Press Release

**Inox Wind Commissions Common Power Evacuation Systems at Lahori,  
Madhya Pradesh**

- 220 KV Sub-Station and 220 KV Transmission Line Commissioned
- Common Infrastructure Facility for 200 MW power evacuation

Noida, 22<sup>nd</sup> February 2016: Inox Wind Limited, India's leading wind energy solutions provider to IPPs, PSUs, Corporates, Utilities and Retail clients, is pleased to announce the commissioning of the common power evacuation facilities at its Lahori site in Madhya Pradesh. The common power evacuation systems for the wind park comprise of a 220 KV sub-station and a 220 KV transmission line and are capable of supporting power evacuation of 200 MW. Inox Wind's Lahori site includes projects for leading Independent Power Producers like Ostro Energy and Tata Power Renewable Energy Limited (TPREL). Ostro Energy is backed by Actis, a global pan-emerging market private equity firm. TPREL is a 100% subsidiary of Tata Power, India's largest integrated power company.

With the recent commissioning of more than 800 MW of common infrastructure facilities across states, the successful commissioning of the common power evacuation facilities at Lahori is testament to Inox Wind's project execution prowess and further strengthens the company's position as the leading wind power solutions provider in Madhya Pradesh. Inox Wind presently has more than 600 MW of developed and under development projects in the state. With one of the largest project site inventories in the country across wind rich states, the company has several projects which it is currently developing as part of its turnkey solutions for clients.

Inox Wind offers its clients total wind power solutions including wind resource assessment, acquiring land, developing the entire site infrastructure, building the power evacuation system, supplying the WTGs, erection and commissioning services, long term operations and maintenance services as well as post-commissioning support.

### **ABOUT INOX WIND:**

Inox Wind is India's leading wind energy solutions provider servicing IPPs, Utilities, PSUs, Corporates and Retail Investors. Inox Wind is a fully integrated player in the wind energy market with three state-of-the-art manufacturing plants in Gujarat, Himachal Pradesh and Madhya Pradesh. The plant near Ahmedabad (Gujarat) manufactures Blades & Tubular Towers while Hubs & Nacelles are manufactured at the company's facility at Una (Himachal Pradesh). The new integrated manufacturing facility at Barwani (Madhya Pradesh) manufactures blades and will manufacture nacelles, hubs, and towers. The facility at M.P., which will be amongst the largest in the world, will double Inox Wind's manufacturing capacity to 1,600 MW per annum.

IWL manufactures key components of WTGs in-house to maintain high quality, most advanced technology, reliability and cost competitiveness. IWL has obtained ISO 9001:2008, ISO 14001:2004, OHSAS 18001 and ISO 3834 certifications for its management systems pertaining to manufacturing, installation, commissioning and O&M of wind turbines.

IWL offers complete end to end solutions from concept to commissioning. Besides manufacturing and supply of WTGs, IWL offers services including wind resource assessment, site acquisition, infrastructure development, erection and commissioning, and long term O&M of wind power projects.
