TCS reiterates continued momentum in the BFS vertical

MUMBAI, February 9, 2016: On the eve of Nasscom's India Leadership Forum 2016 in Mumbai, Tata Consultancy Services (TCS), (BSE: 532540, NSE: TCS) a leading global IT services, consulting and business solutions organization, allayed market concerns about the state of demand in the Banking and Financial Services industry vertical by reiterating that TCS' business in the BFS vertical continues to grow well, ahead of the overall company growth.

The Company pointed out that revenues from the Banking and Financial Services industry vertical in CY 2015 grew by 15% year on year in constant currency terms. On the other hand, company-wide revenues grew 13.5% on a constant currency revenue basis in CY 15, representing absolute incremental revenue of $2.025Bn. On an organic basis, TCS' constant currency revenue addition of $1.85Bn is the highest in the industry in CY 15.

"Our growth in the BFS vertical is driven by our strong participation in our customers' Digital spending," said N Chandrasekaran, CEO and MD of TCS. "Our deep domain expertise, our investments in Digital, our software products in the BFS vertical combined with our capabilities in operations and technology presents a very compelling, full suite of services to customers, harnessing the power of Digital technologies to solve their business problems and deliver real value," he added.
