SAH POLYMERS LIMITED

Notes to the Restated Financial Statements

1. Reporting Entity

Sah Polymers Limited (SPL) is a public limited Company domiciled in India and is incorporated under the provisions of the Companies Act, 1956. SPL is engaged in the manufacture of HDPE/PP woven fabrics and sacks with annual production capacity of 6062 MT. The manufacturing capacities are situated at Udaipur (Rajasthan). The fabrics and sacks find applications in the packing of cement, minerals, food grains etc.

The Restated Financial Information comprise of financial statements of Sah Polymers Limited ('the Company' or 'the Holding Company') and its subsidiary, Sat ECOM Limited ('the Subsidiary'). However the Amalgamation of Subsidiary Company was approved on 31/08/2020 w.e.f. 01.04.2019 hence the Revised and Restated Financial Statements includes Consolidated Financial Statements for the year ended 31.03.2019 and Standalone Financial Statements for the period/year ended 31.03.2020, 31.03.2021 and 31.12.2021.

2. Significant Accounting Policies

Statement of Compliance

These financial statements have been prepared in accordance with Indian Accounting Standards (Ind AS) notified under Section 133 of the Companies Act, 2013. The financial statements have also been prepared in accordance with the relevant presentation requirements of the Companies Act, 2013.

Basis of Preparation

The financial statements are prepared in accordance with the historical cost convention, except for certain items that are measured at fair values, as explained in the accounting policies.

Fair Value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date, regardless of whether that price is directly observable or estimated using another valuation technique. In estimating the fair value of an asset or a liability, the Company takes into account the characteristics of the asset or liability if market participants would take those characteristics into account when pricing the asset or liability at the measurement date. Fair value for measurement and / or disclosure purposes in these financial statements is determined on such a basis, except for share-based payment transactions that are within the scope of Ind AS 102 - Share-based Payment, leasing transactions that are within the scope of Ind AS 17 - Leases, and measurements that have some similarities to fair value but are not fair value, such as net realisable value in Ind AS 2 - Inventories or value in use in Ind AS 36 - Impairment of Assets.

The preparation of financial statements in conformity with Ind AS requires management to make judgements, estimates and assumptions that affect the application of the accounting policies and the reported amounts of assets and liabilities, the disclosure of contingent assets and liabilities at the date of the financial statements, and the reported amounts of revenues and expenses during the year. Actual results could differ from those estimates. The estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to accounting estimates are recognised in the period in which the estimate is revised if the revision affects only that period; they are recognised in the period of the revision and future periods if the revision affects both current and future periods.

Operating Cycle

All assets and liabilities have been classified as current or non-current as per the Company's normal operating cycle and other criteria set out in the Schedule III to the Companies Act, 2013 and Ind AS 1 - Presentation of Financial Statements based on the nature of products and the time between the acquisition of assets for processing and their realisation in cash and cash equivalents.

Property, Plant and Equipment - Tangible Assets

Property, plant and equipment are stated at cost of acquisition or construction less accumulated depreciation and impairment, if any.

Cost is inclusive of inward freight, duties and taxes and incidental expenses related to acquisition. In respect of major projects involving construction, related pre-operational expenses form part of the value of assets capitalised. Expenses capitalised also include applicable borrowing costs for qualifying assets, if any. All up gradation / enhancements are charged off as revenue expenditure unless they bring similar significant additional benefits.

An item of property, plant and equipment is derecognised upon disposal or when no future economic benefits are expected to arise from the continued use of asset. Any gain or loss arising on the disposal or retirement of an item of property, plant and equipment is determined as the difference between the sales proceeds and the carrying amount of the asset and is recognised in the Statement of Profit and Loss.

Depreciation of these assets commences when the assets are ready for their intended use which is generally on commissioning. Items of property, plant and equipment are depreciated in a manner that amortizes the cost (or other amount substituted for cost) of the assets after commissioning, less its residual value, over their useful lives as specified in Schedule II of the Companies Act, 2013 on a straight line basis. Land is not depreciated.

The estimated useful lives of property, plant and equipment of the Company are as follows:

Buildings	30 Years
Plant and Equipment	25 Years
Furniture and Fixtures	10 Years
Vehicles	8 Years
Office Equipment	5 Years
Intangible Assets	5 Years

No write off is made in respect of leasehold land.

Assets held under finance leases are depreciated over their expected useful lives on the same basis as owned assets or, where shorter, the term of the relevant lease.

Property, plant and equipment's residual values and useful lives are reviewed at each Balance Sheet date and changes, if any, are treated as changes in accounting estimate.

Intangible Assets

Intangible Assets that the Company controls and from which it expects future economic benefits are capitalised upon acquisition and measured initially:

a. for assets acquired in a business combination or by way of a government grant, at fair value on the date of acquisition/grant

b. for separately acquired assets, at cost comprising the purchase price (including import duties and non-refundable taxes) and directly attributable costs to prepare the asset for its intended use.

Internally generated assets for which the cost is clearly identifiable are capitalised at cost. Research expenditure is recognised as an expense when it is incurred. Development costs are capitalised only after the technical and commercial feasibility of the asset for sale or use has been established. Thereafter, all directly attributable expenditure incurred to prepare the asset for its intended use are recognised as the cost of such assets. Internally generated brands, websites and customer lists are not recognised as intangible assets.

The useful life of an intangible asset is considered finite where the rights to such assets are limited to a specified period of time by contract or law (e.g., patents, licenses, trademarks, franchise and servicing rights) or the likelihood of technical, technological obsolescence (e.g., computer software, design, prototypes) or commercial obsolescence (e.g., lesser known brands are those to which adequate marketing support may not be provided). If, there are no such limitations, the useful life is taken to be indefinite. Intangible assets that have finite lives are amortized over their estimated useful lives by the straight line method unless it is practical to reliably determine the pattern of benefits arising from the asset. An intangible asset with an indefinite useful life is not amortized.

All intangible assets are tested for impairment. Amortization expenses and impairment losses and reversal of impairment losses are taken to the Statement of Profit and Loss. Thus, after initial recognition, an intangible asset is carried at its cost less accumulated amortization and / or impairment losses.

The useful lives of intangible assets are reviewed annually to determine if a reset of such useful life is required for assets with finite lives and to confirm that business circumstances continue to support an indefinite useful life assessment for assets so classified. Based on such review, the useful life may change or the useful life assessment may change from indefinite to finite. The impact of such changes is accounted for as a change in accounting estimate.

Impairment of Assets

Impairment loss, if any, is provided to the extent, the carrying amount of assets or cash generating units exceed their recoverable amount.

Recoverable amount is higher of an asset's net selling price and its value in use. Value in use is the present value of estimated future cash flows expected to arise from the continuing use of an asset or cash generating unit and from its disposal at the end of its useful life.

Impairment losses recognised in prior years are reversed when there is an indication that the impairment losses recognised no longer exist or have decreased. Such reversals are recognised as an increase in carrying amounts of assets to the extent that it does not exceed the carrying amounts that would have been determined (net of amortization or depreciation) had no impairment loss been recognised in previous years.

Inventories

Inventories are stated at lower of cost and net realisable value. The cost is calculated on weighted average method. Cost comprises expenditure incurred in the normal course of business in bringing such inventories to its present location and condition and includes, where applicable, appropriate overheads based on normal level of activity. Net realisable value is the estimated selling price less estimated costs for completion and sale.

Obsolete, slow moving and defective inventories are identified from time to time and, where necessary, a provision is made for such inventories.

Foreign Currency Transactions

The functional and presentation currency of the Company is Indian Rupee.

Transactions in foreign currency are accounted for at the exchange rate prevailing on the transaction date. Gains/ losses arising on settlement as also on translation of monetary items are recognised in the Statement of Profit and Loss.

Exchange differences arising on monetary items that, in substance, form part of the Company's net investment in a foreign operation (having a functional currency other than Indian Rupee) are accumulated in Foreign Currency Translation Reserve.

Investment in Subsidiary

Investment in subsidiary is carried at cost less accumulated impairment, if any.

Financial instruments, Financial assets, Financial liabilities and Equity instruments

Financial assets and financial liabilities are recognised when the Company becomes a party to the contractual provisions of the relevant instrument and are initially measured at fair value. Transaction costs that are directly attributable to the acquisition or issue of financial assets and financial liabilities (other than financial assets and financial liabilities measured at fair value through profit or loss) are added to or deducted from the fair value on initial recognition of financial assets or financial liabilities. Purchase or sale of financial assets that require delivery of assets within a time frame established by regulation or convention in the market place (regular way trades) are recognised on the trade date, i.e., the date when the Company commits to purchase or sell the asset.

Financial Assets**Recognition:**

Financial assets include Investments, Trade receivables, Advances, Security Deposits, Cash and cash equivalents. Such assets are initially recognised at transaction price when the Company becomes party to contractual obligations. The transaction price includes transaction costs unless the asset is being fair valued through the Statement of Profit and Loss.

Classification:

Management determines the classification of an asset at initial recognition depending on the purpose for which the assets were acquired. The subsequent measurement of financial assets depends on such classification.

Financial assets are classified as those measured at:

(a) amortised cost, where the financial assets are held solely for collection of cash flows arising from payments of principal and/or interest.

(b) fair value through other comprehensive income (FVTOCI), where the financial assets are held not only for collection of cash flows arising from payments of principal and interest but also from the sale of such assets. Such assets are subsequently measured at fair value, with unrealised gains and losses arising from changes in the fair value being recognised in other comprehensive income.

(c) fair value through profit or loss (FVTPL), where the assets are managed in accordance with an approved investment strategy that triggers purchase and sale decisions based on the fair value of such assets. Such assets are subsequently measured at fair value, with unrealised gains and losses arising from changes in the fair value being recognised in the Statement of Profit and Loss in the period in which they arise.

Trade receivables, Advances, Security Deposits, Cash and cash equivalents etc. are classified for measurement at amortised cost while investments may fall under any of the aforesaid classes. However, in respect of particular investments in equity instruments that would otherwise be measured at fair value through profit or loss, an irrevocable election at initial recognition may be made to present subsequent changes in fair value through other comprehensive income.

Impairment:

The Company assesses at each reporting date whether a financial asset (or a group of financial assets) such as investments, trade receivables, advances and security deposits held at amortised cost and financial assets that are measured at fair value through other comprehensive income are tested for impairment based on evidence or information that is available without undue cost or effort. Expected credit losses are assessed and loss allowances recognised if the credit quality of the financial asset has deteriorated significantly since initial recognition.

Reclassification: When and only when the business model is changed, the Company shall reclassify all affected financial assets prospectively from the reclassification date as subsequently measured at amortised cost, fair value through other comprehensive income, fair value through profit or loss without restating the previously recognised gains, losses or interest and in terms of the reclassification principles laid down in the Ind AS relating to Financial Instruments.

De-recognition: Financial assets are derecognised when the right to receive cash flows from the assets has expired, or has been transferred, and the Company has transferred substantially all of the risks and rewards of ownership. Concomitantly, if the asset is one that is measured at:

(a) amortised cost, the gain or loss is recognised in the Statement of Profit and Loss;

(b) fair value through other comprehensive income, the cumulative fair value adjustments previously taken to reserves are reclassified to the Statement of Profit and Loss unless the asset represents an equity investment in which case the cumulative fair value adjustments previously taken to reserves is reclassified within equity.

Income Recognition:

Interest income is recognised in the Statement of Profit and Loss using the effective interest method. Dividend income is recognised in the Statement of Profit and Loss when the right to receive dividend is established.

Financial Liabilities

Borrowings, trade payables and other financial liabilities are initially recognised at the value of the respective contractual obligations. They are subsequently measured at amortised cost. Any discount or premium on redemption / settlement is recognised in the Statement of Profit and Loss as finance cost over the life of the liability using the effective interest method and adjusted to the liability figure disclosed in the Balance Sheet.

Financial liabilities are derecognised when the liability is extinguished, that is, when the contractual obligation is discharged, cancelled and on expiry.

Offsetting Financial Instruments

Financial assets and liabilities are offset and the net amount is included in the Balance Sheet where there is a legally enforceable right to offset the recognised amounts and there is an intention to settle on a net basis or realise the asset and settle the liability simultaneously.

Equity Instruments

Equity instruments are recognised at the value of the proceeds, net of direct costs of the capital issue.

Revenue

Revenue is measured at the fair value of the consideration received or receivable for goods supplied and services rendered, net of returns and discounts to customers. Revenue from the sale of goods includes duties which the Company pays as a principal but excludes amounts collected on behalf of third parties, such as goods and service tax.

Revenue from the sale of goods is recognised when significant risks and rewards of ownership/control have been transferred to the customer, which is mainly upon delivery, the amount of revenue can be measured reliably and recovery of the consideration is probable. Revenue from services is recognised in the periods in which the services are rendered.

Government Grant

The Company may receive government grants that require compliance with certain conditions related to the Company's operating activities or are provided to the Company by way of financial assistance on the basis of certain qualifying criteria.

Government grants are recognised when there is reasonable assurance that the grant will be received, and the Company will comply with the conditions attached to the grant. Accordingly, government grants:

- (a) related to or used for assets are included in the Balance Sheet as deferred income and recognised as income over the useful life of the assets.
- (b) related to incurring specific expenditures are taken to the Statement of Profit and Loss on the same basis and in the same periods as the expenditures incurred.
- (c) by way of financial assistance on the basis of certain qualifying criteria are recognised as they become receivable.

In the unlikely event that a grant previously recognised is ultimately not received, it is treated as a change in estimate and the amount cumulatively recognised is expensed in the Statement of Profit and Loss.

Employee Benefits

i) Short-term Employee benefits Liabilities for wages and salaries including nonmonetary benefits that are expected to be settled wholly within twelve months after the end of the period in which the employees render the related service are classified as short term employee benefits and are recognized as an expense in the Statement of Profit and Loss as the related service is provided. A liability is recognised for the amount expected to be paid if the Company has a present legal or constructive obligation to pay this amount as a result of past service provided by the employee and the obligation can be estimated reliably.

iii) Post-Employment Benefits Defined Contribution Plans

Payments made to a defined contribution plan such as Provident Fund maintained with Regional Provident Fund Office and Superannuation Fund are charged as an expense in the Statement of Profit and Loss as they fall due.

Defined Benefit Plans**Gratuity Fund**

The Company has an obligation towards gratuity, a defined benefit retirement plan covering eligible employees. Gratuity is payable to all eligible employees on death or on separation/ termination in terms of the provisions of the payment of the Gratuity (Amendment) Act, 1997 or as per the Company's scheme whichever is more beneficial to the employees.

Provident Fund

The contributions to the Provident Fund of employees are made to a Government administered Provident Fund and there are no further obligations beyond making such contribution.

iv) Other Long Term Employee Benefits

The liabilities for earned leave and sick leave are not expected to be settled wholly within 12 months after the end of the period in which the employees render the related service. They are therefore measured as the present value of expected future payments to be made in respect of services provided by the employees upto the end of the reporting period using the projected unit credit method

Re-measurements are recognised in profit or loss in the period in which they arise. Actuarial gains and losses in respect of such benefits are charged to Statement of Profit and Loss in the period in which they arise.

Leases

Leases are recognised as a finance lease whenever the terms of the lease transfer substantially all the risks and rewards of ownership to the lessee. All other leases are classified as operating leases.

Company as a Lessee

Assets used under finance leases are recognised as property, plant and equipment in the Balance Sheet for an amount that corresponds to the lower of fair value and the present value of minimum lease payments determined at the inception of the lease and a liability is recognised for an equivalent amount.

The minimum lease payments are apportioned between finance charges and reduction of the lease liability so as to achieve a constant rate of interest on the remaining balance of the liability. Finance charges are recognised in the Statement of Profit and Loss.

Rentals payable under operating leases are charged to the Statement of Profit and Loss on a straight-line basis over the term of the relevant lease unless the payments to the lessor are structured to increase in line with expected general inflation to compensate for the lessor's expected inflationary cost increases.

Company as a Lessor

Leases in which the Company does not transfer substantially all the risks and rewards of ownership of an asset are classified as operating leases. Where the Company is a lessor under an operating lease, the asset is capitalised within property, plant and equipment and depreciated over its useful economic life. Payments received under operating leases are recognised in the Statement of Profit and Loss on a straight-line basis over the term of the lease.

Taxes on Income

Taxes on income comprises of current taxes and deferred taxes. Current tax in the Statement of Profit and Loss is provided as the amount of tax payable in respect of taxable income for the period using tax rates and tax laws enacted during the period, together with any adjustment to tax payable in respect of previous years.

Deferred tax is recognised on temporary differences between the carrying amounts of assets and liabilities and the amounts used for taxation purposes (tax base), at the tax rates and tax laws enacted or substantively enacted by the end of the reporting period.

Deferred tax assets are recognised for the future tax consequences to the extent it is probable that future taxable profits will be available against which the deductible temporary differences can be utilised.

Income tax, in so far as it relates to items disclosed under other comprehensive income or equity, are disclosed separately under other comprehensive income or equity, as applicable.

Deferred tax assets and liabilities are offset when there is legally enforceable right to offset current tax assets and liabilities and when the deferred tax balances related to the same taxation authority. Current tax assets and tax liabilities are offset where the entity has a legally enforceable right to offset and intends either to settle on net basis, or to realize the asset and settle the liability simultaneously.

Claims

Claims against the Company not acknowledged as debts are disclosed after a careful evaluation of the facts and legal aspects of the matter involved.

Provisions

Provisions are recognised when, as a result of a past event, the Company has a legal or constructive obligation; it is probable that an outflow of resources will be required to settle the obligation; and the amount can be reliably estimated. The amount so recognised is a best estimate of the consideration required to settle the obligation at the reporting date, taking into account the risks and uncertainties surrounding the obligation. In an event when the time value of money is material, the provision is carried at the present value of the cash flows estimated to settle the obligation.

Financial and Management Information Systems

The Company's Accounting System is designed to comply with the relevant provisions of the Companies Act, 2013, to provide financial information appropriate to the businesses and facilitate Internal Control.

Use of estimates and judgements

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent liabilities at the date of the financial statements and the results of operations during the reporting period end. Although these estimates are based upon management's best knowledge of current events and actions, actual results could differ from these estimates.

The estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to accounting estimates are recognised in the period in which the estimate is revised if the revision affects only that period, or in the period of the revision and future periods if the revision affects both current and future periods.

A. Judgements in applying accounting policies

The judgements, apart from those involving estimations (see note below), that the Company has made in the process of applying its accounting policies and that have a significant effect on the amounts recognised in these financial statements pertain to useful life of intangible assets. The Company is required to determine whether its intangible assets have indefinite or finite life which is a subject matter of judgement. Certain trademarks have been considered of having an indefinite useful life taking into account that there are no technical, technological or commercial risks of obsolescence or limitations under contract or law. Other trademarks have been amortized over their useful economic life. Refer notes to the financial statements.

B. Key sources of estimation uncertainty

The following are the key assumptions concerning the future, and other key sources of estimation uncertainty at the end of the reporting period that may have a significant risk of causing a material adjustment to the carrying amounts of assets and liabilities within the next financial year.

1. Useful lives of property, plant and equipment and intangible assets:

As described in the significant accounting policies, the Company reviews the estimated useful lives of property, plant and equipment and intangible assets at the end of each reporting period.

2. Fair value measurements and valuation processes:

Some of the Company's assets and liabilities are measured at fair value for financial reporting purposes. In estimating the fair value of an asset or a liability, the Company uses market-observable data to the extent it is available. Where Level 1 inputs are not available, the Company engages third party valuers, where required, to perform the valuation. Information about the valuation techniques and inputs used in determining the fair value of various assets, liabilities and share based payments are disclosed in the notes to the financial statements.

3. Actuarial Valuation:

The determination of Company's liability towards defined benefit obligation to employees is made through independent actuarial valuation including determination of amounts to be recognised in the Statement of Profit and Loss and in other comprehensive income. Such valuation depend upon assumptions determined after taking into account inflation, seniority, promotion and other relevant factors such as supply and demand factors in the employment market. Information about such valuation is provided in notes to the financial statements.

4. Claims, Provisions and Contingent Liabilities:

In the case of litigations where an outflow of funds is believed to be probable and a reliable estimate of the outcome of the dispute can be made based on management's assessment of specific circumstances of each dispute and relevant external advice, management provides for its best estimate of the liability. Such accruals are by nature complex and can take number of years to resolve and can involve estimation uncertainty. Information about such litigations is provided in notes to the financial statements.

3. FINANCIAL RISK MANAGEMENT

The activities of the Company exposes it to a number of financial risks namely market risk, credit risk and liquidity risk. The Company seeks to minimize the potential impact of unpredictability of the financial markets on its financial performance. The Company does regularly monitor, analyze and manage the risks faced by the Company and to set and monitor appropriate risk limits and controls for mitigation of the risks.

A. MANAGEMENT OF MARKET RISK:

Market risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in market prices. Market risk comprises of three types of risks: interest rate risk, price risk and currency rate risk. Financial instruments affected by market risk includes borrowings and investments. The Company has international trade operations and is exposed to a variety of market risks, including currency and interest rate risks.

(i) Management of interest rate risk:

Interest rate risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in market interest rates. The Company does not have any exposure to interest rate risks since its borrowings and investments

(ii) Management of price risk:

The Company has no surplus for investment in debt mutual funds, deposits etc. The Company does make deposit with the banks to provide security/margin against guarantee given by the banks. Deposit is made in fixed rate instrument. In view of this it is not susceptible to market price risk, arising from changes in interest rates or market yields which may impact the return and value of the investments.

(iii) Management of currency risk:

Currency risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in foreign exchange rates. The Company has foreign currency trade receivables and is therefore exposed to foreign exchange risk. The Company mitigates the foreign exchange risk by setting appropriate exposure limits, periodic monitoring of the exposures etc.. The exchange rates have been volatile in the recent years and may continue to be volatile in the future. Hence the operating results and financials of the Company may be impacted due to volatility of the rupee against foreign currencies.

Exposure to currency risk(The Company has exposure only in USD/EURO converted to functional currency i.e.INR)

The currency profile of financial assets and financial liabilities as at December 31, 2021, March 31, 2021, March 31, 2020 and March 31, 2019, are as below:

Financial assets	Exposure currency	Rs. In Lakhs			
		As at 31.12.2021	As at 31.03.2021	As at 31.03.2020	As at 31.03.2019
Trade receivables	USD	626.39	427.23	519.12	521.33
	EURO	118.33	192.25	77.94	66.14
Trade payable	USD	-	12.25	11.34	10.45
	EURO	-	8.36	1.14	-
		744.72	598.87	584.58	577.02

Sensitivity analysis

A reasonably possible 5% strengthening (weakening) of the Indian Rupee against USD/EURO at March 31 would have affected the measurement of financial instruments denominated in USD/EURO and affected profit or loss by the amounts shown below. This analysis assumes that all other variables, in particular interest rates, remain constant and ignores any impact of forecast

	Rs.in lakhs	
	Strengthening	Weakening
Profit/(Loss)	28.85	28.85
	29.23	29.23
	29.94	29.94
	37.24	37.24

B. MANAGEMENT OF CREDIT RISK:

Credit risk refers to the risk of default on its obligations by a counterparty to the Company resulting in a financial loss to the Company. The Company is exposed to credit risk from its operating activities (trade receivables) and foreign exchange. Credit risk from trade receivables is managed through the Company's policies, procedures and controls relating to customer credit risk management by establishing credit limits, credit approvals and monitoring creditworthiness of the customers to which the Company extends credit in the normal course of business. Outstanding customer receivables are regularly monitored. The Company has no concentration of credit risk as the customer base is widely distributed.

The Company's historical experience of collecting receivables and the level of default indicate that credit risk is low and generally uniform across markets; consequently, trade receivables are considered to be a single class of financial assets. All overdue customer balances are evaluated taking into account the age of the dues, specific credit circumstances, the track record of the counterparty etc. Loss allowances and impairment is recognised, where considered appropriate by responsible management.

C. MANAGEMENT OF LIQUIDITY RISK:

Liquidity risk is the risk that the Company may not be able to meet its present and future cash obligations without incurring unacceptable losses. The Company's objective is to maintain at all times, optimum levels of liquidity to meet its obligations. The Company closely monitors its liquidity position and has a cash management system. The Company maintains adequate sources of financing including debt and overdraft from domestic and international banks and financial markets at optimized

The Company's/group (consolidated) Current assets aggregate to Rs. 3406.84 lakhs, December,2021 (2021- Rs. 2573.41 lakhs, 2020- Rs. 2257.26 lakhs,2019- Rs.2285.61 lakhs), including Cash and cash equivalents and Other bank balances of Rs. 19.01 lakhs- Dec, 21(2021-Rs. 244.93 lakhs, 2020 - Rs. 169.95 lakhs and 2019-Rs. 185.75 lakhs) against an aggregate Current liability of Rs. 2673.22 lakhs - December, 21(2021- Rs.1816.76 lakhs, 2020 - Rs. 1576.90 Lakhs and 2019- Rs. 1659.82); Non-current liabilities due between one year to three years amounting to Rs. 174.34 lakhs - December, 21 (2021- Rs. 89.76 lakhs, 2020 - NIL and 2019- NIL) and Non-current liability due after three years amounting to NIL - December,21(2021- NIL, 2020- NILand 2019 - NIL) on the reporting date. Further, while the Company's/ Group's total equity stands at Rs. 2333.78 lakhs- December,2021(2021- Rs.2008.75 lakhs, 2020- Rs. 1881.47 lakhs and 2019- Rs.1897.33 lakhs), it has non-current borrowings of Rs. 174.34 lakhs -December,2021(2021- Rs. 89.76 lakhs, 2020 - Rs. NIL and 2019- Rs. NIL). In such circumstances, liquidity risk or the risk that the Company/Group may not be able to settle or meet its obligations as they become due does not exist.

D. Fair value measurement

Fair value hierarchy

Fair value of the financial instruments is classified in various fair value hierarchies based on the following three levels:

Level 1: Quoted prices (unadjusted) in active market for identical assets or liabilities.

Level 2: Inputs other than quoted price included within level 1 that are observable for the asset or liability, either directly (i.e. as prices) or indirectly (i.e. derived from prices).

The fair value of financial instruments that are not traded in an active market is determined using market approach and valuation techniques which maximize the use of observable market data and rely as little as possible on entity-specific estimates. If significant inputs required to fair value an instrument are observable, the instrument is included in Level 2.

Level 3: Inputs for the assets or liabilities that are not based on observable market data (unobservable inputs).

If one or more of the significant inputs is not based on observable market data, the fair value is determined using generally accepted pricing models based on a discounted cash flow analysis, with the most significant inputs being the discount rate that reflects the credit risk of counterparty.

The fair value of trade receivables, trade payables and other Current financial assets and liabilities is considered to be equal to the carrying amounts of these items due to their short-term nature. Where such items are Non-current in nature, the same has been classified as Level 3 and fair value determined using discounted cash flow basis. Similarly, unquoted equity instruments where most recent information to measure fair value is insufficient, or if there is a wide range of possible fair value measurements, cost has been considered as the best estimate of fair value.

There has been no change in the valuation methodology for Level 3 inputs during the year. The Company has not classified any material financial instruments under Level 3 of the fair value hierarchy. There were no transfers between Level 1 and Level 2 during the year.

The following table presents the fair value hierarchy of assets and liabilities measured at fair value on a recurring basis:

Note 35**AMALGAMATION OF SUBSIDIARY :**

The Board of Directors of the Company at their meeting held on 18/11/2019 and the shareholders and unsecured creditors of the Company at their respective meetings held on 14/01/2020 and 18/01/2020 unanimously approved the proposal for the amalgamation of its wholly owned subsidiary, Sat E-Com Limited (SEL) with the Company under section 233 of the Companies Act, 2013, subject to all the necessary statutory / regulatory approvals. The Scheme of Amalgamation ('The Scheme') for merger of SEL with the Company has been approved by the Regional Director, North Western (RD-NW), Ministry of Corporate Affairs, Ahmedabad under Section 233 of Chapter XV of the Companies Act, 2013 on 21/08/2020, the Scheme has become effective from appointed date i.e., 1 April 2019 and the effect thereof has been given in these accounts. Consequently,

a) In terms of the Scheme, the entire business and the whole of the undertaking of SEL, as a going concern stands transferred to and vested in the Company with effect from April 01, 2019, being the Merger Appointed Date.

b) As SEL was a wholly owned subsidiary of the Company, no consideration was payable pursuant to amalgamation of SEL with the Company.

c) Accounting for Amalgamation:

The amalgamation of SEL with the Company is accounted for on the basis of the Pooling Interest Method as envisaged in the Indian Accounting Standard (Ind AS) - 103 on Accounting for Business Combinations specified in the Companies (Indian Accounting Standard) Rules 2015 and in terms of the scheme, as below,

- All asset and liabilities of the SEL were recorded at their respective book values under the respective accounting heads of the Company

- (Rs. 50.00 lakhs) being the difference between the value of net assets of the SEL transferred to the Company (determined as stated above) and the carrying value of the Company's investment in SEL (cancelled as above) has been adjusted to Capital Reserve of the Company. This accounting treatment of the reserve has been prescribed in the Scheme.

d) SEL was a Company engaged in the business of software etc., which was 100% subsidiary of the Company.

e) The scheme inter alia provides that upon the Scheme become effective and with effect from the appointed date, the authorised share capital of SEL shall stand transferred to and be merged/amalgamated with the authorised share capital of the Company. Consequently, authorised share capital of the Company enhanced to Rs. 1650 lakhs (divided into 1,65,00,000 equity shares of Rs. 10 each)

f) Summary of relevant quantitative information of SEL as at the appointed date i.e. 1 April, 2019 has been provided below:

Particulars	Amount (Rs. in lakhs)
A. Assets	54.49
Liabilities	0.03
C.Net assets taken over (C = A - B)	54.46
D. Reserves of SEL vested in SPL	
Retained earnings	4.46
Total reserves (D)	4.46
E.Cancellation of Investments in equity of SEL held by the Company	100
F.Capital reserve on amalgamation (C - D - E)	-50.00

The company offsets tax assets and liabilities if and only if it has a legally enforceable right to set off current tax assets and current tax liabilities and the deferred tax assets and deferred tax liabilities relate to income taxes levied by the same tax authority.

Significant management judgment is required in determining provision for income tax, deferred income tax assets and liabilities and recoverability of deferred income tax assets. The recoverability of deferred income tax assets is based on estimates of taxable income in which the relevant entity operates and the period over which deferred income tax assets will be recovered.

During the year/period, the Company has not accounted for tax credits in respect of Minimum Alternative Tax (MAT credit) of Rs. NIL as at Dec 31st, 2021, Rs. NIL as at March 31, 2021 Rs. 1.33 lakhs as at March 31, 2020 and Rs. 14.49 lakhs as at March 31, 2019. The Company is reasonably not certain availing the said MAT Credit in future years against the normal tax expected to be paid in those years and accordingly has not recognised a deferred tax asset for the same.
