Dear Sir/Madam,

Sub: Launch of advanced version of repeaters in North America, India, Europe and South America.

Kavveri Telecom Products Ltd along with Spotwave Wireless, a wholly owned subsidiary in North America has successfully developed new advanced models of low cost repeaters as a non-engineered solution. The breakthrough will provide Kavveri new window of opportunities to cater to small and medium enterprises in North American region initially and thereafter to the Indian market and European market. Commercial production of the repeaters will commence from April 2011 at our Bengaluru facility. These repeaters provide cellular signal enhancement for different technologies like GSM, 3G and LTE in areas where there is coverage problems.

Mr. C Shivakumar Reddy - Managing Director of Kavveri Telecom Products Ltd said: "It's very encouraging that our joint R&D efforts between KTPL and Spotwave were successful. We were able to redesign and develop a new advanced version of repeaters for non-engineered solutions which will provide Indoor wireless coverage solution to small and medium enterprises. This has been possible with the joint hardwork of the engineering teams at Kavveri and Spotwave. We will initially launch our product in North American region and going forward it will be introduced in Indian, European and Asian markets."

About Kavveri Telecom Products Ltd -

Kavveri Telecom is a leading telecom products manufacturer, providing world-class, hardware products and solutions for the telecom, defence and space industry. Kavveri Telecom combines expertise with experience to deliver state-of-art products and solutions spanning the wide spectrum of wireless Telecommunications. The diverse range of products manufactured by Kavveri Telecoms includes Antennas, RF Components, Repeaters, TMA/TMB etc

Kavveri Telecom over the last 4 years has acquired four different Rf products & Antennas manufacturing companies in North America and has made them run successfully. These companies are:

- **Tiltek Antennae Inc:** Acquired in 2006 designs, develops and manufactures Antenna for GSM,3G,LTE and Wimax technologies
- **DCI Digital Communications:** Acquired in 2007 designs, develops and manufactures Rf products for different wireless technologies.
- **Spotwave wireless Ltd:** Acquired in 2008 designs, develops and manufactures Intelligent repeaters for inbuilding solution for GSM,3G,LTE technologies
- **Trackcom Systems International:** Acquired in 2009 design, develops Rf products and antennas for defence and space applications.

About Spotwave Wireless:

Spotwave is a wholly owned subsidiary of Kavveri Telecom Products Ltd. Spotwave provides carrier-approved, indoor wireless coverage solutions; giving reliable, "always-on" wireless coverage indoors. Spotwave offer wireless carriers and enterprise customers a simple, affordable, effective way to ensure wireless devices have great coverage indoors, where they are used the most. The benefits of Spotwave's products for both our enterprise and business customers, and for carriers are clear.

For enterprise customers – Spotwave helps organizations in a variety of environments to maximize their return on wireless investment with a solution which will boost your indoor coverage and employee mobility – that's great for business.

For carrier customers – Spotwave's indoor coverage solutions help win new business, increase retention, differentiate on coverage and ensure customer satisfaction.

for COMPANY SECRETARY
