for immediate use **PRESS RELEASE**

Tata Power Solar now launches an extensive residential rooftop solution at Chandigarh

- Successfully launched residential rooftop solution in Delhi, Mumbai, Ajmer, Bhubaneswar, Gandhinagar, Bengaluru, Kochi and Chennai
- Annual saving is expected up to ₹ 50,000 for 25 years

Chandigarh, India, February 12th, 2019: Tata Power Solar Systems Limited (Tata Power Solar), India's largest solar energy company, and the Company's wholly-owned subsidiary has launched a complete residential rooftop solution in Chandigarh. Mr. Ankur Gupta, IAS Pr. Secretary of Chandigarh inaugurated the residential rooftop solutions today in Chandigarh along with other senior dignitaries from the government and key decision makers from the corporate industry who also graced the launch event with their presence. The residential rooftop solutions are expected to save up to ₹ 50,000 annually for 25 years.

Tata Power Solar expertise on developing strong consumer relationship by providing quality products, world class customized solutions and extensive service support has helped in exceeding customer satisfaction. Tata Power Solar brings forth India's most trusted and dependable rooftop solution. A votary of reducing carbon footprint, Tata Power Solar's residential rooftop solution decreases use of diesel generators, hence leading to more fuel savings. Apart from this, the consumers can avail a chance to earn from their idle rooftop space. To further, ease the beneficiaries' expenses, the proposition comes with government subsidy. The company already has a robust 150+ sales and service channel partners across India, which provides its valuable consumers with financing options.

Tata Power Solar comes with a successful background of executing World's largest Rooftop at a single location and India's largest carport at Cochin International Airport. Recently, Tata Power Solar joined hands with Cricket Club of India and installed the World's largest solar powered Cricket Stadium Mumbai, in a record period of 100 days.

Commenting on the initiative**, Mr. Praveer Sinha, CEO & Managing Director, The Tata Power Company Limited, said,** "*After the successful launch of residential rooftop solution at Delhi, Mumbai, Ajmer, Bhubaneswar, Gandhinagar, Bengaluru, Cochin and Chennai we are happy to offer solar rooftop to generate easy and cost effective solutions to all Chandigarh customers. We urge all Chandigarh customers to take full benefit of this service."*

Speaking on the occasion, **Mr. Ashish Khanna, President, Tata Power (Renewables), said,** *"It is our endeavor to provide knowledge of commercial benefits as well as quality aspects of solar roof top installation to our residential consumers. We are hopeful that with initiatives like these and our offering of cost-effective rooftop solutions, we will help consumers in energy conservation as well as*

savings in power costs. This will also achieve our Company's objective of always remaining No. 1 rooftop player in India."

Safety is as an important aspect of this installation. The company ensures that work happens safely and effectively to prolong the life of the system. The residential rooftop segment will further strengthen the company's leadership position in solar rooftop segment, along with being key growth drivers in inspiring environment-friendly energy solutions. The Company recently launched this solution in Delhi, Mumbai, Bhubaneshwar, Ajmer, Gandhinagar, Bengaluru, Cochin and Chennai has received a great response from residential segment. Renewables are the new growth area, which will bring greater value and will align with the changing consumer needs.

About Tata Power Solar

Tata Power Solar Systems Limited, with 29 years of deep domain expertise, is one of the pioneering solar manufacturers in the world and India's largest specialized EPC player. Founded in 1989, the company was originally formed as a joint venture between Tata Power and British Petroleum Solar (BP Solar). As a pioneer and market leader in the solar space, headquartered in Bangalore, Tata Power Solar now operates independently as a wholly owned subsidiary of Tata Power.

As one of the largest solar manufacturers in India, Tata Power Solar operates world-class manufacturing unit in Bangalore, with a production capacity of 400 MW of modules and 300 MW of cells. It has completed more than 2.6GW of ground-mount utility scale, over 14000 solar water pumps and over 260MW of rooftop and distributed generation projects across the country till date. It also offers a diverse line of solar solutions for both urban and rural markets – these include rooftop solutions, solar pumps and power packs among others. Tata Power Solar is committed to enabling solar everywhere and aims to provide energy access to millions of people across the country via its integrated solar solutions. About Tata Power:

Tata Power is India's largest integrated power company and, together with its subsidiaries & jointly controlled entities, has an installed capacity of 10857 MW. A pioneer in the field, it has a presence across the entire power value chain: Generation of renewable as well as conventional power including hydro and thermal energy; transmission & distribution, trading and coal & freight logistics. With renewable energy assets in solar and wind accounting for 22% of the company's portfolio, Tata Power is a leader in clean energy generation. In line with the company's view on sustainable and clean energy development, Tata Power is steering the transformation of utilities to integrated solutions by looking at new business growth in EV charging & storage, distributed generation & rooftops, microgrids and home automation & smart meters.

It has successful public-private partnerships in generation, transmission & distribution in India namely: 'Tata Power Delhi Distribution Ltd.' with Delhi Vidyut Board for distribution in North Delhi; 'Tata Power Ajmer Distribution Ltd.' with Ajmer Vidyut Vitran Nigam Ltd. for distribution in Ajmer; 'Powerlinks Transmission Ltd.' with Power Grid Corporation of India Ltd. for evacuation of Power from Tala hydro plant in Bhutan to Delhi; 'Maithon Power Ltd.' with Damodar Valley Corporation for a 1050 MW Mega Power Project at Jharkhand. Tata Power is serving more than 2.6 million distribution consumers in India and has developed the country's first 4000 MW Ultra Mega Power Project at Mundra (Gujarat) based on super-critical technology.

With growing international focus, Tata Power's global presence includes strategic investments in Indonesia through a 30% stake in the coal company PT Kaltim Prima Coal (KPC); 26% stake in mines at PT Baramulti Suksessarana Tbk (BSSR); in Singapore through Trust Energy Resources; in South Africa through a joint venture called 'Cennergi' to develop projects in sub-Sahara Africa; in Zambia through a 50:50 joint venture with ZESCO for 120 MW Hydro project; in Georgia through AGL which is a joint venture with Clean Energy, Norway & IFC for development of 187 MW hydro project; in Bhutan through a hydro project in partnership with The Royal Government of Bhutan.

With its 103 years track record of technology leadership, project execution excellence, world-class safety processes, customer care and driving green initiatives, Tata Power is poised for multi-fold growth and committed to 'lighting up lives' for generations to come.
