that we can manufacture up to March 31 and thereafter, those vehicles can be sold in the market."

Godrej Consumer opens ₹515-cr Chennai unit

NARAYANAN V
Chennai, March 10

GODREJ CONSUMER PRODUCTS (GCPL) on Monday inaugurated its first integrated greenfield manufacturing plant in Chengalpattu district on the outskirts of Chennai, with an investment of ₹515 crore. The facility has the potential to generate 1,000 direct and indirect jobs.

Speaking on the sidelines, the company's MD & CEO, Sudhir Sitapati, said the slowdown in urban consumption in the fast-moving consumer goods (FMCG) sector is "transitory" in nature and that higher government spending along with income tax relief will drive demand, particularly in urban areas.

"I think some specific factors in Q3 (FY25) impacted urban consumption, but they don't seem to be there. One of them was food inflation, which

appears to have eased sharply in Q4 (FY25)," Sitapati said.

He noted that while urban demand was an exception, rural demand, which had struggled for a longer period, appears to have recovered.

"Rural markets have actually picked up, but they were compensated by a very poor urban

performance in Q3 FY25. Our own anticipation is that the rural recovery will be faster than the urban recovery," Sitapati said.

He said the rural recovery is driven by welfare spending by the central and state governments, along with some state-level consumption-focused initiatives.

Noida Airport opening delayed to June qtr: Zurich Airport CFO

SWARAJ BAGGONKAR
Mumbai, March 10

THE OPENING of the Noida International Airport, which is running six months behind schedule, is slated for inauguration in the June quarter, a top official of Zurich Airport said. A 100% subsidiary of Zurich Airport International has the mandate to construct and operate the greenfield airport.

While construction of the runway and air traffic control tower is underway, the terminal building of the new airport is far from being ready.

"The construction is progressing, with the runway and tower ready, but the terminal still requires interior work. We expect to inaugurate the airport in Q2 2025, with a ramp-

up over the next two to five months," Kevin Fleck, chief financial officer, Zurich Airport, told analysts on March 7.

When asked if penalties will be levied for the delay in the opening of the airport, Fleck added, "Yes, there are penalties of approximately CHF 300,000 (₹3 crore) per

month, but these can be contractually passed on to TATA (Tata Projects), the airport's constructor."

On March 7, Noida International Airport said it had submitted the application for the aerodrome licence and was working closely with the aviation regulators to complete all necessary steps, including the publication of the Aerodrome Information Publication.

"We expect the aerodrome licence in the next few weeks. The fee application process is ongoing, and we aim to have temporary tariffs before operations start," Fleck added.

Cars24 forays into new car sales with super app

RAGHAV AGGARWAL
New Delhi, March 10

USED CAR MARKETPLACE Cars24 on Monday entered the new car sales space by launching a platform that aggregates automobile dealerships and manufacturers.

The platform would offer customers with information of the new cars, including their price in a city, features, influencer reviews, and the used options for the model, among other things.

This is a part of the company's broader strategy to consolidate the car buying process under a single super app.

Gajendra Jangid, co-founder of Cars24, said that their main aim is to improve the customer journey for buying a new car.

The platform's differentiating factor, according to him, would be its focus on videos and customer experience on the website. It will also collaborate with influencers for car reviews and walkthroughs.

"If you're spending lakhs on a new car, the experience of buying it should match the excitement of driving it. That's what we're changing—bringing speed, transparency, and control to new car buying, the way it should be," he said.

In August last year, the Gurugram-based company launched a super app offering other services like servicing, insurance payments, vehicle financing, and FASTag payments. The company has also recently forayed into the personal loan space with Loans24.

The sales of second-hand cars have surpassed that of the new ones, but the pace of growth has been slow.

According to analysts, the high cost of holding large inventory and maintenance keeps the market difficult.

बिजली की मांग तोड़ सकती है पुराने रेकार्ड

कोलकाता, 10 मार्च (जनसत्ता)।

इस साल गर्मी पिछले सारे रेकार्ड तोड़ सकती है। ऐसे में माना जा रहा है कि बिजली की मांग भी पुराने रेकार्ड तोड़ सकती है। मालूम हो कि वेस्ट बंगाल इलेक्ट्रिसिटी बोर्ड के सुर्जों का कहना है कि 2022 में 7832 मेगावाट, 2023 में 9200 मेगावाट, 2024 में 10,000 मेगावाट बिजली की मांग रही थी। इस साल 11,000 मेगावाट मांग को लेकर राज्य के लगभग सभी जिलों में काम जारी है।

सांतरागाछी रेलवे स्टेशन पर विकास कार्य जारी

कोलकाता, 10 मार्च (जनसत्ता)।

देश भर के प्रमुख स्टेशनों को अपग्रेड और आधुनिक बनाने की भारतीय रेलवे की भव्य योजना के रूप में सांतरागाछी रेलवे स्टेशन पर विकास कार्य किया जा रहा है। इस परियोजना का उद्देश्य दक्षिण पूर्व रेलवे के रेलवे नेटवर्क में एक प्रमुख केंद्र, इस प्रमुख स्टेशन पर परिचालन दक्षता को बढ़ाना और ट्रेन प्रबंधन में सुधार करना है। सांतरागाछी रेलवे स्टेशन के पुनर्विकास की योजना नए स्टेशन भवन के निर्माण, परिसंचारी क्षेत्र के विकास, आवश्यक यात्री सुविधाओं और कोना एक्सप्रेसवे के साथ द्वीप मंच के साथ सड़क संपर्क, नए प्लेटफार्मों का निर्माण, फुट ओवर ब्रिज, लिफ्ट, एस्केलेटर, ट्रेनलेटर और अन्य विकासात्मक कार्यों आदि के साथ बनाई गई थी।

विधानसभा में नेता प्रतिपक्ष की करीबी विधायक ने दिया भाजपा को झटका

विधायक तापसी तृणमूल में शामिल

कोलकाता, 10 मार्च (भाषा)।

पश्चिम बंगाल के हल्दिया से भारतीय जनता पार्टी (भाजपा) की विधायक एवं विधानसभा में नेता प्रतिपक्ष शुभेंदु अधिकारी की करीबी सहयोगी तापसी मंडल सोमवार को राज्य में सत्तारूढ़ तृणमूल कांग्रेस पार्टी में शामिल हो गईं।

मंडल के तृणमूल कांग्रेस में शामिल होने के फैसले से न केवल पूर्वी मेदिनीपुर में भाजपा को झटका लगा है बल्कि पार्टी के विधायक दल को भी इससे नुकसान होगा क्योंकि राज्य में अगले साल की शुरुआत में होने वाले विधानसभा चुनाव के लिए उन्हें महत्वपूर्ण जिम्मेदारी दी गई थी।

पूर्वी मेदिनीपुर अधिकारी का गढ़ माना जाता है और यहाँ बंदरगाह शहर हल्दिया स्थित है। वह राज्य के ऊर्जा मंत्री अरूप बिस्वास की उपस्थिति में कोलकाता स्थित तृणमूल कांग्रेस के मुख्यालय में पार्टी में शामिल

मंडल ने कहा कि मैंने मुख्यमंत्री की विकासात्मक पहल का हिस्सा बनने का फैसला किया है। भाजपा राज्य में सांप्रदायिक तनाव को बढ़ाने की कोशिश कर रही है। वह विभाजनकारी राजनीति कर रही है, इसलिए राज्य के लोगों ने बार-बार उसे नकारा है।

हुई। मंडल ने बार-बार पार्टी बदलने के अपने फैसले की सही ठहराते हुए कहा कि मैंने मुख्यमंत्री की विकासात्मक पहल का हिस्सा बनने का फैसला किया है। भाजपा राज्य में सांप्रदायिक तनाव को बढ़ाने की कोशिश कर रही है।

वह विभाजनकारी राजनीति कर रही है, इसलिए राज्य के लोगों ने बार-बार उसे नकारा है। मेरे लिए ऐसी राजनीति को स्वीकार करना मुश्किल हो रहा था। तृणमूल ने सोशल मीडिया मंच 'एक्स' पर एक पोस्ट

में कहा, 'हल्दिया से भाजपा की विधायक तापसी मंडल का तृणमूल कांग्रेस परिवार में स्वागत है। उनका हमारे साथ जुड़ना भाजपा की राजनीति से बढ़ते मोहभंग का प्रमाण है। मुख्यमंत्री ममता बनर्जी के नेतृत्व में लोगों के कल्याण के लिए अथक प्रयास करेंगी।'

मंडल ने कांग्रेस समर्थित मार्क्सवादी कम्युनिस्ट पार्टी (माकपा) के उम्मीदवार के रूप में 2016 में हल्दिया सीट से चुनाव जीता था। पश्चिम बंगाल में 2021 के विधानसभा चुनावों से पहले अधिकारी द्वारा तृणमूल से भाजपा में शामिल हो जाने के बाद मंडल भी दिसंबर 2020 में भाजपा में शामिल हो गई थीं। उन्होंने 2021 के चुनाव में भाजपा उम्मीदवार के रूप में हल्दिया सीट से चुनाव जीत लिया था। मंडल द्वारा बार-बार पार्टी बदलने पर टिप्पणी करते हुए अधिकारी ने कहा कि लोग ऐसे राजनीतिक मौका परस्तों को खारिज कर देंगे। उनके साथ एक भी भाजपा कार्यकर्ता तृणमूल में शामिल नहीं हुआ है।

सूक्ष्म, लघु एवं मध्यम उद्यम

विनिर्माण उद्योगों में बंगाल शीर्ष पर : ममता बनर्जी

कोलकाता, 10 मार्च (भाषा)।

पश्चिम बांगल की मुख्यमंत्री ममता बनर्जी ने सोमवार को कहा कि सूक्ष्म, लघु एवं मध्यम उद्यम (एमएसएमई) विनिर्माण उद्योगों की सूची में राज्य शीर्ष स्थान पर है और पूरे देश में महिलाओं द्वारा संचालित प्रतिष्ठानों का भी राज्य में सबसे अधिक प्रतिशत है। राष्ट्रीय सांख्यिकी कार्यालय (एनएसओ) द्वारा आयोजित 'असंगठित क्षेत्र उद्यमों के वार्षिक सर्वेक्षण' के हाल ही में प्रकाशित निष्कर्षों का हवाला देते हुए बनर्जी ने कई क्षेत्रों में बंगाल के उत्कृष्ट प्रदर्शन पर प्रकाश डाला।

बनर्जी ने सोशल मीडिया मंच 'एक्स' पर लिखा, 'मुझे यह बताते हुए खुशी हो रही है कि भारत सरकार के राष्ट्रीय सांख्यिकी कार्यालय द्वारा आयोजित 'असंगठित क्षेत्र उद्यमों के वार्षिक सर्वेक्षण' के हाल ही में प्रकाशित निष्कर्षों ने एक बार फिर 'एमएसएमई विनिर्माण उद्योगों में बंगाल के शीर्ष स्थान को स्थापित किया है और साथ ही हमारी महिलाओं ने वहां शानदार प्रदर्शन किया है।' उन्होंने कहा कि पूरे

बनर्जी ने कहा कि विनिर्माण उद्यमों में लगे श्रमिकों के मामले में राज्य सबसे अग्रिम पंक्ति में उभर कर सामने आ रहा है।

देश में महिलाओं द्वारा संचालित प्रतिष्ठानों का सबसे अधिक फीसद पश्चिम बंगाल में दर्ज किया गया है जो 36.4 फीसद है। बनर्जी ने कहा कि 'विनिर्माण उद्यमों' में लगे श्रमिकों के मामले में राज्य सबसे अग्रिम पंक्ति में उभर कर सामने आ रहा है, जिसका योगदान 13.81 फीसद है। उन्होंने लिखा, 'पूरे भारत के स्तर पर पश्चिम बंगाल में 'विनिर्माण' उद्यमों (16.02 फीसद) और 'अन्य सेवा' उद्यमों (13.09 फीसद) का फीसद सबसे अधिक है। भारत में महिला-प्रधान प्रतिष्ठानों का फीसद (36.4 फीसद) सबसे अधिक इसी राज्य में है।

'हिंदुओं के उपासना स्थलों पर हमलों का मुद्दा विस में उठाएगी भाजपा'

कोलकाता, 10 मार्च (भाषा)।

पश्चिम बंगाल विधानसभा में विपक्ष के नेता शुभेंदु अधिकारी ने कहा है कि भारतीय जनता पार्टी (भाजपा) हिंदू उपासना स्थलों पर कथित हमलों का मुद्दा मंगलवार को पश्चिम बंगाल विधानसभा में उठाएगी।

अधिकारी ने विधानसभा के अंदर अपने कार्यालय में भाजपा विधायक दल की एक बैठक में शामिल हुए। उन्होंने संवाददाताओं से कहा कि हमारे विधायक हाल के दिनों में बंगाल के विभिन्न हिस्सों में हिंदू धार्मिक स्थलों पर हुए हमलों के संबंध में 11 मार्च को सदन में एक स्थगन प्रस्ताव लाएंगे। चूंकि मैं निलंबित हूँ और हमारे विधायकों को चुप कराने का प्रयास किया जा रहा है, इसलिए हम (हिंदू धार्मिक स्थलों पर हमलों का) मुद्दा विधानसभा के भीतर ही नहीं बल्कि सदन के बाहर भी उठाएंगे।

अधिकारी ने यह भी घोषणा की कि भाजपा बुधवार को विधानसभा में जादवपुर विश्वविद्यालय में जारी अशांति को उजागर करेगी। बाद में, उन्होंने और लगभग 30 भाजपा विधायकों ने तख्तियों के साथ प्रदर्शन किया, जिन पर टूटी हुई मूर्तियों और क्षतिग्रस्त दीवारों की कथित तस्वीरें थीं। इन तस्वीरों के नीचे दक्षिण 24 परगना के बरुईपुर, पूर्व मेदिनीपुर के तमलुक और मुर्शिदाबाद के पटिकावारी जैसे स्थानों के नाम लिखे थे।

विधानसभा में हंगामा, भाजपा विधायक दीपक बर्मन निलंबित

कोलकाता, 10 मार्च (भाषा)।

विधानसभा में भारतीय जनता पार्टी (भाजपा) विधायक का माइक बंद करने के विधानसभा अध्यक्ष के फैसले के खिलाफ विपक्षी दल ने जमकर विरोध किया। इसके बाद विधानसभा अध्यक्ष बिमान बनर्जी ने भाजपा विधायक दीपक बर्मन को शेष सत्र के लिए निलंबित कर दिया और मार्शल को भाजपा के दो अन्य विधायक शंकर घोष और मनोज उरांको को सदन से बाहर भेजने का निर्देश दिया। इस कार्रवाई के विरोध में भाजपा विधायकों ने विधानसभा से बहिर्गमन किया और विधानसभा अध्यक्ष पर पक्षपातपूर्ण रवैया अपनाने का आरोप लगाया।

बागची सुप्रीम कोर्ट में न्यायाधीश नियुक्त हुए, ममता ने दी बधाई

कोलकाता, 10 मार्च (भाषा)।

मुख्यमंत्री ममता बनर्जी ने सोमवार को कलकत्ता हाई कोर्ट के न्यायाधीश जायमाल्या बागची को सुप्रीम कोर्ट के न्यायाधीश के रूप में नियुक्त होने पर बधाई दी। बनर्जी ने इसे बंगालियों के लिए गर्व का क्षण बताते हुए उनके

उज्वल भविष्य की कामना की। उन्होंने सोशल मीडिया मंच एक्स पर पोस्ट किया, कलकत्ता उच्च न्यायालय के माननीय न्यायाधीश श्री जायमाल्या बागची को भारत की माननीय राष्ट्रपति द्वारा उच्चतम न्यायालय के माननीय न्यायाधीश के रूप में नियुक्त किए जाने पर बधाई।
