Biju S. Nair
Chief Operating Officer

Four Soft Signs Contract with Hamacher Logistik BV, Netherlands

"Enables operational and financial control of global freight movements"

12th March'12, Hyderabad: Four Soft® (4S®) (NSE: "FOURSOFT", BSE: 532521), a global leader offering software solutions for the logistics and transportation industry, announced that its subsidiary Four Soft Netherlands BV, Dordrecht, has signed a contract with Hamacher Logistik BV, Netherlands, to implement its freight forwarding application 4S eTrans SME®.

Hamacher Logistik BV is a fast growing Netherlands based 3PL Logistics Company and it offers high quality, cost effective logistics solutions for exporters and importers globally.

Chris Veenstra, Director- Business Development, Hamacher Logistik BV, said, "It was imperative for us to invest in a good IT application to automate our freight forwarding operations. We chose Four Soft for its state of the art technology and superior functionality of its application. It is a direct fit to our requirements. We are confident that this implementation would help us provide enhanced service to our global customers and collaborates effectively with our agents. **He further added,**"We are embarking on this project to radically reduce our operating costs, speed up the turnaround time to process the shipments and reduce manual processes at various stages of the lifecycle of the shipments."

Willem van Anrooij, Director, Four Soft Netherlands BV, said, "We are proud to be associated with a prestigious company like Hamacher Logistik BV. Hamacher has been a leader in the freight forwarding and logistics segments in Germany and The Netherlands. They are aware of the strategic role IT can play in enhancing their business growth. Our intent is to add value where ever possible and we are confident that our solution will help them to future proof its business for years to come. We look forward to a successful partnership with them as the company continues to grow."

4S eTrans SME® is a complete freight forwarding system designed to automate, streamline and support multi-modal international freight forwarding operations. It provides the logistics industry with a flexible and comprehensive software solution to manage business efficiently, increase productivity and improve the overall service to their customers.
