Delhi HC halts implementation of waiver on electricity bills

New Delhi, Feb 19: The Delhi High Court on Wednesday directed the city government not to implement the 50% subsidy announced by it to people who did not pay their power bills from October 2012 to December 2013.

"Don't take any further steps on it," a bench of Justices BD Ahmed and Sidhorth Mridul said in an oral order and listed the matter for February 21. The court directed the standing counsel for the Delhi government to seek instructions and file an affidavit indicating the actual position regarding the proposal of then AAP government.

The court passed the order as there was "no clarity" on whether the Delhi cabinet had taken a decision to implement the subsidy as claimed by petitioner Vivek Sharma. It was hearing a PIL challenging the subsidy given by the former government to people who did not pay their bills from October 2012 to December 2013. The bench observed that a note by ex-CM Arvind Kejriwal had said the subsidy proposal needed to be placed before the cabinet. **PTI**

Country's FDI inflows unchanged at \$1.1 bn in Dec

New Delhi, Feb 19: India received \$1.1 billion of FDI in December 2013, unchanged from the level in the same month a year earlier, according to data from the Department of Industrial Policy and Promotion.

For the April-December period, foreign investment inflows dipped 2% to \$16.56 billion from \$16.94 billion during the corresponding period of the previous year, it said.

During the first nine months of this financial year, the highest FDI came in services (\$1.59 billion), followed by pharmaceuticals (\$1.26 billion), construction development (\$914 million) and automobiles (\$871 million). Mauritius led inflows into India with \$3.67 billion of FDI during April-December, followed by Singapore (\$3.2 billion), UK (\$3.14 billion) and the Netherlands (\$1.6 billion).

The country needs FDI to help regain its growth momentum. India's economic growth slowed to a decade's low of 4.5% in 2012-13. **PTI**

Bribery, graft cases up 13% globally since 2011: Report

New Delhi, Feb 19: Bribery and corruption cases jumped 13% globally since 2011 with the engineering and construction sector topping the list, followed by government agencies, a PwC report said on Wednesday.

According to the multinational accounting firm, the menace of bribery and corruption will continue to rule the economic crimes chart this year as well.

"Every region reported a significant number of incidences of bribery and corruption. Twenty-seven per cent of respondents who reported economic crime experienced corruption during the survey period, making it the third-highest crime specified and a slight increase of 13% from 1% reported in 2011," PwC said in its 2014 Global Economic Crime Survey. This was due only to asset misappropriation (69%) and procurement fraud (29%), it added.

Also, about 53% of the EOs surveyed expressed concerns about bribery and corruption, up from 34% in 2011. PwC said companies that experienced incidences of bribery and corruption "more frequently reported losses of over \$5 million". "These large losses may be connected to the reported increase in incidents of bribery and corruption — trends which can be especially costly to organisations, with regulatory fines, legal fees and media expenses potentially adding billions of US dollars," it said. Delhi HC halts implementation of waiver on electricity bills

New Delhi, Feb 19: The Delhi High Court on Wednesday directed the city government not to implement the 50% subsidy announced by it to people who did not pay their power bills from October 2012 to December 2013.

"Don't take any further steps on it," a bench of Justices BD Ahmed and Sindhurth Mridul said in an oral order and listed the matter for February 21. The court directed the standing counsel for the Delhi government to seek instructions and file an affidavit indicating the actual po-

sition regarding the proposal of then AAP government.

The court passed the order as there was "no clarity" on whether the Delhi cabinet had taken a decision to implement the subsidy as claimed by petitioner Vivek Sharma. It was hearing a PIL challenging the subsidy given by the former government to people who did not pay their bills from October 2012 to December 2013. The bench observed that a note by ex-CM Arvind Kejriwal had said the subsidy proposal needed to be placed before the cabinet. **PTI**

Country's FDI inflows unchanged at \$1.1 bn in Dec

New Delhi, Feb 19: India received \$1.1 billion of FDI in December 2013, unchanged from the level in the same month a year earlier, according to data from the Department of Industrial Policy and Promotion.

For the April-December period, foreign investment inflows dipped 2% to \$16.56 billion from \$16.94 billion during the corresponding period of the previous year, it said.

During the first nine months of this financial year, the highest FDI came in services (\$1.59 billion), followed by pharmaceuticals (\$1.26 billion), construction development (\$914 million) and automobiles (\$971 million). Mauritius led inflows into India with \$3.67 billion of FDI during April-December, followed by Singapore (\$3.2 billion), UK (\$3.14 billion) and the Netherlands (\$1.6 billion).

The country needs FDI to help regain its growth momentum. India's economic growth slowed to a decade's low of 4.5% in 2012-13. *PTI*

Bribery, graft cases up 13% globally since 2011: Report

New Delhi, Feb 19: Bribery and corruption cases jumped 3% globally since 2011 with the engineering and construction sector topping the list, followed by government business, a PwC report said on Wednesday.

According to the multinational accounting firm, the menace of bribery and corruption will continue to rule the economic crimes charts this year as well.

“Every region reported a significant number of incidences of bribery and corruption. Twenty-seven per cent of all respondents who reported economic crime experienced corruption during the survey period, making it the third-highest crime specified and a relative increase of 13% from 1% reported in 2011,” PwC said in its 2014 Global Economic Crime Survey. This was limited only to asset misappropriation (69%) and procurement fraud (29%). It added,

Also, about 53% of the EOssurveyed expressed concerns about bribery and corruption, up from 34% in 2011.

PwC said companies that experienced incidences of "bribery and corruption" more frequently reported losses of over \$5 million. "These large losses may be connected to the reported increase in incidents of bribery and corruption — audits which can be especially costly to organisations, with regulatory fines, legal fees and media expenses potentially reaching billions of US dollars in total. Delhi HC halts implementation of waiver on electricity bills

New Delhi, Feb 19: The Delhi High Court on Wednesday directed the city government not to implement the 50% subsidy announced by it to people who did not pay their power bills from October 2012 to December 2013.

"Don't take any further steps on it," a bench of Justices BD Ahmed and Siddharth Mridul said in an oral order and listed the matter for February 21. The court directed the standing counsel for the Delhi government to seek instructions and file an affidavit indicating the actual position regarding the proposal of then AAP government.

The court passed the order as there was "no clarity" on whether the Delhi cabinet had taken a decision to implement the subsidy as claimed by petitioner Vivek Sharma. It was hearing a PIL challenging the subsidy given by the former government to people who did not pay their bills from October 2012 to December 2013. The bench observed that a note by ex-CM Arvind Kejriwal had said the subsidy proposal needed to be placed before the cabinet. **PTI**

New Delhi, Feb 19: India received \$1.1 billion of FDI in December 2013, unchanged from the level in the same month a year earlier, according to data from the Department of Industrial Policy and Promotion.

For the April-December period, foreign investment inflows dipped 2% to \$16.56 billion from \$16.94 billion during the corresponding period of the previous year, it said.

The country needs FDI to help regain its growth momentum. India's economic growth slowed to a decade's low of 4.5% in 2012-13. **PTI**

Bribery, graft cases up 13% globally since 2011: Report

New Delhi, Feb 19: Bribery and corruption cases jumped 13% globally since 2011 with the engineering and construction sector topping the list, followed by government business, a PwC report said on Wednesday.

According to the multinational accounting firm, the menace of bribery and corruption will continue to rule the economic crimes chart this year as well.

"Every region reported a significant number of incidences of bribery and corruption. Twenty-seven per cent of all respondents who reported economic crime experienced corruption during the survey period, making it the third-highest crime specified and a relative increase of 13% from 4% reported in 2011," PwC said in its 2014 Global Economic Crime Survey. This was the first time that asset misappropriation (69%) and procurement fraud (29%) were added.

Also, about 63% of the CEOs surveyed expressed concerns about bribery and corruption, up from 34% in 2011.

PwC said companies that experienced incidences of bribery and corruption "more frequently reported losses of over \$5 million". "These large losses may be connected to the reported increase in incidents of bribery and corruption — audits which can be especially costly to organisations, with regulatory fines, legal fees and remedial expenses potentially reaching billions of US dollars," it said. Delhi HC halts implementation of waiver on electricity bills

New Delhi, Feb 19: The Delhi High Court on Wednesday directed the city government not to implement the 50% subsidy announced by it to people who did not pay their power bills from October 2012 to December 2013.

"Don't take any further steps on it," a bench of Justices BD Ahmed and Siddharth Mridul said in an oral order and listed the matter for February 21. The court directed the standing counsel for the Delhi government to seek instructions and file an affidavit indicating the actual position regarding the proposal of then AAP government.

The court passed the order as there was "no clarity" on whether the Delhi cabinet had taken a decision to implement the subsidy as claimed by petitioner Vivek Sharma. It was hearing a PIL challenging the subsidy given by the former government to people who did not pay their bills from October 2012 to December 2013. The bench observed that a note by ex-CM Arvind Kejriwal had said the subsidy proposal needed to be placed before the cabinet. **PTI**

Country's FDI inflows unchanged at \$1.1 bn in Dec

New Delhi, Feb 19: India received \$1.1 billion of FDI in December 2013, unchanged from the level in the same month a year earlier, according to data from the Department of Industrial Policy and Promotion.

For the April-December period, foreign investment inflows dipped 2% to \$16.56 billion from \$16.94 billion during the corresponding period of the previous year, it said.

During the first nine months of this financial year, the highest FDI came in services (\$1.59 billion), followed by pharmaceuticals (\$1.26 billion), construction development (\$914 million) and automobiles (\$871 million). Mauritius led inflows into India with \$3.67 billion of FDI during April-December, followed by Singapore (\$3.2 billion), UK (\$3.14 billion) and the Netherlands (\$1.6 billion).

The country needs FDI to help regain its growth momentum. India's economic growth slowed to a decade's low of 4.5% in 2012-13. **PTI**

Bribery, graft cases up 13% globally since 2011: Report

New Delhi, Feb 19: Bribery and corruption cases jumped 13% globally since 2011 with the engineering and construction sector topping the list, followed by government business, a PwC report said on Wednesday.

According to the multinational accounting firm, the menace of bribery and corruption will continue to rule the economic crimes chart this year as well.

"Every region reported a significant number of incidences of bribery and corruption. Twenty-seven per cent of all respondents who reported economic crime experienced corruption during the survey period, making it the third-highest crime specified and a relative increase of 13% from 24% reported in 2011," PwC said in its 2014 Global Economic Crime Survey. This was the third year to report misappropriation (69%) and procurement fraud (29%), it added.

Also, about 53% of the CFOs surveyed expressed concerns about bribery and corruption, up from 34% in 2011.

PwC said companies that experienced incidences of bribery and corruption "more frequently reported losses of over \$5 million". "These large losses may be connected to the reported increase in incidents of bribery and corruption — frauds which can be especially costly to organisations, with regulatory fines, legal fees and remedial expenses potentially reaching billions of US dollars," it said. The survey included 5,128 representatives from over 95 countries. **PTI**

Delhi HC halts implementation of waiver on electricity bills

New Delhi, Feb 19: The Delhi High Court on Wednesday directed the city government not to implement the 50% subsidy announced by it to people who did not pay their power bills from October 2012 to December 2013.

"Don't take any further steps on it," a bench of Justices BD Ahmed and Siddharth Mridul said in an oral order and listed the matter for February 21. The court directed the standing counsel for the Delhi government to seek instructions and file an affidavit indicating the actual position regarding the proposal of then AAP government.

The court passed the order as there was "no clarity" on whether the Delhi cabinet had taken a decision to implement the subsidy as claimed by petitioner Vivek Sharma. It was hearing a PIL challenging the subsidy given by the former government to people who did not pay their bills from October 2012 to December 2013. The bench observed that a note by ex-CM Arvind Kejriwal had said the subsidy proposal needed to be placed before the cabinet. **PTI**

Country's FDI inflows unchanged at \$1.1 bn in Dec

New Delhi, Feb 19: India received \$1.1 billion of FDI in December 2013, unchanged from the level in the same month a year earlier, according to data from the Department of Industrial Policy and Promotion.

For the April-December period, foreign investment inflows dipped 2% to \$16.56 billion from \$16.94 billion during the corresponding period of the previous year, it said.

During the first nine months of this financial year, the highest FDI came in services (\$1.59 billion), followed by pharmaceuticals (\$1.26 billion), construction development (\$914 million) and automobiles (\$871 million). Mauritius led inflows into India with \$3.67 billion of FDI during April-December, followed by Singapore (\$3.2 billion), UK (\$3.14 billion) and the Netherlands (\$1.6 billion).

The country needs FDI to help regain its growth momentum. India's economic growth slowed to a decade's low of 4.5% in 2012-13. **PTI**

Bribery, graft cases up 13% globally since 2011: Report

New Delhi, Feb 19: Bribery and corruption cases jumped 13% globally since 2011 with the engineering and construction sector topping the list, followed by government business, a PwC report said on Wednesday.

According to the multinational accounting firm, the menace of bribery and corruption will continue to rule the economic crimes chart in 2014 as well.

"Every region reported a significant number of incidences of bribery and corruption. Twenty-seven per cent of respondents who reported economic crime experienced corruption during the survey period, making it the third-highest crime specified and a relative increase of 13% from 1% reported in 2011," PwC said in its 2014 Global Economic Crime Survey. This was the first time only to asset misappropriation (69%) and procurement fraud (29%), it added.

Also, about 53% of the EOs surveyed expressed concerns about bribery and corruption, up from 34% in 2011. PwC said companies that experienced incidences of bribery and corruption "more frequently reported losses of over \$5 million." "These large losses may be connected to the reported increase in incidents of bribery and corruption — and which can be especially costly to organisations, with regulatory fines, legal fees and media expenses potentially reaching billions of US dollars," it said. Delhi HC halts implementation of waiver on electricity bills

New Delhi, Feb 19: The Delhi High Court on Wednesday directed the city government not to implement the 50% subsidy announced by it to people who did not pay their power bills from October 2012 to December 2013.

"Don't take any further steps on it," a bench of Justices BD Ahmed and Siddharth Mridul said in an oral order and listed the matter for February 21. The court directed the standing counsel for the Delhi government to seek instructions and file an affidavit indicating the actual position regarding the proposal of then AAP government.

The court passed the order as there was "no clarity" on whether the Delhi cabinet had taken a decision to implement the subsidy as claimed by petitioner Vivek Sharma. It was hearing a PIL challenging the subsidy given by the former government to people who did not pay their bills from October 2012 to December 2013. The bench observed that a note by ex-CM Arvind Kejriwal had said the subsidy proposal needed to be placed before the cabinet. **PTI**

Country's FDI inflows unchanged at \$1.1 bn in Dec

New Delhi, Feb 19: India received \$1.1 billion of FDI in December 2013, unchanged from the level in the same month a year earlier, according to data from the Department of Industrial Policy and Promotion.

For the April-December period, foreign investment inflows dipped 2% to \$16.56 billion from \$16.94 billion during the corresponding period of the previous year, it said.

During the first nine months of this financial year, the highest FDI came in services (\$1.59 billion), followed by pharmaceuticals (\$1.26 billion), construction development (\$914 million) and automobiles (\$871 million). Mauritius led inflows into India with \$3.67 billion of FDI during April-December, followed by Singapore (\$3.2 billion), UK (\$3.14 billion) and the Netherlands (\$1.6 billion).

The country needs FDI to help regain its growth momentum. India's economic growth slowed to a decade's low of 4.5% in 2012-13. **PTI**

Bribery, graft cases up 13% globally since 2011: Report

New Delhi, Feb 19: Bribery and corruption cases jumped 13% globally since 2011 with the engineering and construction sector topping the list, followed by government business, a PwC report said on Wednesday.

According to the multinational accounting firm, the menace of bribery and corruption will continue to rule the economic crimes chart this year as well.

"Every region reported a significant number of incidences of bribery and corruption. Twenty-seven per cent of all respondents who reported economic crime experienced corruption during the survey period, making it the third-highest crime specified and a relative increase of 13% from 24% reported in 2011," PwC said in its 2014 Global Economic Crime Survey. This was third only to asset misappropriation (69%) and procurement fraud (29%), it added.

Also, about 53% of the CEOs surveyed expressed concerns about bribery and corruption, up from 34% in 2011.

PwC said companies that experienced incidences of bribery and corruption "more frequently reported losses of over \$5 million". These large losses may be connected to the reported increase in incidents of bribery and corruption — frauds which can be especially costly to organisations, with regulatory fines, legal fees and remedial expenses potentially reaching billions of US dollars," it said. Bribery, graft cases up 13% globally since 2011: Report

New Delhi, Feb 19: Bribery and corruption cases jumped 13% globally since 2011 with the engineering and construction sector topping the list, followed by government business, a PwC report said on Wednesday.

According to the multinational accounting firm, the menace of bribery and corruption will continue to rule the economic crimes chart this year as well.

"Every region reported a significant number of incidences of bribery and corruption. Twenty-seven per cent of all respondents who reported economic crime experienced corruption during the survey period, making it the third-highest crime specified and a relative increase of 13% from 4% reported in 2011," PwC said in its 2014 Global Economic Crime Survey. This was held only to asset misappropriation (69%) and procurement fraud (29%), it added.

Also, about 53% of the CEOs surveyed expressed concerns about bribery and corruption, up from 34% in 2011.

PwC said companies that experienced incidences of bribery and corruption "more frequently reported losses of over \$5 million". "These large losses may be connected to the reported increase in incidents of bribery and corruption — frauds which can be especially costly to organisations, with regulatory fines, legal fees and remedial expenses potentially reaching billions of US dollars," it said. New Delhi, Feb 19: India received \$1.1 billion of FDI in December 2013, unchanged from the level in the same month a year earlier, according to data from the Department of Industrial Policy and Promotion.

For the April-December period, foreign investment inflows dipped 2% to \$16.56 billion from \$16.94 billion during the corresponding period of the previous year, it said.

During the first nine months of this financial year, the highest FDI came in services (\$1.59 billion), followed by pharmaceuticals (\$1.26 billion), construction development (\$914 million) and automobiles (\$871 million). Mauritius led inflows into India with \$3.67 billion of FDI during April-December, followed by Singapore (\$3.2 billion), UK (\$3.14 billion) and the Netherlands (\$1.6 billion).

The country needs FDI to help regain its growth momentum. India's economic growth slowed to a decade's low of 4.5% in 2012-13. **PTI**

New Delhi, Feb 19: Bribery and corruption cases jumped 3% globally since 2011 with the engineering and construction sector topping the list, followed by government business, a PwC report said on Wednesday.

This was the first time that asset misappropriation (69%) and procurement fraud (29%) topped the list.

Also, about 53% of the EO surveyed expressed concerns about bribery and corruption, up from 34% in 2011. PwC said companies that experienced incidences of bribery and corruption "more frequently reported losses of over \$5 million". "These large losses may be connected to the reported increase in incidents of bribery and corruption — audits which can be especially costly to organisations, with regulatory fines, legal fees and media expenses potentially reaching billions of US dollars," it said.
