Om Metals forays into Africa, bags hydro-mechanical orders from BHEL and MB Power

Mumbai, January 24th, 2013: Om Metals Infraprojects Ltd, India's leading hydro-mechanical engineering company today announced that it has bagged hydro-mechanical orders worth Rs 40.5 crores.

The first order is from Bharat Heavy Electricals Ltd (BHEL) to execute the hydro-mechanical works for a 28 MW hydro-electric power project in Nyaborongo district at Republic of Rwanda, Africa. Om Metals has made an entry into the African region, which is seeing phenomenal uptick in investments in infrastructure over the next few years. The scope of activity includes design, fabrication, manufacturing, transportation, erection, testing and commissioning of Gates and Pen Stocks. The project is expected to be completed by December 2013.

The Company has also received order from Moser Baer Power Madhya Pradesh Limited (MBPIL) to execute the hydro-mechanical works on River Sone barrage. This 2520 MW project is one of the biggest thermal power projects wherein Om Metals will be installing 7 radial gates. The Company is engaged in the supply of hydro-mechanical equipments including general & mandatory spares for hydro-mechanical works which is expected to be completed by March 2014. This power project is situated in the district of Anuppur, Madhya Pradesh.

Mr. Vikas Kothari, Director, Business Development said, "With these orders we have made entries into the African region and the private sector in India. This is the first contract we have received from BHEL and we see many more coming from our synergies hereon. These orders confirm the fact that we have technology expertise in niche areas.
