Wipro Partners with IntSights to deliver 'Threat Intelligence as a Service'

Bangalore, India and London, UK– September 12, 2016: Wipro Ltd. (NYSE: WIT, BSE: 507685, NSE: WIPRO), a leading global information technology, consulting and business process services company, today announced a partnership with Israel-based IntSights Cyber Intelligence Ltd to bolster and expand its 'Threat Intelligence as a Service' offering.

IntSights has developed a sophisticated cyber threat intelligence platform which provides advance warning and customized insights about potential cyberattacks and recommends remedial action. The company monitors the open, deep and dark web, including cyber-crime forums and social media platforms for signs of targeted threats against enterprises and provides alerts in near real-time to enable timely response and mitigation.

Wipro's 'Threat Intelligence as a Service' offering delivers in-depth analysis of cyber threats originating from in-house sources and third-party sources or threat actors and provides enterprises with accurate cyber intelligence and incident mitigation strategies.

Sheetal Mehta, Vice President & Global Head, Cybersecurity & Risk Services, Wipro Limited said, "Wipro's 'Threat Intelligence as a Service', aims to provide enterprises with targeted information centered around analytics, categorization and prioritization of cyber threats in real-time using proprietary data mining algorithms and unique machine learning techniques, apart from incident response and remediation capabilities. Our partnership with IntSights provides a solid foundation for an end-to-end solution spanning intelligence gathering to threat mitigation and remediation."

"IntSights' threat intelligence platform provides MSSPs (Managed Security Service Providers) with a powerful automated solution that collects, analyzes and remediates cyber threats for our customers," said **Guy Nizan, CEO and Co-Founder, IntSights**. "Our partnership with Wipro will allow their analysts to focus their efforts toward investigating and researching threats, instead of deflecting time and resources to monitor a huge amount of sources and analyze irrelevant data."
