WEST ASIA CRISIS

Stranded Indian fishermen in Iran returning home: Govt

EAM Jaishankar thanks Armenia for assistance

PRESS TRUST OF INDIA New Delhi, April 4

A GROUP OF stranded Indian fishermen in Iran are returning home through Armenia on Saturday, the government said.

External Affairs Minister S Jaishankar

The exact number of Indian nationals in the group and the circumstances that led to them being stranded in Iran are not immediately known.

men today from Iran, through Armenia to India," he said on social media. Over 1,150 Indian nationals have left Iran through land border crossings in Armenia and Azerbaijan since the start of

government statement said. It said the Ministry of External Affairs continues to closely monitor the evolving situation in the West Asian region, with safety, security and welfare of Indian community being accorded the highest priority.

It also made a mention of injuries to five Indians in Abu Dhabi on Friday. According to Abu Dhabi authorities, Indian nationals were among the 12 people injured there by debris from an intercepted missile. "In an attack in Abu Dhabi, five Indian nationals were injured; four have been discharged, one remains under treatment," the Indian government statement noted.

Iraq shuts key Shalamchah trade crossing with Iran

REUTERS Basra, Iraq, April 4

IRAQ CLOSED THE Shalamchah border crossing with Iran after airstrikes on the Iranian side killed an Iraqi citizen, security sources said on Saturday, shutting off a vital supply artery.

The crossing serves as one of the main routes for imports to Iraq of vegetables and other food supplies from Iran, traders and border officials say.

The sources said at least five Iraqis were seriously wounded in the strikes, which hit a passenger reception area on the Iranian side. Iraqi police recovered the body of a man, while the wounded were taken to hospital, most in critical condition. Iraq's border authorities said they had been notified by Iranian officials that truck and passenger movement would be restored in the coming hours once work on the transit and passport systems is completed.

Trump mulls cabinet changes

REUTERS Washington, April 4

US PRESIDENT DONALD Trump is considering a broader cabinet shake-up in the wake of Attorney General Pam Bondi's removal this week, as he grows increasingly frustrated with the political fallout from the war with Iran, five people familiar with internal White House discussions said.

Any potential reshuffling could serve as a reset for the White House as it confronts a politically challenging stretch: The five-week-old war has driven up gas prices, dragged down Trump's approval ratings and intensified anxiety about the consequences for Republicans heading into November's midterm elections. Some allies said his televised speech to the nation on Wednesday — which one senior White House official described as an attempt to project a sense of control and confidence about the direction of the war — fell flat, adding to the sense that changes in messaging or personnel were needed.

WAR WOES
Multiple cabinet members could be removed before midterms, sources say
US President deeply frustrated with media coverage of Iran war, aides say
Trump has shown interest in replacing intelligence chief, allies want commerce secretary gone

of anonymity to discuss sensitive personnel matters. The sources did not consistently describe any single cabinet member as certain to lose their job in the near term. But multiple officials are in some degree of danger, they said. Several of the sources said Tulsi Gabbard, Trump's director of national intelligence, and Commerce Secretary Howard Lutnick are among those poten-

Meloni visits Doha to bolster energy supplies hit by war

Italian PM Giorgia Meloni arrives in Doha, Qatar

BLOOMBERG April 4

ITALIAN PRIME MINISTER Giorgia Meloni arrived in Doha Saturday as part of a two-day diplomatic charm offensive meant to shore up ties with the Gulf and bolster energy supplies hit by the war in Iran. Meloni, the first European Union and North Atlantic Treaty Organization leader to visit the region since the Iran war began in February, was set to meet with Qatar's Emir, Sheikh Tamim bin Hamad Al Thani, her office said.

Arabia's Crown Prince Mohammed bin Salman. According to a statement from her office, the two leaders discussed defensive aid and diplomatic efforts to mediate a solution to the conflict. They also discussed opening up the Strait of Hormuz and securing energy supplies to stem the impact of the war. The conflict and effective closure of the strait has triggered a surge in oil and gas prices, stoking fears of an economic crisis in Italy and the rest of the world. Meloni flew to Algeria last month in a bid to secure greater gas supplies from

the North African nation. Meloni, who was the sole foreign leader to attend the GCC meeting last year, will make the case that Italy's ties with the Gulf are central. She will relay that investment from state-backed energy majors in the region, such as ENI SpA, will continue. Italy has sent aerial defences to Gulf nations attacked by Iran in retaliation for the US and Israeli strikes. In an interview with state broadcaster Rai on Friday, the premier said this was "above all" done to "protect the tens of thousands of Italians who are present there."

Iraq oilfield drone strike: Three workers wounded

TWO DRONES HIT the BP-operated North Rumaila oilfield in southern Iraq on Saturday, wounding three Iraqi workers, security and energy sources said.

The attack took place shortly after another drone hit storage facilities west of the port city of Basra that belong to foreign oil companies, the sources said. The drone strikes had no impact on operations in this part of Iraq's giant Rumaila oilfield, as they targeted an equipment storage facility, said two Iraqi engineers working at the field.

Foreign staff were evacuated following an earlier drone strike on the oilfield,

sources told Reuters last month.

Artemis II astronauts to break Apollo 13 moon distance feat

ASSOCIATED PRESS Washington, April 4

NOW MORE THAN halfway to the moon, the Artemis II astronauts were toasted by Canada on Saturday as they prepared for their historic lunar fly-around to push deeper into space than even the Apollo astronauts.

The three Americans and one Canadian will reach their destination Monday, photographing the mysterious lunar far side as they zoom around. It's the first moonbound

crew in more than 53 years, picking up where NASA's Apollo programme left off.

Artemis II was poised to set a distance record for humans, travelling more than 252,000 miles (400,000 kilometres) from Earth before hanging a U-turn behind the moon and heading home without stopping or entering lunar orbit. The record is currently held by Apollo 13. The Canadian Space Agency celebrated the country's role in the mission, speaking from Quebec with astronaut Jeremy Hansen as he headed toward his lunar rendezvous. Hansen is the first non-US citizen to fly to the moon. "Today he is making history for Canada," said Canadian Space Agency President Lisa Campbell. "As we watch him taking this bold step into the unknown, let his journey remind us that Canada's future is written by those who dare to reach for more."

Pakistan rejects reports of stalled US, Iran talks

PRESS TRUST OF INDIA Islamabad, April 4

PAKISTAN REJECTED MEDIA reports that its initiative to facilitate talks between the US and Iran to end the ongoing conflict in West Asia had hit obstacles after the initial exchange of peace proposals. Speculation emerged after a senior Foreign Ministry official briefed a select group of journalists on Pakistan's efforts to find a negotiated settlement of the ongoing conflict.

Foreign Office spokesperson Tahir Andrabi rejected the media reports as "baseless" and a "figment of imagination." "We have noted several reports in the

ing a stalemate in Pakistan-facilitated talks between Iran and the US, labelling it as "misrepresented." "We are deeply grateful to Pakistan for its efforts and have never refused to go to Islamabad," he said in a social media post. "What we care about are the terms of a conclusive and lasting END to the illegal war that is imposed on us," Araghchi added. Pakistan took action following the onset of the war, driven in part by its obligation to defend Saudi Arabia against potential attacks from Iran. While Pakistan has struggled to broker a ceasefire, it has managed to distance itself from direct involvement in the conflict.

War crisis: Lufthansa warns of fuel shortage

DEUTSCHE LUFTHANSA SEES potential bottlenecks for jet fuel availability should the conflict in the Middle East turn into a longer war.

"Availability is already difficult at some airports in Asia," Grazia Vittadini, who heads up Lufthansa's technology, IT and innovation division, told German newspaper Die Welt.

"The longer the Strait of Hormuz is blocked, the more critical the supply situation can become." Europe's biggest aviation group last week readied plans including potentially grounding planes in case demand drops and fuel prices escalate as hostilities drag on. The effective closure of the Strait of Hormuz has stranded a significant proportion of global jet fuel shipments and led refineries in Asia to cut production. While prices of kerosene have as much as doubled, Lufthansa is mostly protected via hedges that cover 80% of the airline's fuel needs this year, said Vittadini. "But certainly, the rising kerosene prices impact us too," she said. Europe is the main importer of jet fuel — including kerosene — from the Persian Gulf, with supplies from that region accounting for about half of European Union and UK imports, according to Vortexa data compiled by Bloomberg.

Russia and Ukraine trade deadly strikes

Rescue workers put out a fire of a building damaged following a Russian strike in Ukraine

ASSOCIATED PRESS Kyiv, April 4

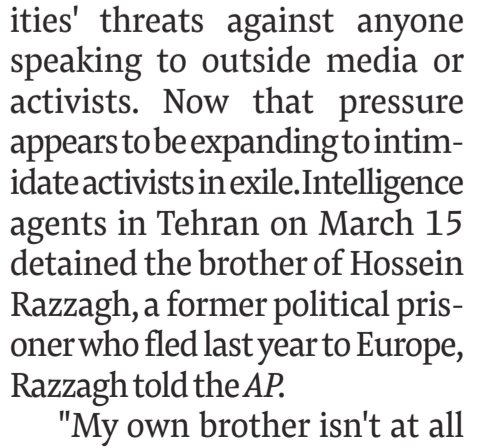

RUSSIA AND UKRAINE traded deadly strikes overnight and on Saturday morning, killing 10 people and wounding several dozen more, officials on both sides said. The attacks came as Ukrainian President Volodymyr Zelenskyy travelled to Istanbul for talks with Turkish President Recep Tayyip Erdogan. He will meet with Ecumenical Patriarch Bartholomew, the spiritual leader of Eastern Orthodox Christians. "We are working to strengthen our partnership to ensure the real protection of lives, advance stability, and guarantee security in Europe and the Middle East. Joint efforts always yield the best results," Zelenskyy said in a post on the messaging app Telegram after

arriving in Istanbul. Russia fired 286 drones at Ukraine overnight, 260 of which were downed, the Ukrainian Air Force said in an online statement. Five people — three women and two men — were killed in the city of Nikopol in the Dnipropetrovsk region, and 19 others were wounded, the head of the regional military administration Oleksandr Hanzha said. The attack damaged market stalls and a shop. In the city of Sully, not far from the border with Russia, a strike wounded 11 people, the National Police said. Residential areas were hit, and houses, cars and utility networks were damaged in the attack. In Kyiv, a drone strike caused a fire on the first floor of a three-story office and warehouse building, Ukraine's State Emergency Service said.

Overseas Iranians say loved ones being detained back home

ASSOCIATED PRESS Cairo, April 4

IRAN'S GOVERNMENT IS detaining family members and threatening to seize property of Iranian opposition figures in exile, some tell The Associated Press, in the latest crackdown on dissenting voices as the war rages on. Activists overseas play a key role in tracking the crackdown, which is complicated by the internet shutdown imposed earlier this year during massive nationwide protests against the Islamic theocracy. The war with the US and Israel has intensified author-

A section of Shahid Beheshti University is seen after being destroyed in US-Israeli airstrikes in Tehran, Iran

ities' threats against anyone speaking to outside media or activists. Now that pressure appears to be expanding to intimidate activists in exile. Intelligence agents in Tehran on March 15 detained the brother of Hossein Razzaghi, a former political prisoner who fled last year to Europe, Razzaghi told the AP. "My own brother isn't at all political and doesn't do any kind of political activity. It's to put me under pressure," he said. His brother, Ali, was taken from his home in Tehran and was able to phone his wife that night "for a few seconds" from a detention

centre run by Iran's Intelligence Ministry, Razzaghi said. The family and his lawyer have been unable to contact him. But the intelligence ministry told them it was reviewing his contact with his

brother, Razzaghi said. Another activist who fled, Behnam Chegini, said his 20-year-old niece was detained in March for a week. The niece was taken from her parents' house in the city of Arak soon after she returned from Tehran, where her university had closed because of the war. She was released on bail and put under a travel ban. Chegini, now based in France, said the detention was at least in part "because she is my niece and they know that". Sareh Sedighi, an activist who fled after her 2021 death sentence was overturned, said her mother was detained from her

home last month in the western town of Urmia. "The Islamic Republic took my mother away to make me be quiet," she said. Her mother suffers from health problems. Mahshid Nazemi, a former political prisoner and activist who now lives in France, said at least one friend was detained and questioned about contact with her. Iran's judiciary has begun seizing the property of public figures critical of the country's rulers, under an anti-espionage law approved during last year's 12-day war with Israel that punishes media and cultural activities to support Iran's enemies.
