Press Release

Good Luck Steel Tubes Ltd got a breakthrough with Indian Railways

Ghaziabad, March 23, 2015: Good Luck Steel Tubes Ltd, an engineering product manufacturing conglomerate with an annual turnover of around Rs 1,200 crore, got approval from Indian Railway for manufacturing of specific components , one more step of the company towards its focus sector.

Good Luck got approved by Chittaranjan Locomotive Works (CLW) for manufacturing in its forging unit the Armature Shaft of HTM for Electrical Locomotives. Company has become part-I supplier to the CLW by successfully supplying Armature Shafts.

Another critical part i.e. Rotor Shaft is under advance development stage against CLW' s developmental order.

Further, Good Luck got development order for Set of Under Frame Front Part for LHB coaches from Rail Coach Factory (RCF), Kapurthala. It will be manufactured in its structure division. The LBH coaches, the German technology, are superior to conventional coaches and could run at higher speed. These coaches are anti telescopic and cannot turn turtle in the event of any derailment or collision, which is the key focus area of Indian Railway.

Development Order/Approval from Integrated Coach Factory (ICF), Chennai and Rail Coach Factory (RCF), Rae Bareli is underway.

Indian Railway, the life line of India, is in sharp focus from Government of India as well as Global powers like China & Japan. A massive investment of Rs. 8,50,000 crore is planned in next 5 years.

The Company is visualizing a huge scope of its products such as CDW tubes, forging, structure fabricated items in the Expansion of Railway Infrastructure. The Company is eyeing a good amount of share from different railway projects.

About Good Luck Steel :

Good Luck Group is an ISO 9001 certified organization, engaged in manufacturing and exporting of wide range of Automobile CDW Tubes, Forged Engineering Products, T&D Towers & Boiler Structure, Galvanized Pipes, Roofing Sheets & Annealed Sheets. Our Group is one of India's leading and fastest growing business groups with over 1800 employees and having plants and units at different locations. With all requisite facilities and domain expertise, Good Luck have the capacity to manufacture & process around 2,00,000 MT of various steel products. Years of research and careful Co-Ordination of methodology has resulted in qualitatively superior products meeting stringent customer norms, manufactured by cost effective production techniques.

Statements in this document relating to future status, events, or circumstances, including but not limited to statements about plans and objectives, the progress and results of research and development, potential product characteristics and uses, product sales potential and target dates for product launch are forward-looking statements based on estimates and the anticipated effects of future events on current and developing circumstances. Such statements are subject to numerous risks and uncertainties and are not necessarily predictive of future results. Actual results may differ materially from those anticipated in the forward-looking statements.
