TEMPORRY SUSPENSTION OF WORK

This is for the information to the workmen of the mill that the mill is passing through a critical juncture for the reason of continuous low productivity, non availability & higher cost of raw jute, hands per ton is too high i.e. 80 p/ton.

In this context, this is to be acknowledge that the condition has become bad to worse day by day. The mill has become so economically sick, the Management is not able to continue the working of the mill longer and circumstances has compelled the Management declare "TEMPORRY SUSPENSTION OF WORK" of the entire manufacturing process of the Mill with effect from 02.05.16 at 06:00am.

However, this suspension of work shall not be applicable to Security and essential services. It is also to be noted that security staff and other workmen of essential service will get employment and be engaged as per requirement during the period of "TEMPORRY SUSPENSTION OF WORK". We will try to reopen the mill as soon as possible.
