Refer to Annexure for Details of Instruments & Bank Facilities

Detailed Rationale

Crisil Ratings has upgraded its rating on the long-term bank facilities and debt programmes of Muthoot Microfin Limited (MML) to '**Crisil AA-/Stable**' from 'Crisil A+/Positive' and has reaffirmed its 'Crisil A1+' ratings on the Commercial paper.

The rating action is driven by an upgrade in the long-term rating of parent Muthoot Fincorp Ltd (MFL; rated 'Crisil AA/Crisil AA-/Stable/Crisil A1+'), the flagship company of the Muthoot Pappachan group (MPG).

The ratings continue to factor in expectation of continued support from the parent, MFL. It also takes into consideration MML's adequate capital position and its diversified resource profile. These strengths are partially offset by geographical concentration in the loan portfolio, average, albeit improving asset quality and susceptibility of the microfinance sector to regulatory and legislative changes.

MML's portfolio quality has been gradually improving from the earlier stress, supported by better performance of the loan book originated post tightening of underwriting and implementation of guardrails. The 90+ day past due (dpd) stood at 5.3% as on March 31, 2026, as against 5.7% as on March 31, 2025. Gross non-performing assets (GNPAs) improved to 3.9% as on March 31, 2026, as against 4.8% as of March 31, 2025. Collection efficiency under the non-overdue bucket remained at over 99% during fiscal 2026. Further, the company has maintained adequate provisions for its stressed accounts, as reflected in the provision cover of 71.5% as on March 31, 2026.

Following improved portfolio asset quality, disbursements have also picked up. Assets under management (AUM) grew by ~13% to Rs 14,006 crore in fiscal 2026 (Rs 12,357 crore as on March 31, 2025) as compared to 1.3% growth in fiscal 2025.

Credit cost also reduced significantly to 3.0% in fiscal 2026, from 7.5% in fiscal 2025 supported by lower slippages and significant share of stressed assets already provided for. Operating expenses have increased marginally to 5.8% from 5.5% for the same period, following the implementation of enhanced collection incentives to drive recoveries. Overall, the company reported profit after tax of Rs 170 crore with return on managed assets (RoMA) at 1.1% for fiscal 2026 as against the loss of Rs 222 crore, with return on managed assets (RoMA) at -1.6% during fiscal 2025 (Rs 449.6 crore and 3.7%, respectively, in fiscal 2024). Infact, PAT and RoMA for H2 fiscal 2026 stood at Rs 134 crore and 1.7% (annualised) respectively. Crisil Ratings expects MML to sustain the improvement in asset quality and earning profile over the near term as well.

The company remained well-capitalised, as reflected by networth of Rs 2,854 crore and gearing of 3.3 times as on March 31, 2026 (Rs 2,632 crore and 3.0 times, respectively, as on March 31, 2025). Capital position of the company also benefits from its strong parentage, which enables it to raise funds in a timely manner.

Analytical Approach

To arrive at the ratings, Crisil Ratings has taken a standalone view of MML and factored in expected support from MFL, the parent and flagship company of the Muthoot Pappachan group (MPG).

Key Rating Drivers - Strengths

Expected financial, operational and management support from the parent

Given the majority ownership, shared name, common branding and corporate identity, Crisil Ratings believes MFL has a strong moral obligation to support MML, both on an ongoing basis and in the event of distress. The promoters of MPG are also on the board of MML. The microfinance business is strategically important to the group and is the second largest business in the group, in terms of AUM, after gold loans. In addition, MML provides diversity to the overall product profile of the group. The company is also likely to benefit from new microfinance regulations, which allow for 40% of non-qualified assets in the overall book. The company is expected to diversify across the secured segments leveraging the expertise of the group companies. Consequently, MML's share in MPG's profitability is expected to increase over the medium term.

Adequate capitalisation

MML is adequately capitalised, with networth of Rs 2,854 crore (Rs 2,632 crore as on March 31, 2025) and gearing of 3.3 times (3.0 times as of March 31, 2025) as on March 31, 2026. Capitalisation benefited from the capital infusion through an initial public offer (IPO) in December 2023, with fresh equity of Rs 760 crore and Rs 200 crore via offer for sale. Resultantly, the capital adequacy ratio (CAR) stood at 23.9% as on March 31, 2026. Despite the equity raise, which has brought down MFL's stake to 50.2% from 60.3% earlier, Crisil Ratings understands MFL will retain the majority ownership in MML. Extent of ownership retained by MFL will be a key rating sensitivity factor.

Diversified resource profile

Strong relationships of the parent company and track record in navigating industry cycles have helped MML to develop a large base of lenders; the company has around 65 lenders as on March 31, 2026, diversified across term loans (53%), ECB (14%), non-convertible debentures (10%) and securitization (22%). Currently, the average cost of borrowing stood at around 10.3%. Along with the normal funding limit, the company also has unutilised securitisation lines amounting to Rs 1,728 crore as on March 31, 2026. Crisil Ratings overall believes, given the company's reasonable growth plans, its ability to continue to raise funds at competitive rates will remain a monitorable.

Key Rating Drivers - Weaknesses

Average, albeit improving asset quality

The 90+ dpd improved to 5.3% as on March 31, 2026, from 5.6% as on March 31, 2025. Microfinance asset quality had been impacted by increase in indebtedness across customers, along with external challenges such as heat waves, elections and ground-level attrition. However asset quality is exhibiting gradually recovery in the current fiscal, owing to implementation of guardrails and reduction in exposure to over-leveraged customers. Collection efficiency under the non-overdue bucket remained at over 99% during fiscal 2026.

Credit cost also reduced significantly to 3.0% in fiscal 2026, from 7.5% in fiscal 2025 supported by lower slippages and significant share of stressed assets already provided for. Operating expenses have increased marginally to 5.8% from 5.5% for the same period, following the implementation of enhanced collection incentives to drive recoveries. Overall, the company reported profit after tax of Rs 170 crore with return on managed assets (RoMA) at 1.1% for fiscal 2026 as against the loss of Rs 222 crore, with return on managed assets (RoMA) at -1.6% during fiscal 2025 (Rs 449.6 crore and 3.7%, respectively, in fiscal 2024). Infact, PAT and RoMA for H2 fiscal 2026 stood at Rs 134 crore and 1.7% (annualised) respectively.

While both asset quality and earnings profile have improved, sustainability of the same will be a monitorable.

Geographical concentration remains high

Operations are expected to remain concentrated in South India over the medium term. Tamil Nadu, Kerala and Bihar account for 26%, 14% and 9% of MML's portfolio, respectively, and together form 49% of its AUM as on March 31, 2026. The company has been expanding to around 17 other states over the past two years. As a result, per-state concentration has declined consistently, with the top state accounting for 26% of the total portfolio as on March 31, 2026, down from 53% as on March 31, 2016. However, the ability to replicate systems, processes and controls in new geographies remains a key monitorable. Following natural calamities such as cyclones and floods reported in recent fiscals, the company plans to reduce geographical concentration of its portfolio to around 20% per state, over the medium term, to reduce the impact of such events on the overall portfolio.

Susceptibility to risks arising from exposure to borrowers with inherently weak credit risk profiles and socio-political issues in the sector:

A significant portion of the MML's portfolio comprises loans to individuals under the joint-liability group (JLG) mechanism. These customers have weak credit risk profiles and lack of access to formal credit. They include farmers, tailors, cattle owners/traders, small vegetable vendors, teashop owners and dairy farmers. The incomes of these households could be volatile and dependent on the performance of the local economy.

The microfinance sector has witnessed various events over the years, including regulatory and legislative challenges, that have disrupted operations. Some of these events include the Andhra crisis, demonetisation in 2016, Covid-19 pandemic and sociopolitical issues in certain states. These events adversely affected the sector, elevated delinquencies and hurt the profitability and capitalisation metrics of NBFC-MFIs. These challenges underscore the vulnerability of the microfinance business model to external risks. Covid-19 introduced new challenges, aggravating existing vulnerabilities in the microfinance sector by heightening credit risks and the likelihood of loan default by borrowers. While the sector has

navigated these events, it remains susceptible to issues, including local elections, natural calamities and borrower protests, which may increase delinquencies for a while. Nevertheless, the company was able to manage its portfolio well without any significant impact on recoveries. However, MFIs remain vulnerable to socially sensitive factors and the macroeconomic scenario. Furthermore, the sector is regulated by multiple bodies which, from time to time, have been providing several directives to maintain credit discipline and avoid over indebtedness for borrowers.

Liquidity Strong

MML had cash and equivalents (including liquid investments and excluding term loans and securitisation lines) of Rs 881 crore as on March 31, 2026, against debt obligation and operating expenses of Rs 2,520 crore due for servicing over the next three months till June 2026. This represents liquidity cover (assuming 75% collections) of 1 time for three months. In addition, the company had unavailed sanctions of Rs 1,400 crore and securitisation lines of Rs 1,728 crore as on March 31, 2026. Liquidity is further backed by steady collections reported for the last 2-3 months, and fresh sanctions in the pipeline, and expectation of need-based and timely funding support from the parent, MFL.

Outlook: Stable

Crisil Ratings believes MML will continue to benefit from the strong support of its parent, MFL. Further, standalone entity is expected to sustain the improvement in asset quality and profitability over the near term as well.

Rating sensitivity factors

Upward factors

- Any upward revision in the rating view on parent MFL
- Geographical diversification in operations alongside scale with reduction in state and district level
- Improvement in profitability and stable overall asset quality

Downward factors

- Any downgrade revision in the rating view or change in the support philosophy from MFL to MML
- Sustained Deterioration in gearing
- Weakening of asset quality or earnings profile, leading to stressed capital position

About the Company

MML, a part of MPG, provides microfinance loans to women. MPG started its microfinance operations in 2010, as a separate division of MFL, the flagship company of the group. In December 2011, the group acquired a Mumbai-based non-banking financial company (NBFC), Pancharatna Securities Ltd, and renamed it as MML.

In March 2015, MML received an NBFC-MFI licence from the Reserve Bank of India. As on March 31, 2025, MFL held 50.2% equity in MML, followed by its promoters, who held 5.3%. Along with the promoters, MML's board includes one member nominated by Creation Investments and Greater Pacific Capital and four independent directors.

MML had AUM of Rs 14,006 crore and networth of Rs 2,854 crore as on March 31, 2026. Operations of the microfinance division are spread across Kerala, Tamil Nadu, Puducherry, Karnataka, Maharashtra, Gujarat, Haryana, Rajasthan, Uttarakhand, Madhya Pradesh, Uttar Pradesh, Odisha, West Bengal, Punjab, Chhattisgarh, Jharkhand, Bihar, Himachal Pradesh and Telangana.

About Crisil Ratings Limited (A subsidiary of Crisil Limited, an S&P Global Company)

Crisil Ratings pioneered the concept of credit rating in India in 1987. With a tradition of independence, analytical rigour and innovation, we set the standards in the credit rating business. We rate the entire range of debt instruments, such as bank loans, certificates of deposit, commercial paper, non-convertible/convertible/partially convertible bonds and debentures, perpetual bonds, bank hybrid capital instruments, asset-backed and mortgage-backed securities, partial guarantees and other structured debt instruments. We have rated over 33,000 large and mid-scale corporates and financial institutions. We have also instituted several innovations in India in the rating business, including ratings for municipal bonds, partially guaranteed instruments and infrastructure investment trusts (InvITs).

Crisil Ratings Limited ('Crisil Ratings') is a wholly-owned subsidiary of Crisil Limited ('Crisil'). Crisil Ratings Limited is registered in India as a credit rating agency with the Securities and Exchange Board of India ("SEBI").
