Dynacons Recognized as Top Solution Provider for Data Center Optimization

The company has successfully implemented several large projects in BFSI, Pharmaceutical and Government sectors

MUMBAI, India – March 23, 2015

Dynacons, a leading IT service provider, today announced that they have won the prestigious 'Solution Champ' award in 'Data Center & Optimization' category. The award is bestowed upon Dynacons at Hyderabad by a leading channel media company. Amongst the 100's of applicants, 5 SIs were shortlisted in this category and Dynacons were recognized as the top solution provider for Data Center Optimization. Dynacons' proven expertise in system integration and specialized implementation has helped customers increase their data center efficiency and performance.

Dynacons have always focused on strengthening their system integration and managed service business. The company has implemented several data center projects for medium and large enterprises and has won large deals from BFSI and pharmaceutical companies. Their strategic IT services and data center solutions have successfully addressed the difficulties faced by IT managers and operators who are involved in managing complex data center environments. Today, Dynacons is recognized among top ten SIs in the country.

Mr Parag Dalal, Executive Director at **Dynacons** said, "*The 'Solution Champ' award is a true recognition of all the efforts we have been making to address the increasing data center challenges. With a rise in number of users, more workloads and a lot more data, the pressure on data centers is also rising. Therefore, IT managers and operators are constantly looking for more effective ways to manage their IT infrastructure. Content delivery, user optimization and data quantification are becoming critical aspects for modern businesses.*"

Dynacons provide solutions in key technology areas such as System Integration, Networking, Security & Surveillance, Cloud Computing, Datacenter Solutions, Software Services, Mobility, Virtualization, Managed Services and Facility Management Services. With advanced technology capabilities, Dynacons has managed to deliver comprehensive solutions and service to customers across multiple states like Maharashtra, Gujarat, Rajasthan, Goa, Madhya Pradesh, Tamil Nadu and Karnataka along with over 100 Tier II and Tier III cities in India.

Dynacons has successfully implemented several large projects for clients across verticals like Government, Semi Government, Public Sector, Banking, Insurance, Pharmaceuticals, Hospitality, Construction, Education, Shipping & Logistics and Manufacturing. Dynacons has continuously strived to enhance its technical capabilities and knowledge to meet the evolving needs of the market. They have also introduced several certifications and training programs for employees and have come up with new strategies to build new competencies.
