Dear Sir/ Ma'am,

Subject: Reply to the Clarification sought on Price Movement

Ref: TAC Infosec Limited (SYMBOL/ISIN: TAC/ INE0SOY01013)

Dear Sir/Madam,

This is with reference to your emailed letter Ref. No.: NSE/CM/Surveillance/16513 seeking clarification on the significant movement in the price of equity shares of TAC Infosec Limited in the recent price / volume behaviour in the script.

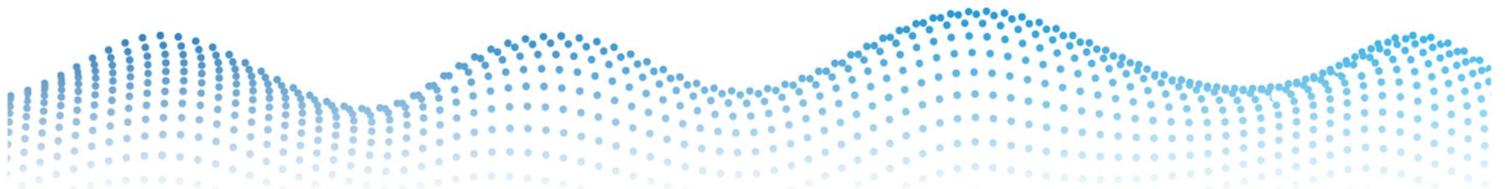

A copy of the above letter is enclosed herewith. In this regard, We wish to submit that the Company has made all necessary disclosures, from time to time, in a timely and accurate manner in conformity with the principles governing disclosures and obligations under Regulation 30 of the SEBI (Listing Obligations and Disclosure Requirements) Regulations, 2015.

We further confirm that the Company has not withheld any material information or event which, in our opinion, may have a bearing on the price or volume behaviour of our shares. The Company will continue to make disclosures to the Stock Exchange, as and when any event or information requiring disclosure under Regulation 30 of the SEBI (LODR) Regulations, 2015 arises.

Accordingly, the recent significant movement in the price of our shares appears to be purely market-driven and beyond the control of the Company.

All Stakeholders are advised to rely only on information disseminated through official stock exchange filings and authorised communications. We hope you will find the clarification in order and request you to take the same on record.

*It has come to our attention that **false and unverified rumours** are being circulated claiming that a **Marquee Investor with Large Shareholding** is selling shares of the Company. **This is completely untrue.** These rumours appear intended to **create panic and damage the reputation** of the Company and its promoters. The Company is reviewing the matter and will take **appropriate action** as required.*

Global cybersecurity stocks have seen volatility following recent AI-related headlines, later recovered as we watched.

In this context, **TAC Security** responded via its official **X (Twitter) account**, reaffirming that its AI-driven **ESOF** platform is making vulnerability management **affordable and enterprise-grade**, scaling to **6,000+ clients in ~20 months** as demand rises for automated discovery, remediation, risk visibility, and compliance mapping. The company highlighted its compliance-backed position, supported by **CERT-In, CREST, and App Defense Alliance (CASA/MASA)** authorizations, and noted that its customer base includes global names such as **Amazon, AWS, Salesforce, Adobe, HSBC, Samsung, PayPal, Dropbox, Lenovo, Revolut, Workday, Freshworks, Monday.com, Wix, and SAP**. TAC Security added that while developer-first AI tools are expanding rapidly in **B2C workflows**, competing in **regulated B2B security** requires **years of accreditations and governance readiness—not just AI**.

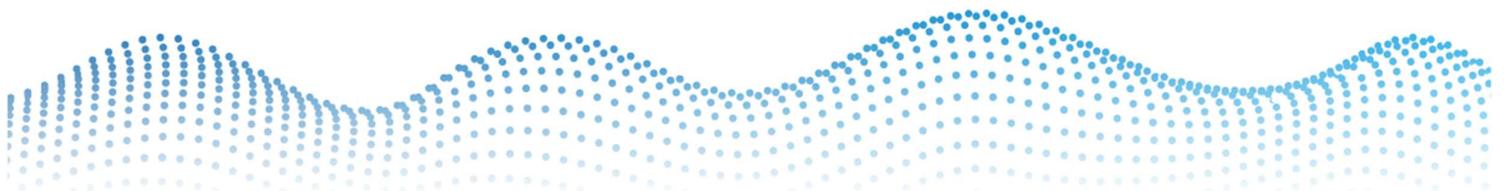

The Promoter/Founder remains fully committed to the Company's long-term value creation and to protecting the interests of all stakeholders with **Bold 2030 Vision**.

Thank you for your cooperation.

Yours faithfully,

For, **TAC Infosec Limited**

Chinmay Tikendrakumar Chokshi
