TCS partners with ASML to simplify business processes and enrich stakeholder experience

Hyderabad, November 24, 2016: Tata Consultancy Services (BSE: 532540, NSE: TCS), a leading global IT services, consulting and business solutions organization, today announced that TCS will implement a unified global process blueprint for ASML, aiming to simplify business processes, improve operational efficiency and elevate stakeholder experience.

Recently, TCS set up an exclusive centre for ASML in its Hyderabad Campus, which was inaugurated by Mr. Louis Luijten, Chief Information Officer and Mr. Wolfgang Nickl, Executive Vice President and Chief Financial Officer of ASML.

"As computer chips get smaller and smaller, our lithography machines grow increasingly more complex and customized. Our IT processes and systems needs to be able to support this trend", Louis Luijten, Chief Information Officer, ASML said. "With TCS, we have found the right level of expertise, experience and scale to partner with us. We are very pleased to enrich our partnership."

TCS has been ASML's trusted partner, providing a range of services including IT Application Portfolio Management, Cyber Security Operations and support for Product Lifecycle Management platforms. TCS has been a key transformation partner to ASML, contributing to its growth vision and future-ready IT landscape.

"We are very pleased that ASML has selected TCS as a strategic partner for this important initiative further strengthening our partnership. We are committed to bringing the best of TCS to drive value, and enable ASML to meet their business goals", said Mr. V. Rajanna, Vice President and Global Head of the Technology Business Unit at TCS.

About ASML

ASML is one of the world's leading manufacturers of chip-making equipment. Our vision is to enable affordable microelectronics that improve the quality of life. To achieve this, our mission is to invent, develop, manufacture and service advanced technology for high-tech lithography, metrology and software solutions for the semiconductor industry. ASML's guiding principle is continuing Moore's Law towards ever smaller, cheaper, more powerful and energy-efficient semiconductors. This results in increasingly powerful and capable electronics that enable the world to progress within a multitude of fields, including healthcare, technology, communications, energy, mobility, and entertainment. We are a multinational company with over 70 locations in 16 countries, headquartered in Veldhoven, the Netherlands. We employ more than 15,500 people on payroll and flexible contracts (expressed in full time equivalents). ASML is traded on Euronext Amsterdam and NASDAQ under the symbol ASML. More information about ASML, our products and technology, and career opportunities is available on www.ASML.com.
