---MEDIA STATEMENT *(To be attributed to Royal Enfield)*---

Royal Enfield's manufacturing facility at Oragadam has been operational since Saturday, September 29, 2018, after a part of the workforce had not reported for duty since September 24th. We expect to reach regular levels of production in a phased manner. Our manufacturing facility at Vallam Vadagal continues to operate and deliver to its full capacity.

We would like to clarify that the company has not terminated anyone in the wake of recent developments at the plant. Salary revisions are done annually. The last annual salary revision was done in April 2018, and the next revision is due in April 2019.

The Oragadam facility has been in operation for the last 6 years and has been a positive example of progressive human resource practices. We have internal mechanisms that facilitate collaborative working with leadership to address matters related to the well-being of our workforce.

We are in dialogue with our plant based forums to amicably resolve all concerns. Royal Enfield has always been deeply committed to maintaining and furthering cordial relations with its staff and workforce to understand and fulfil their aspirations, and we will continue to do so.
