Business Update Release

Z-Tech (India) Secures Order from Lucknow Development Authority, Uttar Pradesh for “Theme Park at Gomti Riverfront, Lucknow”

Delhi, 28th July 2026: Z-Tech (India) - Pioneering Sustainable Infrastructure & Environmental Solutions provider pleased to announce that it has been awarded a prestigious contract from Lucknow Development Authority for the Design, Building, and Operation of **Theme park at Gomti Riverfront, Lucknow**. The project will be implemented under a **Fixed Fee Model**, including **Operation and Maintenance (O&M) for a period of 20 years**, with a total estimated project capital cost of **Rs. 12.00 Crores (Rupees Twelve Crore), excluding GST**. Under the approved CAPEX structure, 50% of the project cost will be funded by Gomti Riverfront, Lucknow while the remaining 50% will be funded by the Z-Tech (India) Limited.

The proposed **Themed Park at Gomti Riverfront, Lucknow** is envisioned as **Lucknow’s first children’s park on a one-of-its-kind interactive aqua-inspired theme**, creating a unique destination where **play, creativity, learning, nature, and sustainability** come together in an exciting and memorable way. Set along the serene backdrop of the **Gomti River**, the park will offer children and families a refreshing recreational experience filled with imagination, discovery, and joy.

Developed around the concept of **“Art to Waste,”** the park will transform discarded and scrap materials into colourful sculptures, playful installations, and creative attractions. Unlike conventional displays, the sculptures will be designed as **interactive experiences**, allowing children to touch, explore, climb, play, and engage with them. This will turn every corner of the park into an exciting opportunity for adventure and learning.

The park will encourage children to enjoy outdoor play, physical activity, creativity, and learning beyond screens. Adults can relax in landscaped areas, enjoy river views, walk along wellness pathways, and spend quality time with their families. Together, these features will create a safe, refreshing, and engaging destination for visitors of all age groups.

The park will feature a wide range of attractions and amenities, including:

- The Maritime theme zone will create an enchanting underwater-inspired setting with fish, turtles, dolphins, boats etc. A shallow layer of gently flowing water around these elements will make the experience refreshing, interactive, and immersive.
- The **Mind Puzzle Zone** will feature games, mazes, sensory activities, and problem-solving challenges. It will encourage learning through play while developing creativity, logic, teamwork, and mental skills.
- The **Reflexology and Relaxation Zone** will offer therapeutic pathways, fresh air, landscaped surroundings, and peaceful views of the Gomti River.
- The park will also feature exciting carnival games and adventurous kids’ activities, making the experience more lively, engaging, and enjoyable.

- Additional facilities will include innovative play equipment, shaded seating areas, landscaped walking trails, family rest zones, interactive educational exhibits, modern lighting, security systems, accessible pathways, and visitor-friendly amenities.

The proposed park will be more than just a children's play area—it will be a joyful world of **"Play, Learn, Explore and Relax."** By combining interactive art, maritime-themed attractions, mental challenges, wellness spaces, and riverfront views, the project will create a distinctive landmark for Lucknow and a memorable destination for children, families, tourists, and nature lovers.

Lucknow, a major cultural and tourism destination, attracts visitors throughout the year. The proposed Children's Park at Gomti Riverfront will offer a unique blend of play, learning, art, sustainability, and innovation. Its aqua-themed attractions and shallow flowing-water features will create a refreshing and enjoyable escape for families, especially during the summer season.

Management Comment:

Commenting on this development, **Ms. Sanghamitra Borgohain, Managing Director, Z-Tech (India) Limited said:**

We are delighted to partner with the Lucknow Development Authority (LDA) in developing the Children's Theme Park at Gomti Riverfront, Lucknow. The project reflects our commitment to creating sustainable, inclusive, and engaging public infrastructure that combines environmental responsibility with innovative recreational and educational experiences for children and families. This initiative reinforces our position as a trusted partner in delivering innovative environmental and urban development solutions, contributing meaningfully to sustainable urban development and enhancing the quality of public spaces in Lucknow."

This achievement further strengthens Z-Tech's growing portfolio of environmental infrastructure projects and reflects the Company's continued focus on delivering innovative, sustainable and socially impactful solutions across India.

Company Overview

Z-tech (India) limited is incorporated in 1994 with their core focus on civil construction business, providing services related to designing, supplying and building retaining structures. In addition to this, today we are actively engaged in the Sustainable Theme Park Development, where our focus involves creating theme parks through the utilization of recycled scrap materials. Simultaneously, we are dedicated to implementing innovative waste water management solutions for industrial units, employing the cutting-edge GEIST technology. This dual commitment underscores our holistic approach to sustainable practices, transforming discarded materials into recreational spaces while efficiently managing industrial wastewater through state-of-the-art technology.
