Dear Sirs,

Sub: Phased Shut down at Company's Plants at Nagda (M.P.)

This is to inform you that due to water shortage caused by deficient rain last year (less than half of normal), the Company has started reducing production of Staple Fibre at its Plant located at Nagda in a phase manner. The production is expected to be fully suspended from 30th April 2015 and will be resumed on the arrival of monsoon and availability of adequate water.

The operations of Chlor Alkali plant will also be affected and will be run to the extent of availability of water.

The Company will continue to cater to the requirements of all its customers from its other Staple Fibre Plants located at Kharach and Vilayat (Gujarat) and Harihar (Karnataka). The Company will complete major modifications of two lines and other major repair work during the period.

We shall keep you informed of the developments, if any, in the matter.

Thank you,

Yours faithfully,

Hutokshi Wadia
Sr. Vice President & Company Secretary
