PRESS RELEASE

Good Luck Credit Rating Upgraded by ICRA

Ghaziabad, December 02, 2015: Good Luck Steel Tubes Ltd is pleased to announce that ICRA has upgraded its **long term rating** to one notch higher at **BBB+ from BBB** earlier and also upgraded the **short term rating to A2 from A3+**. The outlook on the long-term rating is Stable.

ICRA's long term rating BBB + signifies that the company has moderate degree of safety regarding timely servicing of financial obligations and + (plus) appended to the rating symbol indicate stronger relative position. On the other hand, for short term the company with A2 rating is now in a strong degree of safety regarding timely payment of financial obligations earlier from moderate degree of safety regarding timely payment of financial obligations. Improvements in rating increases stakeholders trust and will also help the company to raise finances at better terms.

According to ICRA, "The upgrade of ratings reflects significant improvement in Good Luck's profitability in 1HFY16 (six months ending September 2015) post commissioning of expanded capacity for precision tubes during FY15 which resulted in lower gearing and leverage ratio for the company. ICRA notes that the operating profit margin of the company improved to 10.6% in 1HFY16 from 7.7% in FY15 while its gearing reduced to 1.48 times from 1.71 times over the same period. The improvement has been brought about by consistent efforts of the management to diversify its product portfolio in favour of value-added products which currently comprise 50% of its turnover."

Going forward, the ability of the company to augment its revenues while sustaining recent improvement in profitability and to improve its capital structure and coverage indicators will form the key rating sensitivities from credit perspective.

About Good Luck Steel :

Good Luck Group is an ISO 9001 certified organization, engaged in manufacturing and exporting of wide range of Automobile CDW Tubes, Forged Engineering Products, T&D Towers & Boiler Structure, Galvanized Pipes, Roofing Sheets & Annealed Sheets.
