Business Update Release

Z-Tech (India) Unveil World's largest waste to wildlife theme park, Strengthening Engagement in Emerging Green Infrastructure Opportunities

Another Step Toward High-Visibility, Eco-Themed Infrastructure Leadership

Delhi, 1st December 2025: Z-Tech (India) - Pioneering Sustainable Infrastructure & Environmental Solutions provider pleased to announce successful launch of its World's largest waste to wildlife theme park, Jungle Trail Park, which opened in Delhi on Saturday.

Jungle Trail Park was developed as a nature-themed experiential zone featuring curated walking trails, wildlife-inspired installations, landscaped green areas, and interactive learning elements. The project delivered a blend of public utility, sustainability, and urban recreation, adding a meaningful green asset to Delhi's urban ecosystem.

The launch of Jungle Trail Park further strengthens Z-Tech's portfolio of recreational and thematic urban projects by expanding its presence in high-visibility, public-facing infrastructure assets. The project reinforces the Company's positioning in sustainability-led development through green design principles, circular-economy practices, and environment-positive execution. Such nature-based parks enhance long-term value creation by improving brand visibility, deepening relationships with government and municipal clients, and supporting a consistent pipeline of similar opportunities across regions. With urban policymakers placing increasing emphasis on heat-mitigation, green cover enhancement, and community recreation, Z-Tech is strategically well-aligned to capture emerging demand in the green infrastructure segment.

Recent industry examples show increasing adoption of "eco-art" and "scrap-to-structure" models across major cities, reflecting strong public demand for sustainable urban attractions. These projects have recorded high footfalls and strong citizen engagement, reinforcing the relevance of Z-Tech's approach.

Management Comment:

Commenting on this development, **Ms. Sanghamitra Borgohain, Managing Director, Z-Tech (India) Limited** said:

"With the successful opening of World's largest waste to wildlife theme park - Jungle Trail Park, we witnessed another milestone in Z-Tech's journey of shaping environmentally conscious and community-centric urban spaces. As promoters, we are deeply proud of how this project showcases our capability to execute differentiated concepts with precision and purpose. This park enhances our visibility with key municipal clients and sets a strong foundation for the next phase of growth in the sustainable infrastructure domain"

Company Overview

Z-tech (India) limited is incorporated in 1994 with their core focus on civil construction business, providing services related to designing, supplying and building retaining structures. In addition to this, today we are actively engaged in the Sustainable Theme Park Development, where our focus involves creating theme parks through the utilization of recycled scrap materials. Simultaneously, we are dedicated to implementing innovative waste water management solutions for industrial units, employing the cutting-edge GEIST technology. This dual commitment underscores our holistic approach to sustainable practices, transforming discarded materials into recreational spaces while efficiently managing industrial wastewater through state-of-the-art technology.
