Dear Sir/ Madam,

Re: News clarification on article captioned- "Delhi-based Flash Electronics sues Enfield in US for patent infringement"

This is in reference to BSE email received on May 22, 2019 and NSE clarifications sought, on the subject.

At the outset this is to inform that Eicher Motors Limited has always been a responsible Company that has been working with various suppliers for over 60 years, in a manner that meets all legal and regulatory requirements.

We have learnt of a lawsuit filed in The United States of America by Flash Electronics Pvt Ltd. that alleges that one of the components used in some of Company's motorcycle models infringes on the plaintiff's registered patent. The supplier of said component denies plaintiff's claims vehemently.

The Company has a strategy of developing and if required, sourcing components and parts from multiple vendors and as such the above event is not considered material by the Company in terms of principles of materiality set out in Regulation 30 read with Schedule III of the SEBI (Listing Obligations and Disclosure Requirements) Regulations, 2015 ("SEBI Listing Regulations") and Company's Policy for determining materiality of Events and Information.

We will make requisite disclosures to the stock exchanges on the above matter, under Regulation 30 of SEBI Listing Regulations, if required.

Thanking you,
For **Eicher Motors Limited**

Manhar Kapoor
General Counsel & Company Secretary
