India 43rd in competitiveness index; Singapore tops

PRESS TRUST OF INDIA
New Delhi, May 29

INDIA HAS MOVED up one place to rank 43rd most competitive economy in the world on the back of its robust economic growth, a large labour force and its huge market size, while Singapore has topped the US to grab the top position, a global study showed.

Singapore has moved up to the top from the third position last year, while the US has slipped to the third place in the 2019 edition of the IMD World Competitiveness Rankings. Hong Kong SAR has held onto its second place, helped by a benign tax and business policy environment and access to business finance.

Economists regard competitiveness as vital for the long-term health of a country's economy as it empowers businesses to achieve sustainable growth, generates jobs and, ultimately, enhance the welfare of citizens.

The IMD World Competitiveness Rankings, established in 1989, incorporate 235 indicators from each of the 63 ranked economies to evaluate their ability to foster an environment where enterprises can achieve sustainable growth, generate jobs and increase welfare for its citizens.

The IMD Business School said it takes into account a wide range of statistics such as unemployment, GDP and government spending on health and education, as well as data from an executive opinion sur-

vey covering topics such as social cohesion, globalisation and corruption.

The study said the Asia-Pacific region has emerged as a global beacon with 11 out

of 14 economies either improving or holding their ground.
