MEDIA RELEASE

Reliance and Google Cloud Expand Partnership to Accelerate India's Growth with AI

- **Reliance to work with Google Cloud to establish a state-of-the-art, AI-focused cloud region dedicated to Reliance in Jamnagar**
- **Google Cloud will bring world-class, latest generation Gen AI compute expertise; Reliance will design, build, and power state-of-the-art cloud facilities**

Mumbai, India, August 29, 2025 – Reliance Industries Limited (“Reliance” or “RIL”) today announced the expansion of its strategic partnership with Google Cloud to help shape India’s next leap with AI.

Reliance and Google have been investing in India's digital future, working over the last decade to bring affordable internet access to millions and power India's digital revolution. This new collaboration aims to build on this by delivering cutting-edge, secure AI infrastructure, powered by green energy and connected by Jio’s advanced digital network.

Under the partnership, Google Cloud and Reliance will work together to deliver the performance, reliability, and security required to support one of the world’s fastest-growing retail ecosystems. The collaboration will also help all of Reliance’s businesses transform using AI. RIL will design, build, and power the state-of-the-art cloud facility and associated network infrastructure at Jamnagar. The cloud region will be fully compliant with Google Cloud’s global specifications and service-level standards, to enable the most demanding AI workloads.

By enabling the deployment of advanced AI-driven solutions, the cloud region will significantly enhance RIL’s ability to innovate faster and modernize its operations with infrastructure and AI underpinned by Google Cloud. The dedicated cloud region will enable RIL to develop and provide high-performance, AI-first services to enterprises, SMBs, startups, developers and public sector organizations, backed by the scale and reliability of Jio’s network and Reliance’s energy leadership.

Building on its leadership in AI, Google Cloud will deploy its powerful AI hypercomputer and secure, fully integrated and optimized AI stack that offers generative AI models, development platform, and AI-powered applications.

The facility will be powered through Reliance’s green energy initiatives, ensuring sustainable operations at hyperscale. Reliance Jio will provide high-capacity intra- and inter-metro fiber connectivity linking Jamnagar to key metros such as Mumbai and Delhi.

Mukesh D. Ambani, Chairman & Managing Director, Reliance Industries Limited, said:

"This partnership with Google Cloud marks a new chapter in India’s technology journey. By bringing Google Cloud’s AI capabilities to Jamnagar, supported by Reliance’s infrastructure, renewable energy, and nationwide network, we are laying the foundation for India to become a global leader in AI. Just as Jio and Google came together to democratize the internet for every Indian, we will now democratize intelligence for every Indian."

Sundar Pichai, CEO, Google and Alphabet, said:

"At Google, we’ve long been investing in India’s digital future, and our partnership with Reliance and Jio has been an important part of how we do that. Our work together over the

last decade has helped bring affordable internet access to millions. And now, we are building on this to help shape the next leap with AI. This is only the beginning, and we look forward to building India's AI future together.”

About Reliance Industries Limited

Reliance Industries Limited (RIL) is India's largest private sector company, with a consolidated revenue of INR 10,71,174 crore (US\$ 125.3 billion), cash profit of INR 1,46,917 crore (US\$ 17.2 billion) and net profit of INR 81,309 crore (US\$ 9.5 billion) for the year ended March 31, 2025. Reliance's activities span hydrocarbon exploration and production, petroleum refining and marketing, petrochemicals, advanced materials and composites, renewables (solar and hydrogen), retail, digital services, and media and entertainment.

Currently ranked 88th, Reliance is the largest private sector company from India to be featured in Fortune's Global 500 list of 'World's Largest Companies' for 2025. The company stands 49th in the Forbes Global 2000 rankings of 'World's Largest Public Companies' for 2024, the highest among Indian companies. Reliance has been recognized in Time's list of the 100 Most Influential Companies of 2024, marking the only Indian company to have achieved this honour twice. Website: www.ril.com

About Google Cloud

Google Cloud is the new way to the cloud, providing AI, infrastructure, developer, data, security, and collaboration tools built for today and tomorrow. Google Cloud offers a powerful, fully integrated and optimized AI stack with its own planet-scale infrastructure, custom-built chips, generative AI models and development platform, as well as AI-powered applications, to help organizations transform. Customers in more than 200 countries and territories turn to Google Cloud as their trusted technology partner.
