Press Release

Yudiz unveils VR combat shooting game in partnership with Vi at India Mobile Congress

Ahmedabad, 1st November, 2023: Yudiz Solutions, a leading digital transformation and game development company based in Ahmedabad, has participated and showcased its capabilities at the India Mobile Congress 2023. The event was inaugurated by Prime Minister Shri. Narendra Modi at Pragati Maidan in New Delhi. It's proud to announce that the launch of groundbreaking VR combat shooting game in partnership with leading telecom operator Vodafone India (Vi).

The combat shooting game serves as a thrilling showcase of 5G and Virtual Reality's immense potential in the gaming world. This extraordinary VR gaming adventure, it ensures players an adrenaline-pumping experience as they gear up for intense combat scenarios, all facilitated through the use of a VR headset. With every move and strategy in the game, the player's VR perspective is mirrored on a large TV screen, offering an exhilarating shared experience. Players find themselves fully immersed in the action as they navigate the intricacies of virtual combat.

With our commitment to creating innovative and immersive VR games, Yudiz is at the forefront of synergising trending technologies. It is crafting experiences that blend realism and innovation, ensuring that users get the very best solutions and stay at the cutting edge of gaming technology.

Vodafone India's involvement in this project brings an additional layer of connectivity with its presence in 50 countries, ensuring seamless and uninterrupted gameplay, further enhancing the overall gaming experience.

"We are thrilled to partner with Vodafone India (Vi) on the VR combat shooting experience and showcase a cutting-edge gaming adventure that pushes the boundaries of VR. This collaboration with Vi doesn't stop at one game. It is a revelation of how 5G can revolutionise not just gaming but also AR and VR experiences, ushering in a new era of interactive entertainment. It opens doors to a realm of possibilities and we are excited to contribute to the future of immersive gaming," said Bharat Patel, Chairman and Whole Time Director of Yudiz Solutions.

The VR combat shooting game is not just a game, but the gateway to the future of gaming. Since it is powered by 5G technology, users can expect low latency for responsive and immersive VR experiences. It ensures high bandwidth for delivering crisp visuals and multi-user VR enabling real-time interactions in shared VR environments. The game on the other hand delivers seamless, high-octane action with minimal latency, ensuring that players can react with lightning speed.

The partnership between Yudiz and Vi is all about raising the bar and redefining what gamers can expect from Yudiz and its ability to provide gaming experiences. Get ready for a future where 5G and Yudiz's inventive prowess merge to create gaming experiences that are nothing short of extraordinary. It is game on time for both Yudiz and Vi.
